This isn't your average matchmaking event—it's a "fake-marriage fair," where gay men and women meet to make matrimonial deals with members of the opposite sex in order to satisfy social and familial expectations of heterosexual unions. Inside the Chinese Closet is the intricate tale of Andy and Cherry looking for love and happiness in vibrant Shanghai. Because being single and childless would mean an unacceptable loss of face for their rural families, particularly in the remote countryside where they live. Will Andy and Cherry deny their happiness and sexual orientation to satisfy their parents' wishes? The stories of Andy and Cherry mirror the legal and cultural progress that is happening in China against the backdrop of a nation coming to terms with new moral values.

ARCHITECTURE

ART HOUSE

Director: Don Freeman

In this documentary, photographer Don Freeman explores the homes designed

and lived in by notable American artists, revealing the inventiveness derived from the dialogue between each artist's practice and the construction of their handmade homes. Ranging from the romantic (Hudson River School painter Frederic Church's Olana, framing views of the Catskills to echo his paintings), to the futuristic (Paolo Soleri's silt-casted structure Cosanti growing out of his bell-making experiments in the Arizona desert), to the sublime (George Nakashima's mid-century modern ode to the beauty and versatility of wood), what they all have in common is a fierce spirit of individual expression that deserves deeper examination in this age of architectural standardization.

LEADENHALL BUILDING, THE: THE SERVANT & THE SERVED

Graham Stirk is a senior partner at Rogers Stirk Harbour + Partners, having first joined the practice in 1983 when it was titled the Richard Rogers Partnership. As principal architect on buildings that include the office scheme 88 Wood Street, the luxury residential building One Hyde Park, two airports and a winery, he helps steer the design direction of the practice.

Here Stirk discusses The Leadenhall Building - a speculative office tower in London's financial district. The tower is inclined along the south side to avoid blocking a key view of St Paul's Cathedral, with core services housed in a vertical "cassette" on the north side. The concept of distinct served and servant spaces, borrowed from Louis Kahn, recurs throughout the work of the practice. Stirk also explores the challenges of building across the street from the Lloyd's Register of Shipping - the first building he worked on after graduation and, in contrast to Leadenhall, one of the most bespoke office buildings on the planet - and explains the 11 year lag between commission and completion.

ARTS

ARTIST 'S STUDIO (1855) BY GUSTAVE COURBET, THE

Paris shone brightly in the second half of the 19th century, with its fashionable restaurants, and its cabarets and theatres, which provided the spectacle of a carefree society. The industrial revolution produced wealth, and fortunes were amassed and lost.

Gustave Courbet's work is politically involved and provocative. It reveals his support for revolutionary movements, and condemns Napoleon III's authoritarian regime. In addition to its critical dimension, the canvas has an air of mystery, and depicts contradictions.

BATHERS AT ASNIERES (1884) BY GEORGES SEURAT

At the end of the 19th century, Asnières resembled a seaside resort. The cheering crowd that came to attend the regattas animated the banks of the Seine, and the rowing club was always full.

When he painted his canvass, Georges Seurat understood that his current era was totally turned towards a fascinating and ruthless religion: progress. Determined that art should not remain left out of these drastic changes underway, he invented

pointillism.

CHET ZAR: I LIKE TO PAINT MONSTERS

Director: Mike Correll

Enter the dark and foreboding world of Chet Zar, where apocalyptic industrial landscapes are inhabited by disturbing yet beautiful monstrosities. Sometimes gruesome, periodically funny, but always thought-provoking, Zar's art is as enigmatic as it is frightening. But who is Chet Zar, and why does he like to paint monsters? These are the questions at the heart of Chet Zar: I Like to Paint Monsters.

Zar is an influential figure in the Dark Art Movement, and, given his chosen moniker "Painter of Dark," this is no surprise. Born in 1967 in San Pedro, California, Zar was well known as the family prankster. With a passion for horror films, an innate urge to create bizarre artwork, and a superhuman work ethic, Zar seemed to be made for the special effects industry. During his time with the film industry, he designed and created creatures and make-up effects for such films as Darkman, The Ring, Hellboy I & II, and Planet of the Apes. Even more well-known is his work with the band Tool, contributing to both their music videos and their on-stage theatrical animations.

Despite his success in the film industry, Zar became disenchanted by the many artistic compromises required of him. With the support of his family and horror author Clive Barker, Zar decided in early 2000 to pursue his passion for monsters by painting them. In this new arena, he has flourished and found the much-needed freedom to explore his internal world and all of the oddities created by his brush strokes.

Chet Zar: I Like to Paint Monsters is your opportunity to take a journey into the mind and life of Zar. Become acquainted with his thoughts, motivations, and reflections of the past as well as his projections of the future. Delve into his experiences in the film industry, his transition from early special effects into the world of computer animation, and, ultimately, his evolution into the distinctive artist he is today.

This unique opportunity will allow you unprecedented access into the Dark Art movement, including the studios where it is being forged and the galleries where this cataclysmic work is being shown. Take part in this dynamic endeavor to explore the life and work of Chet Zar, "Painter of Dark"!

CHINA, ONE MILLION ARTISTS

Since 2012, China has been the world number one in art sales. Who are these artists? What drives them and how do they combat censorship?

Contemporary Chinese art was finally able to take off after Mao's death. Artists have revisited Western art and some have hijacked Communist propaganda, adding to it a criticism of the Western consumerism that is sweeping the country. Art is well placed to observe the excesses of Chinese society, and has become the flag bearer for aspirations to freedom. These contemporary works symbolise people's wounds and hardships, and State violence.

Although two artists - Basquiat and Koons - constitute 50% of the American market, China has 47 artists in the top 100, and nearly half them are newcomers.

Through personal encounters with the most original and avant-garde artists, in their workshops or during performances, this film sets out to understand their work and what motivates them, as well as looking at how they fight censorship.

HENRI ROUSSEAU OR THE BURGEONING OF MODERN ART

This documentary film explores the secret inspiration and the little known influences of a painter whose canvasses are much less naive than they appear to be.

Henri Rousseau started to paint in Paris around 1880, at the age of 40. This self-taught artist was friendly with the poet Apollinaire, Robert Delaunay and Pablo Picasso, who recognized his genius, and yet his work was to remain underrated during his lifetime. However, with its dislocated compositions and profoundly dreamlike subject matter, it was to have a decisive influence on modern art, from surrealism to abstract art.

LAS MENINAS (1665) BY DIEGO VELAZQUEZ

In the mid-17th century, Madrid experienced its Golden Age. The Royal Alcazar of Madrid, a legacy of the Muslim sovereignty that had dominated the region for a long time, became the residence of the royal family and the centre of the Spanish court.

Diego Velázquez' canvas plunges us into the practices and traditions of the Hapsburgs of Spain. But more importantly,

the work is a recursive reflection of reality: between model, viewer and artist, we no longer know who is looking at who.

MINIMALISM - A DOCUMENTARY ABOUT THE IMPORTANT THINGS

By Matt D'Avella

Can true happiness and success be measured by material possessions? What is the personal and global impact of our consumer culture? Is there an alternative?

Minimalism: A Documentary About the Important Things examines the many aspects of the growing "minimalist" movement that is challenging compulsory consumerism and seeking a different path.

The authors of two best-selling books on minimalism, Joshua Fields Millburn and Ryan Nicodemus, take viewers on a road trip across America that reveals the core ideas behind minimalism and meets people who share their transformational stories.

Millburn and Nicodemus are friends from college who lived the corporate rat race only to find that it never really brought them happiness. Though their paychecks grew, the void in their lives remained the same. Each had their own personal breaking point that moved them away from the consumer lifestyle.

From architects, designers, and musicians, to businessmen, authors, and families, the film explores the ways that many different types of people are attempting to live simpler, more meaningful lives, and their varied motivations for doing so.

Among the leading voices in the minimalist movement the film visits with are: sociologist/author Juliet Schor, Zen Habit's Leo Babauta, Becoming Minimalist's Joshua Becker, neuroscientist/author Sam Harris, and Colin Beavan, aka "No Impact Man". Each lends their experience living a minimalist life and delves into the environmental, social and psychological wake that is the result of compulsive consumerism.

FASHION SCANDALS

Fashion loves a scandal. In fact, it only progresses thanks to scandals - from the juicy to the thorny, to the spicy to the laughable.

There are various types of scandal in fashion, and this series endeavours to examine all of them, in a humorous light, seeking the fly in the ointment, the revealing or raunchy anecdote. Loïc Prigent wants to reveal fashion's state of mind, and one of its principles: how to get ahead if you don't respect a thing. Fashion thinks outside the box - and therefore frequently clashes, often for better, sometimes for worse - and sometimes for the grotesque.

PARIS COUTURE

Shortly after the Second World War, Parisian haute couture experienced an extraordinary revival epitomised by Dior's New Look, Givenchy's elegance, Chanel's style and Balenciaga's sophistication. It was a golden age, but it was also a swan song - the last blaze of glory of a world that had become an anachronism.

Through the intertwined careers of the great couturiers of the period and their eccentric, immensely rich customers, Paris Couture conjures up a world that has vanished forever - the world of the great couture houses, with its fancy dress balls and salons.

During those 25 years, the couturiers were able to give their imaginations a free rein, indulging in every possible extravagance, but the democratization of fashion, the advent of the leisure society and increasingly affordable air travel were to hasten the decline of haute couture.

Yves Saint Laurent's job was to draw. It was his passion. He was never happier then when he was drawing. His sketches make up such a vast body of work it has not yet been fully catalogued. SOCIAL SCIENCES

ACTIVISTS, THE: WAR, PEACE, AND POLITICS IN THE STREETS

Directed by Melody Shemtov

The story of activists who opposed the wars in Iraq and Afghanistan, including their lives, the tactics they used, and the historical context.

Activists and activism have long been a part of the struggle for peace and justice in American politics and society. Activists have fought battles for civil rights, voter enfranchisement, collective bargaining, and an end to wars. While these struggles have sometimes yielded significant victories, and at other times resulted in disappointing defeats, activism has always been driven by ordinary people who give freely of their time and resources to try to bring about their visions for a new world. However, activists -- as well as how they fit into the political process -- are often

overlooked or misunderstood by their fellow citizens.

The Activists: War, Peace, and Politics in the Streets brings to life the stories of ordinary people who tried to stop and end the U.S. wars in Iraq and Afghanistan. At best, activists had limited influence over the conduct of military policy after 9/11. Yet, their experiences in the antiwar movement helped them to learn about speaking out in the face of injustice. They inspired others to do the same during the Arab Spring and Occupy Wall Street movements. Indeed, democracy requires more than just one vote every four years. It requires continued pressure by citizens on their government. This is what democracy looks like!

Featuring leading activists and scholars including Tom Hayden, Leslie Cagan, Medea Benjamin, and Michael Heaney.

BOLD PEACE, A

Directed by Matthew Eddy, Michael Dreiling

Almost 70 years ago Costa Rica abolished its army and committed itself to fostering a peaceful society. It has been reaping the benefits ever since.

In his famous "Cross of Iron" speech in 1953, President Eisenhower critiqued the military-industrial complex while asking, "Is there no other way the world may live?" In Costa Rica today, we glimpse another way to live.

In 1948, Costa Rica dismantled their military establishment and intentionally cultivated security relationships with other nations through treaties, international laws, and international organizations. Free of the burden of military spending, they used the financial savings to invest in their people, creating strong public institutions including public higher education and universal health care. In short, Costa Ricans created a society committed to peace, solidarity, and international law. They have survived with safety and relative prosperity for nearly 70 years without a standing army.

A BOLD PEACE details the events which shook the country to its foundations,

culminating in the 1948 civil war and the decision to abolish the military. Over the decades, the Costa Rican model has survived several serious crises, but the current threats may be the most formidable of all.

COMPANY TOWN

Directed by Deborah Kaufman, Alan Snitow

A grassroots movement challenges Citizens United, corporate power, and moguls of the "sharing economy" to stop gentrification and wrest back control of San Francisco's future.

The once free-spirited city of San Francisco is now a "Company Town," a playground for tech moguls of the "sharing economy." Airbnb is the biggest hotel, Uber privatizes transit. And now these companies want political power as well.

Meanwhile, middle class and ethnic communities are driven out by gentrification, skyrocketing rents and evictions, sparking a grassroots backlash. Can an insurgent electoral campaign overcome corporate power and billionaires' megabucks to change a city's course?

COMPANY TOWN shows how a grassroots coalition of unions, tenants, neighborhoods of color, activists and artists can come together to win.

DEATH BY DESIGN

Directed by Sue Williams

Debunks the notion that electronics is a 'clean' industry by revealing the human and environmental cost of electronic gadgets that are designed to die.

Consumers love - and live on - their smartphones, tablets and laptops. A cascade of new devices pours endlessly into the market, promising even better communication, non-stop entertainment and instant information. The numbers are staggering. By 2020, four billion people will have a personal computer. Five billion will own a mobile phone.

But this revolution has a dark side that the electronics industry doesn't want you to see.

In an investigation that spans the globe, award-winning filmmaker Sue Williams

investigates the underbelly of the international electronics industry and reveals how even the tiniest devices have deadly environmental and health costs.

DEATH BY DESIGN tells the stories of young Chinese workers laboring in unsafe conditions, American families living with the tragic consequences of the industry's toxic practices, activists leading the charge to hold brands accountable, and passionate entrepreneurs who are developing more sustainable products and practices to safeguard our planet and our future.

From the intensely secretive electronics factories in China, to the high tech innovation labs of Silicon Valley, DEATH BY DESIGN tells a story of environmental degradation, of health tragedies, and the fast-approaching tipping point between consumerism and sustainability.

DENIAL

Directed by Derek Hallquist

A unique film about the filmmaker's father, a utility executive and smart grid pioneer in a nation in denial about climate change, who battles his own denial about his true identity.

Every day our changing climate pushes us closer to an environmental catastrophe, but for most the problem is easy to ignore. As people we often find it difficult to face change. We'd rather be in denial.

David Hallquist, CEO of a Vermont utility, has made it his mission to take on one of the US's largest contributors to this global crisis, our outdated and vulnerable electric grid. Under David's leadership his utility was one of the first to implement a smart grid. In order to make the widespread use of renewable energy sources practical, David argues, we first have to build a smart grid which uses digital communications technology to detect and react to local changes in usage, thereby decreasing outages and increasing efficiency.

But when his filmmaker son, Derek, tries to tell his father's story, the film is soon derailed by a staggering family secret, one that forces Derek and David to turn their

attention toward a much more personal struggle, one that can no longer be denied. With stunning access to intimate family moments and behind-the-scenes energy deals, and with unique humor in the face of overwhelming events, DENIAL manages to present insights into two important topics - one global and one personal - through a funny, informational, and enormously compelling personal narrative, and at the same time to throw light on the messy business of change.

DISTURBING THE PEACE

Directed by Stephen Apkon, Andrew Young

A film about people born into conflict, sworn to be enemies, Palestinians and Israelis, who challenged their fate and joined together to say "enough."

In a world torn by conflict--in a place where the idea of peace has been abandoned--an energy of determined optimism emerges. When someone is willing to disturb the status quo and stand for the dream of a free and secure world, who will stand with them?

DISTURBING THE PEACE is a story of the human potential unleashed when we stop participating in a story that no longer serves us and, with the power of our convictions, take action to create new possibilities. DISTURBING THE PEACE follows former enemy combatants--Israeli soldiers from elite units and Palestinian fighters, many of whom served years in prison--who have joined together to challenge the status quo and say "enough."

The film reveals their transformational journeys from soldiers committed to armed battle to nonviolent peace activists, leading to the creation of Combatants for Peace. While based in the Middle East, DISTURBING THE PEACE evokes universal themes relevant to us all and inspires us to become active participants in the creation of our world.

HOT TYPE: 150 YEARS OF THE NATION

Director: Barbara Kopple

Hot Type: 150 Years of the Nation is a vivid, inside look at America's oldest continuously published weekly magazine. Shot over three years in intimate, cinema verite style, the film captures the day-to-day pressures and challenges of publishing the progressive magazine as it follows reporters out into the field, the editors who shape their work, and the editor-in chief who tries to keep all of the plates spinning.

Writers are the heart and soul of the magazine, and the film follows them extensively. Sasha Abramsky travels to West Texas to report on the years-long drought that has gripped the region and the devastating economic impact on farmers and residents. John Nichols unpacks what's going on behind the effort to recall Wisconsin governor Scott Walker. Amy Wilentz visits the "temporary" tent camps of Haiti, three years after the earthquake, to shed light on the dire conditions and lackluster international response. And Dani McClain reports on the Moral Monday movement in North Carolina, and its dynamic leader Rev. William Barber, as they push back against an extreme right-wing takeover of the state legislature.

In all of the current-day reported stories, The Nation's incredible trove of archival articles - and roster of writers - acts as an historical touchstone and illuminates how the past continuously ripples through and shapes current events.

At a fascinating moment in American history - politically, socially and culturally - the media landscape is changing at breathtaking speed. The film charts the journey of The Nation - and the nation - evolving into the future, as it is guided by its remarkable past.

LIFE AFTER WATER

California's Central Valley produces more than half of America's produce. But the summer of 2015 marked the fourth year of what has become a monumental drought. Small family farmers like Jesus Ramos are in trouble. And when the farmers are in trouble, the country is in trouble.

"No one is going to want to spend \$5 on an orange," Jesus' daughter says. Faced with stifling water restrictions, caused in part by environmental concerns over sea life, farmers like Jesus have few options.

Compounding the problem is the reality that without water, their trees will destroy the soil. So farmers uproot their trees and wait. But re-growing citrus trees takes years. Or they can gamble, hoping that this season will be the last one without water.

California's Central Valley is in crisis and if it doesn't rain soon the rest of the country will be soon feeling the effects, too.

MY LOVE AFFAIR WITH THE BRAIN: THE LIFE & SCIENCE OF DR. MARIAN DIAMOND

Directed by Catherine Ryan, Gary Weimberg

Looks at the life and work of Dr. Marian Diamond, one of the founders of modern neuroscience, and an inspirational teacher to thousands at UC Berkeley and to millions on YouTube.

Meet Dr. Marian Diamond as she pulls a human brain out of a hatbox and lovingly enumerates its astonishing qualities. MY LOVE AFFAIR WITH THE BRAIN follows this remarkable woman over a 5-year period and introduces the viewer to both her many scientific accomplishments and the warm, funny, and thoroughly charming woman herself, who describes her 60-year career researching the human brain as "pure joy."

As one of the founders of modern neuroscience, Dr. Diamond challenged orthodoxy and changed our understanding of the brain--its plasticity, its response to enrichment and to experiences that shape both development and aging. Her groundbreaking work is all the more remarkable because it began during an era when so few women entered science at all. Shouted at from the back of the conference hall by noteworthy male academics as she presented her research, and disparaged in the scientific journals, Dr. Diamond simply did the work and followed where her curiosity led her, bringing about a paradigm shift in the process. As she points out, in order to get to the answers that matter, you have to start by asking the right questions.

OKINAWA: THE AFTERBURN

Director: John Junkerman

Okinawa: The Afterburn is the first documentary to provide a comprehensive look at the battle and the ensuing 70-year occupation of Okinawa by the United States military.

On April 1, 1945, American troops landed on Okinawa, beginning a battle that lasted 12 weeks and claimed the lives of some 240,000 people. The film depicts the Battle through the eyes of Japanese and American soldiers who fought each other on the same battlefields, along with Okinawa civilians who were swept up in the fighting, with carefully selected footage from the U.S. National Archives.

The film also conveys the complex postwar fate of Okinawa, an island that has had to live side-by-side with an extensive array of US bases, and the related crimes, accidents, and pollution they have caused, while coexisting, on a personal level, with the occupying soldiers.

In Okinawa, the legacy of the war translates into a deeply rooted aversion to military force. This has been expressed in recent years by the island-wide rejection of the plan to build a new US base at Henoko, a source of controversy to this day. Okinawa: The Afterburn explores the roots of this resistance and Okinawa's vision for the future.

THE FILM IS DIVIDED INTO FOUR PARTS:

PART 1: The Battle of Okinawa depicts the ferocious battle through the testimony of Japanese and American soldiers who faced off in the conflict.

PART 2: Occupation reveals how military occupation policies were implemented.

PART 3: The Afterburn confronts the history of sexual violence that has accompanied the American military presence on Okinawa.

PART 4: To the Future explores the Japanese government's decision to build a new base in Henoko.

RULE OF LAW

Directed by Dan Iacovella

RULE OF LAW shares the story of a newly-disabled outlaw in rural Tennessee whose local court case on minor traffic violations evolves into a landmark class action lawsuit before the U.S. Supreme Court where the rights of 55 million people and the Americans with Disabilities Act itself are at stake. A lawyer from one of the smallest counties in the country represents the outlaw and takes it to the highest court in the land to debate issues of sovereign immunity and due process.

It reveals how questions of civil rights affecting a broad spectrum of people can arise out of the most unlikely sources, how a good lawyer should never ignore any client and should look for constitutional issues in whatever thorny problems his/her clients have, how slow the legal system is, how unresponsive government lawyers can sometimes be and how anyone, no matter what their history, along with a single small-town lawyer can work together to help millions of people.
