### 100 YEARS: ONE WOMAN'S FIGHT FOR JUSTICE

100 Years documents the David vs. Goliath story of Elouise Cobell's courageous fight for justice for hundreds of thousands of Native Americans who were cheated out of billions of dollars by the United States Government.

Over 100 years ago, the United States Government broke up numerous Indian reservations and allotted millions of acres to 300,000 individual Indians. They promised to manage their land and send lease payments for oil, gas, timber, and grazing to the Indian Trust Fund, but instead the Department of the Interior grossly mismanaged the money owed them. As the Treasurer of the Blackfeet tribe, Elouise Cobell noticed issues with the trust account and raised questions about the missing money which lead her into a 30-year fight that resulted in the largest class action suit ever filed against the federal government.

By Melinda Janko

After filing in 1996, Elouise Cobell's indomitable spirit persisted for 15 years and three Presidential administrations until she finally prevailed and made history with a \$3.4 billion settlement. The film not only details her long fight but serves as a fitting tribute to a warrior unlike any other.

#### FEATURED IN THE FILM

President Barack Obama  
Senator John McCain  
Senator Tom Daschle  
Senator Byron Dorgan  
Tex Hall, Former President of National Congress of American Indians  
Ross Swimmer, Special Trustee of the American Indian, Department of the Interior  
Congressman Jay Inslee  
Congressman Tom Cole  
James Cason, Associate Deputy Secretary of the Department of the Interior  
Professor Charles Wilkinson, University of Colorado Law School  
Chairman Anthony Pico, Viejas Band of Kumeyaay Indians  
Federal Judge Royce C. Lamberth

### ACTIVE SHOOTER: SURVIVING AN ATTACK

"Active Shooter: Surviving an Attack" provide step-by-step explanations of the survival techniques that law enforcement agencies recommend to help people get through an active shooter incident safely.

Topics covered in these products include:

- Preparing for the unpredictable.

- Recognizing and surviving an attack.
- Running from a shooter.
- Hiding from a shooter.
- Fighting a shooter.
- What to do when the police arrive.
- and more.

**Format** : DVD  
**Duration** : 16 minutes  
**Price** : USD 229.00

### ADVERTISING AT THE EDGE OF THE APOCALYPSE

Featuring Sut Jhally

In this highly anticipated sequel to his groundbreaking Advertising & the End of the World, media scholar Sut Jhally explores the devastating personal and environmental fallout from advertising, commercial culture, and rampant American consumerism.

Ranging from the emergence of the modern advertising industry in the early 20th century to the full-scale commercialization of the culture today, Jhally identifies one consistent message running throughout all of advertising: the idea that corporate brands and consumer goods are the keys to human happiness. He then shows how this powerful narrative, backed by billions of dollars a year and propagated by the best creative minds, has blinded us to the catastrophic costs of ever-accelerating rates of consumption.

The result is an ideal teaching tool for courses that look at commercialism, media culture, social well-being, environmental issues, and the tensions between capitalism and democracy.

### ANATAHAN

Directed by Josef von Sternberg

Inspired by an actual event during WWII, Josef von Sternberg's Anatahan, tells the story of a dozen Japanese sailors who are stranded on the remote island of Anatahan during the waning days of the war. The war ends, unbeknownst to the men, and they engage in their own private war for dominance of their island domain and possession of the sole woman in their midst, Keiko (Akemi Negishi), the so-called "Queen Bee" of Anatahan.

### ART OF THE PRANK - EDUCATIONAL VERSION

Directed & Produced by Andrea Marini  
By Judy Drosd & Michele Malfetta

Art of the Prank is a feature documentary about New York artist Joey Skaggs, the godfather of the media hoax. Famed for such media fictions as the Celebrity Sperm Bank, the Cathouse for Dogs, the Fat Squad, and Portofess, all reported as fact by prestigious journalists, he's one of America's greatest living satirists. When he decides to pull off the most demanding hoax of his career, filmmaker Andrea Marini gets a unique view into the mind of this most unconventional man.

The resulting film is an emotional journey of will and determination following the evolution of an artist who has dedicated his life to seeking social change by relentlessly challenging the status quo. Filmed in New York, Connecticut, London, Hawaii, Los Angeles, Kentucky, and Tennessee, and with unprecedented access to the man and his archives, the 85-minute documentary reveals the man behind the curtain, interweaving his current unfolding hoax with a look behind-the-scenes at some of his classic performance pieces.

### AS I OPEN MY EYES

Directed by Leyla Bouzid

As I Open My Eyes depicts the clash between culture and family as seen through the eyes of a young Tunisian woman balancing the traditional expectations of her family with her creative life as the singer in a politically charged rock band. Director Leyla Bouzid's musical feature debut offers a nuanced portrait of the individual implications of the incipient Arab Spring.

**Price** : USD 419.00

### BEHAVIORAL HEALTH AND HEALTH COUNSELING: COUNSELING CANCER PATIENTS

With Ellen A. Dornelas, PhD

Most people endure emotional distress during and after cancer treatment. Psychotherapy, though effective, is under-utilized as a treatment option.

Psychological reactions to a cancer diagnosis can include depression, anxiety, sexual dysfunction, and relational distress.

In this video, Dr. Ellen Dornelas demonstrates her approach to working with people with cancer using a cognitive-existential model focused on coping with the psychological complexity of cancer diagnosis and treatment. This video demonstration explores a cancer survivor's journey and unique psychosocial stressors. The goal of this therapy is to identify unmet emotional needs, provide support, and help the client to cope constructively with the uncertain outcomes associated with cancer.

In this video, Dr. Dornelas works with a woman regarding her adjustment to advanced breast cancer.

## BEHAVIORAL HEALTH AND HEALTH COUNSELING: WORKING WITH MEDICAL PATIENTS IN INTEGRATED PRIMARY CARE

With Anne C. Dobmeyer, PhD, ABPP

The expansion of behavioral health integration in primary care settings over the past two decades has been facilitated by significant developments in models of integrated care.

In the primary care behavioral health model of integration, clinicians are integrated into primary care as behavioral health consultants to provide focused, evidence-based assessment and intervention to patients as well as consultative recommendations to the primary care provider. This arrangement of systemic and holistic care encourages patients and families to learn and implement self-management strategies that improve functioning and quality of life while also decreasing symptoms.

In this video program, Dr. Anne Dobmeyer demonstrates her work as a behavioral health consultant with a patient who is experiencing difficulties with managing diabetes, and shows also how a psychologist and primary care physician work together to provide seamless, team-based care.

## BONES OF CONTENTION

By Andrea Weiss

BONES OF CONTENTION is the first nonfiction feature film to explore the theme of historical memory in Spain, focusing on the repression of lesbians and gays under Franquismo. Lining the roads of Spain, masked by miles and miles of pine trees, are unmarked graves in which over a hundred twenty thousand victims of the Franco regime are buried. Today the families of the desaparecidos lead a grassroots effort to uncover and identify the bones of their loved ones, despite opposition from the Spanish government.

Invisible to the eye but hyper-visible in the mind, these mass graves of Spain's missing persons are an apt metaphor for the historical memory conundrum. How does a country excavate a past that is actively suppressed?

The film weaves together two strands, the historical memory movement's campaign to uncover the past, and the search for the hidden lives of lesbians and gays under Franco. These strands are connected through the figure of Spain's most famous poet, Federico Garcia Lorca, who was killed by a right-wing firing squad in the first few weeks of the Spanish Civil War. The mystery of his missing remains and the debates over their significance provide the narrative spine of the documentary, as he has become the symbol today for both the historical memory movement and the LGBT movement.

The film features interviews with: Laura Garcia Lorca, President, Garcia Lorca Foundation  
Emilio Silva, Founder, Asociacion para la Recuperacion de la Memoria Historica  
Antoni Ruiz and Silvia Reyes, imprisoned by the Franco regime due to their sexuality  
Isabel Franc and Empar Pineda, lesbian witnesses and activists  
Fernando Valverde, poet and Lorca scholar

## BREAKING SILENCE

By Nadya Ali

Three Muslim women share their stories of sexual assault—and, in a deeply personal way, they challenge the stigma that has long suppressed the voice of survivors. Throughout America, many Muslim communities persist in stigmatizing all discussion of sex-related subjects. Even though sexual assault and abuse are widespread, conversations about it are rare—and the pressure for victims and their families to "keep it a secret" helps perpetuate abuse. BREAKING SILENCE takes a radical and humanizing approach to the emotional scars of sexual assault,

giving women the space to share their voices without shame. Deepened by the perspectives of Imam Khalid Latif of The Islamic Center at NYU, the film challenges stereotypes and cultural beliefs held by both Muslims and the non-Muslim public. It is indispensable for those dealing with sexual assault and abuse in academic and non-academic settings, courses on Islamic and Middle Eastern Studies and Women's Studies, and for any discussion of violence against women.

## BRIAN J. WHIPP'S SCIENTIFIC LEGACY: EXTRA ORDINARY INSIGHTS AND FUTURE DIRECTION

By David Poole, Harry B. Rossiter, Susan A. Ward, Andrew M. Jones

Brian J. Whipp's Scientific Legacy: Extra Ordinary Insights and Future Direction features a group of internationally recognized experts who address a series of challenging issues involving the work of Brian J. Whipp, a visionary and influential pioneer in modern exercise physiology. The DVD presents over two hours of information, insights, and ideas concerning how these issues might be convincingly resolved in the context of contemporary, state-of-the-art approaches for interrogating physiologic-system directly non-invasively, and through mathematical modeling and simulation. The DVD is designed to provide a better integrative understanding of exercise tolerance in health and disease.

Among the topics covered:

- Perspectives of scientific logic: hindrances to understanding (David Poole)
- The "anaerobic threshold" concept
- Brian J. Whipp's scientific legacy: extra ordinary insights and future direction (Harry B. Rossiter)
- Necessary consequences
- The exercise hypernea: feedback, feedforward, redundancy (Susan A. Ward)
- Coupling of ventilation to metabolic rate during exercise
- Performance: optimal energetics for training and competition (Andrew M. Jones)
- Power-time relationship: the critical power concept

**Copyright** : 2013  
**Price** : USD 79.95

## BUGS

Directed by Andreas Johnsen

With global food shortages on the horizon, forward-thinking chefs, environmentalists and food scientists are turning toward an unexpected source of protein: insects. Bugs is an artful and thoughtful documentary that provides a perfect entry point to insect cuisine. For three years, a cast of charming and brave food adventurers from the Nordic Food Lab traveled the world - from Europe to Australia, Mexico, Kenya, Japan and beyond - to learn what some of the two billion people who already eat insects had to say. Filmmaker Andreas Johnsen followed them as they foraged, farmed, cooked and tasted everything from revered termite queens and desert-delicacy honey ants to venomous giant hornets and long-horned grasshoppers. Throughout the team's experiences, some hard questions started to emerge. If industrially produced insects become the norm, will they be as delicious and as beneficial as the ones in diverse, resilient ecosystems and cuisines around the world? And who will actually benefit as edible insects are scaled up? Equal parts travelogue, nature documentary, food porn and political treatise, Bugs is a beautifully shot film that makes a convincing argument for the inherent flavor of insects and raises unexpected and important questions about the future of our food culture along the way.

## BULLYING AND OTHER DISRUPTIVE BEHAVIOR: FOR EMPLOYEES

"Bullying and Other Disruptive Behavior: for Employees" provide the information employees need to understand this type of behavior and know how to shut it down when it happens.

Topics covered in these products include:

- Workplace bullies and what they do.
- The effects of workplace bullying.
- How to handle a workplace bully.
- Other disruptive behavior.
- Defusing disruptive behavior.
- and more.

**Item no.** : CL01500288  
**Format** : DVD  
**Duration** : 17 minutes  
**Price** : USD 229.00

## BULLYING AND OTHER DISRUPTIVE BEHAVIOR: FOR MANAGERS AND

## SUPERVISORS

"Bullying and Other Disruptive Behavior: for Managers and Supervisors" provide the information they need to help prevent this type of behavior in their department and deal with it when it does happen.

Topics covered in these products include:

- Bullying and its effects.
- Other disruptive behavior.
- "Coaching" your department about bullying and disruption.
- Handling a report of bullying or other disruption.
- "Informal responses" and "Awareness Intervention".
- Additional levels of intervention.
- and more.

**Item no.** : NV01500289  
**Format** : DVD

**Price** : USD 229.00

## CAUGHT-IN/BETWEEN HAZARDS IN CONSTRUCTION ENVIRONMENTS

"Caught-In/Between Hazards in Construction Environments" provide the information employees need to recognize the caught-in/between hazards that are associated with construction tasks and avoid them before accidents happen.

Topics covered in these products include:

- What are caught-in/between hazards?
- The three major types of caught-in/between hazards.
- Trenching, scaffolding and demolition.
- Vehicles and heavy equipment.
- Powered tools and machinery.
- and more.

**Price** : USD 229.00

## CHESHIRE, OHIO: AN AMERICAN COAL STORY IN 3 ACTS

Directed by Eve Morgenstern

Follows a community devastated by coal, starting with American Electric Power's buyout and bulldozing of this Ohio River town, after exposing them to years of harmful emissions.

A gun toting 83-year old woman refuses to sell her house to the power plant next door

but the plant has moved ahead with their 20 million dollar deal to buy out most of Cheshire and bulldoze all the homes. What happened in this Ohio River town overrun by one of the largest coal-fired power plants in the world? A story of money, power and the increasingly difficult choices we face surrounding coal and the environment, CHESHIRE, OHIO makes us think twice about home.

Filmed over a decade, CHESHIRE, OHIO follows a community devastated by coal, starting with American Electric Power's buyout and bulldozing of this Ohio River community after exposing them to harmful emissions, and then returning several years later to the now almost emptied town as we follow the case of 77 plaintiffs who have filed a lawsuit against American Electric Power for cancer and other diseases they developed from working unprotected at the plant's coal ash landfill site.

As the cycle of pollution from coal continues, we see how one quintessential American town suffers from our reliance on carbon energy.

**Format** : DVD  
**Duration** : 30 minutes  
**Copyright** : 2017  
**Price** : USD 389.00

## CONSTRUCTING THE TERRORIST THREAT: ISLAMOPHOBIA, THE MEDIA & THE WAR ON TERROR

Directed by Sut Jhally

Deepa Kumar, one of the nation's foremost scholars on Islamophobia, looks at how Muslims have become the predominant face of terror in U.S. news and entertainment media -- even though terror attacks by white extremists have far outnumbered attacks by Muslim

Americans since 9/11.

Arguing that racialized threats have long been used to induce moral panics and advance anti-democratic policies, Kumar explores how ruling elites have been raising the specter of Arab and Islamic terror since the 1970s to justify militarism, war, and curbs on civil liberties. From the Iran-Hostage Crisis in 1979 to the "war on terror" after 9/11 to the rise of ISIS today, she argues that Americans have been taught to fear Muslims out of all proportion to reality, presenting a wealth of eye-opening data about the actual threat level posed by Muslim terrorists in the United States.

Constructing the Terrorist Threat offers a clear-headed assessment of terrorism that couldn't be more timely and urgent given the politics of fear that now dominate our political landscape.

## CONTEMPORARY ISSUES IN CARDIAC REHABILITATION (CLINICAL EXERCISE PHYSIOLOGY ASSOCIATION) - SYMPOSIUM

By Randal J. Thomas et al

Four renowned clinical exercise physiologists are featured in this extended resource that explores several key points of concern with regard to cardiac rehabilitation. Contemporary Issues in Cardiac Rehabilitation (Clinical Exercise Physiology Association) reviews a number of effective cardiac rehabilitation programs, policies, and practices. The DVD also looks at some of the general science attendant to cardiac rehabilitation.

- Keys to improving value and delivery of cardiac rehabilitation (Randal J. Thomas)
- Problem with delivery of CR?
- New opportunities: changes in medicare coverage for cardiac rehabilitations (Karen Lui)
- CR coding & billing 60th Annual ACSM Meeting
- Making the assist: how exercise training can benefit patients with left ventricular assist devices (Dennis J. Kerrigan)
- LVAD Hemodynamics during exercise
- Prescribing exercise when there's no exercise test (Carl Foster)
- Experimental studies

## CRACKING CANCER

Directed by Judith Pyke

A clinical research trial at the Personalized OncoGenomics Program is changing the way scientists think about the future of cancer care.

Six years ago Zuri Scrivens, the mother of a toddler, was very ill with incurable breast cancer that had spread to her liver and lymph nodes. Today Zuri has no signs of cancer, not because of a miraculous new cancer drug, but thanks to a diabetes medication.

CRACKING CANCER follows a group of patients with incurable cancer on a trailblazing journey through a highly experimental clinical trial at the BC Cancer Agency in Vancouver called POG -- Personalized OncoGenomics.

The trial compares patients' normal DNA -- each cell's complete set of instructions -- with that of their tumors, to find the genetic mutations causing their cancer. Zuri's cancer driver was a mutation that caused a very high growth factor. The team plowed through decades of data to isolate which drug in all of medicine, not just cancer, might block that growth factor. They zeroed in on a diabetes medication. Zuri received the drug and standard hormone treatment. Within 5 months, her cancer became undetectable.

POG offers a radical new way of treating cancer, not according to where it originates in the body, but rather as a disease of genetic mutations. Thousands more will join the trial, all hoping for their own salvation, all helping science to crack the cancer code.

**Price** : USD 250.00

## DECEMBER DAYS

By Carla Valdes Leon

Delfin, a shirtless old man in a New York Yankees cap, proudly fingers the medals on the military uniform hanging on the wall of his small home in the Sierra Maestra mountains of Cuba. The uniform belongs to his son, one of more than 400,000 Cuban soldiers and civilians sent to

Angola between 1975 and 1991 in support of the country's left-wing government. Two thousand of them were killed. Three decades after he served, Delfin's son remains troubled by trauma.

DECEMBER DAYS shows some of the ways in which the mission to Angola—a massive solidarity effort from a small country—touched the lives of ordinary Cubans. We meet an elderly woman who lost both her sons (one expresses happiness "to be fighting for the oppressed peoples" in a letter home), veterans who live in wretched housing and feel forgotten, an award-winning journalist who covered the war, and an archivist who goes to great lengths to identify individual Cubans in photos from Angola.

Interspersed with propaganda footage of the mission, old documentaries, and scenes from the 1984 Cuban soap opera *Something More than a Dream*, DECEMBER DAYS is a poignant film about a nearly forgotten episode that marked a generation of Cubans and their families.

## DEEP DISCOURSE

By: Sandi Novak, Cara Slattery

This video workshop shows real classrooms in action and demonstrates how to improve students' knowledge and skills by engaging them in learning-rich discussions.

This video workshop shows real students and real classrooms in action. Ideal for K-12 teachers, principals, literacy leaders, and district administrators, the DVD explores the student-led discussion framework and demonstrates how to use it at any grade level to ensure learners develop critical-thinking, problem-solving, and self-directed learning skills.

- View high-quality footage demonstrating students engaging in deep discourse.
- Learn how to apply the student-led discussion framework when designing instruction.
- Explore questions for stimulating students' critical thinking in multiple subject areas.
- View real students' thoughts about being involved in their own student-led discussions.

## DEMOCRACY ROAD

By Turid Rogne

After more than 20 years in exile in Norway, the Burmese journalists of DVB are returning to their homeland to establish their independent news station there. Editor-in-chief Aye Chan Naing and reporter Than Win Htut have dreamt about this for years, but their struggle for freedom and democracy is not over yet.

DEMOCRACY ROAD is a road movie documentary following the journalists of DVB in Myanmar in a critical phase of the establishment of the newborn democracy. With their existence as an independent news channel and Myanmar's future as a democracy at stake, senior reporter Than Win Htut and his colleagues hit the road with their groundbreaking show "Our Nation, Our Land." Their goal is to investigate the living conditions of ordinary people off the beaten path in Myanmar, but the machinery of the old dictatorship is still running. Simultaneously, editor-in-chief, Aye Chan Naing, has to negotiate with DVB's former enemies in the infamous Ministry of Information. The road towards democracy has only just begun...

Director Turid Rogne has followed the journalists of DVB for more than 10 years. With both boldness and sensitivity, she tells the story of life in a former dictatorship through the people who try to influence history.

## FATIMA

Directed by Philippe Faucon

Fatima lives with her two teenage daughters and works cleaning jobs to pay their way through school. Inspired by a true story and the poetry of the North African writer Fatima Elayoubi, who immigrated knowing very little French and slowly taught herself the language. A patient, reflective study of a woman pressured by her children and her neighbors alike to assimilate into a culture of which she's wary. Despite the display of everyday racism, both veiled and overt; internal domestic disputes and external gestures of inhospitality, Fatima offers an uplifting experience and one of recent French cinema's most trenchant and moving portraits of immigrant experience.

## FOOD FOR CHANGE: THE

## STORY OF COOPERATION IN AMERICA

Directed by Steve Alves

The deep history of cooperatives in America -- the country's longest-surviving alternative economic system.

FOOD FOR CHANGE looks at the current resurgence of food cooperatives in America and their unique historic place in the economic and political landscape. Born in the heartland, cooperatives are seen as the middle path between Wall Street and Socialism.

The film profiles several food co-ops that have revived neighborhoods and communities - right in the shadows of corporate agribusinesses and supermarket chains. It's an inspiring example of community-centered economies thriving in an age of globalization.

## FORCE, THE

Directed by Peter Nicks

Sprawling, immediate, and complex, Peter Nicks's verite documentary moves like a pulsing, timely thriller. In 2014, after over a decade of federal monitoring for misconduct and civil rights abuses, the Oakland Police Department hires Chief Sean Whent ... in hopes of bridging an historically tense divide between its officers and the community they serve. The Force captures everything; it hovers over Oakland's evening skies and rides inside speeding police vehicles, granting viewers breathless firsthand access to some of law enforcement's most dangerous jobs. With fly-on-the-wall intimacy, we see a department trapped in transition, desperate to shed its corrupt image but also challenged by an increasingly organized and urgent Black Lives Matter movement erupting right outside its doorstep.

## FREE LUNCH SOCIETY

By Christian Tod

What would you do if your income was taken care of?

Just a few years ago, an unconditional basic income was considered a pipe dream. Today, this utopia is more imaginable than ever before—intense discussions are taking place in all political and scientific camps.

FREE LUNCH SOCIETY provides background information about this idea and searches for explanations, possibilities and experiences regarding its implementation.

Globalization, automation, Donald Trump. The middle class is falling apart. One hears talk about the causes, rather than about solutions. Time for a complete rethinking:

An unconditional basic income means money for everyone - as a human right without service in return! Visionary reform project, neoliberal axe to the roots of the social state or socially romantic left-wing utopia? Depending on the type and scope, a basic income demonstrates very different ideological visions. Which side of the coin one sees depends on one's own idea of humankind: inactivity as sweet poison that seduces people into laziness, or freedom from material pressures as a chance for oneself and for the community. Do we actually need the whip of existential fear to avoid a lazy, depraved life in front of the TV set? Or does gainful employment give our lives meaning and social footing simply because we haven't known anything else for centuries? And because we've never all had the freedom to self-actualise in other ways?

That basic income is a powerful idea is indisputable: land, water and air are gifts of nature. They are different from private property that humans create by their individual effort. However, when we receive wealth from nature, from the commons, then that wealth belongs to all of us equally.

From Alaska's oil fields to the Canadian prairie, from Washington's think tanks to the Namibian steppes, the film takes us on a grand journey and shows us what the driverless car has to do with the ideas of a German billionaire and a Swiss referendum. FREE LUNCH SOCIETY, the first international film in cinemas about basic income, is dedicated to one of the most crucial questions of our times.

## GEEK GIRLS

By Gina Hara

Nerdy women - the "hidden half" of fan culture - open up about their lives in the world of conventions, video games, and other rife-with-misogyny pop culture touchstones. While geek communities have recently risen to prominence, very little attention is paid to geek women. Filmmaker Gina Hara, struggling with her own geek identity, explores the issue with a cast of women who live geek life up to the hilt: A feminist geek blogger, a convention-trotting cosplayer, a professional gamer, a video-game designer, and a NASA engineer. Through their personal experiences in the rich cultural explosion of nerdism, GEEK GIRLS shows both the exhilaration of newfound community and the ennui of being ostracized. These women, striving in their respective professions and passions, face the cyberbullying, harassment, and sexism that permeate the culture and the industry at large. A rich conversation-starter for any class on Pop Culture and Feminism.

## GLOBAL FOOTPRINTS ON THE ENVIRONMENT: ECOLOGICAL INTELLIGENCE - HOW TO BE A RESPONSIBLE SHOPPER IN A WORLD OF OVERCONSUMPTION

Learn how to be a responsible shopper. Did someone say green retail therapy? Go shopping for ecological intelligence and discover what it means to be a responsible shopper in a world of over consumption. Reducing your footprint begins with your shoes. Energy saving products are the mainstream as consumers become more concerned with their health, air quality, water quality and available resources. So its time to say no to plastics! Going back to glass bottles, organic cotton diapers and buying clothes made from recycled fabrics are big changes we can make as we become more aware of the products we are eating, wearing and sleeping on.

## GLOBAL FOOTPRINTS ON THE ENVIRONMENT: NATURAL PLAYGROUNDS & URBAN WILDERNESS - PLAY, LEARN & CONNECT WITH NATURE

Discover a few of our favorite green thing's from eco hangers and natural playgrounds to Segways and a tour of an urban wilderness, this program is an ecological

tour like no other. Natural playgrounds are designed by incorporating nature, music and art to stimulate children in a natural holistic way to play. These playgrounds are essential for all cities and give a community a unique way to engage in nature and as a place for social, creative and theatrical play. Smart hangers! Learn why its so important to stop using wire hangers and to create smart hangers by using recycled paper. Find out what has two wheels, runs on electricity and is lots of fun while having a small carbon footprint with zero emissions! The Segway is environmentally friendly while transporting us in a very healthy ecofriendly way! Natural swimming pools are a new environmental approach designed without chlorine, filtered by plants and bacteria without toxic chemicals. These types of pools can cost much less than a tradition concrete pool. Discover why wetlands are so important to the ecosystem? They are a critical part of our natural environment, absorb pollutants, improve water quality and provide habitat for many animals and plants.

## GLOBAL FOOTPRINTS ON THE ENVIRONMENT: ORGANIC FARMERS & THE ECOLOGICAL FARMING MOVEMENT

Do you know where your food comes from? Head behind the scenes with organic farmers and the urban farming organization, Not Far From the Tree to find out where your food comes from. Urban people take a field trip and go country to better understand the origins of their food. Find out what community share agriculture is and discover a garden of hope which teaches city dwellers the importance of good food. The food we choose impacts the environment in many ways. The food production industry has undertaken radical changes in recent years. Everything from what we grow, to how we grow it, to biological engineering has forever altered the food production business. Learn about soil management, how to run an organic operation, where our food comes from and just how simple healthy eating can be.

## GLOBAL FOOTPRINTS ON THE ENVIRONMENT: RAINFORESTS & DEFORESTATION, PALM OIL & SAVING THE ORANGUTAN

This program explores the earth's forests, from the effects of deforestation and palm oil production, to forestry gardening and sustainable business practices. Trees are the lungs of our planet but we keep cutting them down? Find out the effects of deforestation. Did you know that a chocolate bar is responsible for the near extinction of the Orangutan? Find out why. We will also teach you how to garden the forest, introduce you to cosmetic company who are washing their hands of palm oil and an urban tree salvage company that saves trees. 50 years ago about 15% of the planet's land surface was covered by a rain forest. Today, more than half of that has gone up in smoke. 12-15 million hectares of forest are lost every year. That is the equivalent of 36 football fields per minute. If that trend continues the Amazon will be gone in 50 years. So what is deforestation and why should we care?

## GLOBAL FOOTPRINTS ON THE ENVIRONMENT: RECYCLE YOUR TRASH

It is time to recycle your thinking & change your habits. Did you ever wonder where your old tires, cars and computers end up? Go behind the scenes at a local recycling facility to find out. Why has our planet become a garbage dump? Learn how our garbage is extracted, produced, distributed, consumed and disposed of. There are lots of different kinds of recycling. When recycling is done well it is an essential part of the solution, when done poorly it is an obstacle and part of the problem. The most important component to reducing our waste is to recycle and changing our habits is key.

## GLOBAL FOOTPRINTS ON THE ENVIRONMENT: SMALLER, GREENER, MORE FLEXIBLE HOMES & WATER CONSERVATION

Smaller, greener & more flexible homes are popping up everywhere. Find out what the mini home is. We'll make you sea sick with shipping containers, get a tour of the Now House Project, a War time home that is now a mean, green, energy producing machine. When it comes to building our homes bigger is no longer better. New homes after doubling in size in the 1960s are shrinking. Smaller, greener, more flexible homes are the new norm. After transport and agriculture, housing is the most resource intensive industry in the Western World. A smaller home leaves a smaller footprint on the Earth in every measurable way. Fewer trees cut down, less earth bulldozed, less petroleum burned, less steel mined and less use of every natural resource. As sustainability becomes more prevalent in our society, so too are eco-friendly living and working spaces. This program explores the rise of smaller, more flexible and most importantly greener homes and shows you how to get the most out of your household water by reusing it.

## GLOBAL FOOTPRINTS ON THE ENVIRONMENT: TRANSPORTATION, GREENER CARS, BIODIESEL & DESIGNING CITIES LESS DEPENDENT ON FOSSIL FUELS

This program explores the automotive industry's move towards greener cars and the need for cities to balance cycling, public transport and cars within their

overall infrastructure. So let's take a look at the transportation industry. Find out how to build a city around public transportation and the importance of the bicycle. Is there such a thing as a Green car? Have you heard cars can run on veggie oil, we'll show you how and take a look at biodiesel fuel. Increased levels of Carbon Dioxide are being expelled into the air from our tail pipes. Designing more sustainable transportation systems and being more thoughtful of how we design our cities is key by integrating walkability, bikeability and public transit. Building a city based on reduced carbon dependency by finding ways of redesigning or retrofitting neighborhoods and designing cities less dependent on fossil fuels is the way of the future.

## GLOBAL FOOTPRINTS ON THE ENVIRONMENT: URBANIZATION & THE NATURAL WORLD

For the first time in history, more than half the population lives in cities. Because of urbanization every year we destroy untold amounts of plants and fertile soil. With this in mind, how can we make cities more sustainable? This program takes a special look at green roof gardening, the expansion of solar panels and thinking inside the box with food container gardening. Big cities leave big trouble for the natural world. The good news is we have the ability to change. There are currently innovative technologies in place that will help combat climate change in big cities.

## GLOBAL SCIENTIFIC & ENVIRONMENTAL ISSUES: SAVING THE MUSTANG - NORTH AMERICAS HORSE ON THE BRINK OF EXTINCTION

Wild mustangs have long been an icon of native peoples and early settlers of North America. Yet their fate today is uncertain. Saving The Mustang explores the state of wild horses today through the efforts of three individuals. Canadian horseman Randy Bird who adopted eight mustangs from a crowded facility in Wyoming. Endurance rider and song-writer Jean Albert Renaud and Roger William, past chief of the First Nation Xenigwetin, who created a 200,000 hectare wild horse preserve in the pristine and rugged wilderness of the Nemah Valley in British Columbia. All three stories interweave a compelling tale of perseverance and determination, one that offers hope for these amazing animals.

## GLOBAL SCIENTIFIC & ENVIRONMENTAL ISSUES: WHAT IS KILLING LAKE - WINNIPEG & HOW TO SAVE IT

A fascinating documentary that shines a light on global scientific and environmental issues. Can we save one of the world's largest freshwater lakes? This program reveals how a perfect storm of agriculture, hydro practices, sewage run-off, flooding and marsh destruction have devastated Lake Winnipeg, Manitoba, Canada, the 10th largest lake in the world. Lake Winnipeg is a 25,000 square km inland sea. It is bigger than Lake Erie and it is in deep trouble. This once pristine lake has the worst blue-green algae problem of any major lake on the planet. In a distorted cycle that is a direct result of human activity, an excess of chemical nutrients in the lake has caused massive algae blooms. The green sludge washing up on the lakes shores threatens not only the lakes beauty, but also the natural ecosystems underlying it. If we don't intervene to restore the natural nutrient balance, one of Canada's largest lakes could choke from the bottom up. This film examines why the lakes ecology has changed so dramatically in just three decades and what needs to be done to restore the natural nutrient balance of one of Canada's largest lakes.

## GMPS FOR MEDICAL DEVICES

GMPs for Medical Devices is a program that explains key GMP requirements for manufacturing medical device products. The program explains the term medical device and the medical device classification system. Additional information is provided on working in a regulated environment, a history of the medical device regulations and a detailed discussion of the GMP requirements.

At the end of this program, participants will be able to:

- Define the term Medical Device
- Recognize Medical Device Classifications
- Describe a regulated environment
- State who controls the medical device environment
- Recall major events in the History of Medical Device Regulations
- Describe how the Quality System Regulation works
- Describe key GMPs and the Role of Every Employee
- List important personal hygiene habits for working with medical devices
- Describe key Benefits of Following GMPs

## GREAT WHITE HOAX, THE: DONALD TRUMP & THE POLITICS OF RACE AND CLASS IN AMERICA

Directed & Edited by Jeremy Earp

The Great White Hoax, featuring acclaimed anti-racist educator and author Tim Wise, explores how American political leaders of both parties have been tapping into white anxiety, stoking white grievance, and scapegoating people of color for decades to divide and conquer working class voters and shore up political support.

The film's primary focus is Donald Trump's race-baiting 2016 campaign for the presidency. But it also widens its scope to show how Trump's charged rhetoric about African-Americans, Latinos, and Muslims fits within a longstanding historical pattern, offering a stunning survey of how racism and racial scapegoating have shaped American politics for centuries.

The Great White Hoax is an ideal resource for courses that look at race relations, white privilege, the intersectionality of race, class, and gender identities, presidential politics, and political propaganda.

## HEATHER BOOTH: CHANGING THE WORLD

By Lilly Rivlin

Heather Booth is the most influential person you never heard of. The newest film by critically acclaimed filmmaker Lilly Rivlin, HEATHER BOOTH: CHANGING THE WORLD is an urgent response to the recent change in administration. At a time when many are wondering how to make their voices heard, when civil and women's rights are under attack, this empowering documentary is an inspiring look at how social change happens.

Heather Booth, a renowned organizer and activist, began her remarkable career at the height of the Civil Rights movement. Through her life and work this inspiring film explores many of the most pivotal moments in progressive movements that altered our history over the last fifty years: from her involvement with Fannie Lou Hamer and the Freedom Summer Project, to her founding of the JANE Underground in 1964, to her personal relationships with respected leaders such as Julian Bond and Senator Elizabeth Warren.

HEATHER BOOTH: CHANGING THE WORLD blends interviews, from close friends, clients, political colleagues and current Midwest Academy students to explore Heather's legacy in progressive politics and organizing. Anyone who has been confused or disheartened by the recent election needs to see this film.

## IN THE INTENSE NOW

By Joao Moreira Salles

Made following the discovery of amateur footage shot in China in 1966 during the first and most radical stage of the Cultural Revolution, IN THE INTENSE NOW speaks to the fleeting nature of moments of great intensity. Scenes of China are set alongside archival images of the events of 1968 in France, Czechoslovakia, and, to a lesser extent, Brazil. In keeping with the tradition of the film-essay, they serve to investigate how the people who took part in those events continued onward after passions had cooled. The footage, all of it archival, not only reveals the state of mind of those filmed—joy, enchantment, fear, disappointment, dismay—but also sheds light on the relationship between a document and its political context. What can one say of Paris, Prague, Rio de Janeiro, or Beijing by looking at the images of the period? Why did each of these cities produce a specific sort of record?

Narrated in first person, the film reflects on that which is revealed by four sets of images: footage of the French students' uprising in May of 1968; the images captured by amateurs during the invasion of Czechoslovakia in August of the same year, when forces led by the Soviet Union put an end to the Prague Spring; shots of the funerals of students, workers, and police officers killed during the events of

1968 in the cities of Paris, Lyon, Prague, and Rio de Janeiro; and the scenes that a tourist—the director's mother—filmed in China in 1966, the year of the Great Proletarian Cultural Revolution.

## INSIDE BRITISH VOGUE EPISODE 1

Documentary maker Richard Macer is given access to British Vogue for the first time in its history. He follows them for a year, seeing how the magazine is put together from the catwalk shows to photoshoots to the front cover. It is a significant year for the magazine as it prepares to celebrate its centenary with a raft of events including a huge exhibition of photography at the National Portrait Gallery, a bumper centenary issue of the magazine and a gala dinner. But Macer finds a world not just intent of celebrating the glories of the past, but also facing up to the challenges of an uncertain future, with Instagram and other social media starting to challenge Vogue's exalted position.

Could Alexandra Shulman, editor-in-chief of British Vogue for the past 24 years, ensure the magazine stays on top? In the first episode, hot from the September 2015 catwalk shows in New York, London, Milan and Paris, Alexandra decides she wants to make changes to British Vogue's front covers. She wants to appeal to a younger audience: the Instagram generation. At the shows, Karl Lagerfeld, Victoria Beckham and Stefano Gabbana were all excited by the power of the internet and most designers use Snapchat and Instagram to publicise their new ranges. Will this new relaxed style work for British Vogue?

Once back in the Mayfair offices, shoots are lined up with the top models and photographers. Edie Campbell is to be shot by Mario Testino, Kate Moss and Rihanna by Craig McDean. But ironically for an industry that is all about image, Macer discovers that neither photographers nor models are particularly comfortable with having cameras around. Just as they are about to go to press, a rival magazine looks set to trump their exclusive, and Alexandra reveals what she is really made of.

Note: This BBC production not available in Hong Kong, Macau, Taiwan, Mainland China, Japan, USA, Canada.

## INSIDE BRITISH VOGUE EPISODE 2

Richard Macer discovers a world of deception at the heart of the fashion bible.

2016 is the centenary year of the British magazine and a whole host of star-studded events have been lined up to commemorate the year, including a huge exhibition of Vogue photography at the National Portrait Gallery, a festival of fashion, a bumper centenary issue and a gala dinner with guests including Kim Kardashian and Samantha Cameron. British Vogue has lots of glamorous rising stars like fashion features director Sarah Harris and fashion news editor Julia Hobbs, but at the helm of British Vogue are two women who have been in charge for a quarter of a century.

Alexandra Shulman, the editor-in-chief, and fashion director Lucinda Chambers have been making decisions which affect the wardrobe choices of British women for the last three decades. What will happen to the magazine when they eventually decide to leave? And will Vogue still be a publication in its current form in a few years time, with social media dramatically changing the way people consume fashion?

Halfway through filming this auspicious year, Macer gets a phone call from the Vogue press office that dramatically changes the whole direction of the film. As Richard speculates on whether British Vogue's centenary will be Alexandra's swansong, events start to unfold which demonstrate that far from being about to retire, Alexandra has just pulled off a spectacular journalistic coup right under Richard's nose.

Note: This BBC production not available in Hong Kong, Macau, Taiwan, Mainland China, Japan, USA, Canada.

## LIFESTYLE AND WELLNESS IMPLICATIONS FOR OUR POPULATION AND OUR ATHLETES

By David Epstein, John C. Hill, Mark

Lifestyle and Wellness Implications for Our Population and Our Athletes features three internationally renowned speakers who share their insights and experiences concerning a specific aspect of health and well-being. In his presidential keynote address, N.Y. Times bestselling author David Epstein reviews his groundbreaking exploration into sports science that looked at the relationship between biology and training. Next, Dr. John Hill discusses current trends in obesity and points out how this condition impacts the nation's health. Dr. Hill also details effective interventions for obesity that sports medicine professionals can employ to help both their clients and themselves. Finally, Dr. Mark Tarnopolsky presents the ACSM Exchange Lecture which provides an overview of what can be done to attenuate many of the causes of aging.

Among the topics covered:

- The sports gene (David Epstein)
- 2007 world championships
- A sports medicine physician and the obesity pandemic: the real issue is inactivity (John C. Hill)
- Economic and health impact of obesity
- Exercise as a countermeasure for aging – from mice to humans (Mark Tarnopolsky)
- Putting an end to aging

## LINDY LOU, JUROR NUMBER 2

Directed by Florent Vassault

An illuminating look at the American criminal justice system from the perspective of a juror on a trial that resulted in a death penalty sentence. Lindy, the juror, begins a journey through rural Mississippi looking for the 11 other jurors she sat beside twenty years ago on the trial of Bobby Wilcher. While Wilcher sat on death row, Lindy was the only person to visit him, ultimately resulting in friendship. The feelings of guilt she has lived with since his death inspire her to seek answers from her fellow jurors. The film follows her journey, which examines how the verdict has impacted the jurors who decided it, and questions one of the most controversial topics in American politics: capital punishment.

## LIVES: VISIBLE/LEFTOVERS

By Michelle Citron

**LIVES: VISIBLE** (2017, 35 mins): Lesbians in a box... two thousand private snapshots hidden away for over fifty years reveal the rich history of Chicago's working class butch/fem life in the pre-Stonewall era. Spanning four decades, from the 1930s to the early 1970s, the snapshots provide a rare look at a vanished and vibrant Lesbian culture: images of lovers and friends as they played, posed, serially switched partners, worked, partied, drank, and aged. Now we all take selfies; these women used a Brownie camera to tell the story of their community. **LIVES: VISIBLE** explores the ephemeral nature of culture and the power of the images we make.

**LEFTOVERS** (2014, 23 mins): Norma and Virginia were lovers for almost fifty years. They died isolated; the vibrant pre-Stonewall lesbian community of their youth long gone. A love story about the unforeseen trajectory of lives lived outside the mainstream told through the 2000 snapshots left behind.

## MACHINES

Directed by Rahul Jain

Marrying stunning visuals with social advocacy, Rahul Jain's debut documentary - takes audiences into the labyrinthine passages of an enormous textile factory in Gujarat, India. Jain's camera wanders freely between pulsating machines and bubbling vats of dye to create a moving portrait of the human laborers who toil away there for 12 hours a day to eke out a meager living for their families back home. Interviews with these workers and the factory owners who employ them reveal the stark inequality and dangerous working conditions brought about by unregulated industrialization in the region. This political message is delivered amidst the unsettling beauty of the factory's mechanical underworld and the colorful, billowing fabrics it produces.

## MAMA COLONEL

By Dieudo Hamadi

Colonel Honorine Manyole, commonly known as "Mama Colonel," works for the Congolese police force and heads the unit for the protection of minors and the fight against sexual violence. Having worked for 15 years in Bukavu, in the east of the Democratic Republic of the Congo, she learns she is transferred to Kisangani. There, she finds herself faced with new challenges.

Through the portrait of this extraordinarily brave and tenacious woman, who fights for justice to be done, this film addresses the issue of violence towards women and children in the DRC and the difficulty of overcoming the past war.

## MISS KIET'S CHILDREN

By Petra Lataster-Czisch and Peter Lataster

Kiet Engels is the kind of teacher one wishes every schoolchild could have. She is strict but never harsh. She is loving but never soft. Her patience is endless.

Many of Miss Kiet's pupils are refugees who have just arrived in Holland. Everything is new and confusing. Some are quarrelsome and headstrong. But Miss Kiet's firm but loving hand brings calm and awakens interest. She not only teaches her pupils to read and write Dutch, but also helps them learn to solve problems together and respect one another. Slowly the children gain skills and confidence.

Haya is at first impetuous, yet fearful. Little by little, Miss Kiet helps her to find her friendly side. Leanne is quiet and lonely. But after a few months she is able to tell everyone, in Dutch, that she loves Branche. Jorj has trouble sleeping and is unruly. His little brother Maksim has terrible nightmares. Miss Kiet's tenacity

helps Jorj discover that learning can be worthwhile and even fun.

By observation alone, without interviews or voice-over, the film focuses on four refugee children of different nationalities. Pursuing their perspective, the camera follows at close hand their struggles to learn a new language, their fights, their friendships and their first loves.

By the end of the documentary, an affectionate community has grown—the fruit of a teacher's patience and dedication. A film of many touching moments, some of them hilarious, MISS KIET'S CHILDREN chronicles changes that are small yet at the same time immense.

## MORE THAN A WORD

By John and Kenn Little

More Than a Word offers a fascinating look inside the growing movement to change the name of the Washington Redskins football team.

Directed by brothers John and Kenn Little, who are members of the Standing Rock Sioux tribe, the film traces how the word "redskin" evolved from being a term of racist derision and slander to being embraced as the name of one of the NFL's most beloved franchises. It also draws on the voices of Native American activists and scholars to place this controversy within the wider context of Native American history and racial stereotyping more generally.

More Than a Word is an ideal classroom resource for clarifying what's truly at stake in contemporary debates about cultural appropriation and Native American-themed mascots.

## NAT BATES FOR MAYOR

By Eric Weiss and Bradley Berman

Nat Bates for Mayor tells the story of the outrageous 2014 mayoral race in Richmond, CA - home to the state's second largest refinery where Chevron spent more than \$3 million to back 83-year-old African-American candidate Nat Bates.

Opening with footage of a 2012 fire at the Chevron oil refinery and a heated town

hall where blue-collar employees clash with environmentalists, the film sets the groundwork for the election that shifted the balance of power in the city. Councilman Nat Bates makes a Faustian bargain with the corporate devil in hopes of keeping the waning working-class African-American community intact, as it deals with gentrification occurring throughout the Bay Area.

His biggest competition comes from the Richmond Progressive Alliance, an advocacy group who wants Chevron's influence out of the city's affairs. They rally behind Councilman Tom Butt, a man with his own history of dismissing the concerns of low-income residents of the city.

The guerilla-style documentary follows the candidates on the trail, captures revealing personal moments, and records audacious city council meetings as they campaign to take control of the Bay Area's overlooked oil town. Nothing is clear-cut as the film potentially mixes issues of corporate influence, race, gentrification, homophobia, political self-determination, and humor -- all told through the lives of bigger-than-life small-town characters.

## NOTHING IS FORGIVEN

By Vincent Coen & Guillaume Vandenberghe

When the Arab Spring turns into the Islamist Autumn, Zineb decides to leave Morocco. Unable to find work and fearing for her safety, she moves to Paris. There she finds a new professional family at Charlie Hebdo. For the first time in her career, she can work in uncensored freedom amongst kindred souls. But then, on the 7th of January 2015, her newfound happiness is shot down. As by wonder she was not present when the terrorists came and killed her friends and colleagues. From that day on she becomes the most protected woman in France, under constant police protection.

Shocked at first, she quickly decides to make a stand against terrorism, and becomes a public figure speaking out against radical Islam. But then she gets pregnant and her outlook on the future changes drastically. How to build a life under these conditions? What will the life of her baby girl look like surrounded by bodyguards?

NOTHING IS FORGIVEN follows Zineb before, during and after the attacks on the famous satirical magazine. An intimate portrait of someone who had to pay greatly for fighting for her beliefs. Her opponents haven't forgiven her.

## ONE BIG HOME

Directed by Thomas Bena

Trophy homes threaten Martha's Vineyard. When he feels he is complicit in wrecking the place he calls home, one carpenter takes off his tool belt and picks up a camera.

Gentrification comes in many forms. On the tiny island of Martha's Vineyard, where presidents and celebrities vacation, trophy homes threaten to destroy the island's unique character.

Twelve years in the making, ONE BIG HOME follows one carpenter's journey to understand the trend toward giant houses. When he feels complicit in wrecking the place he calls home, Thomas Bena takes off his tool belt and picks up a camera. Bumping up against angry homeowners and builders who look the other way, he works with his community and attempts to pass a new bylaw to limit house size.

## REBELS ON POINTE

By Bobbi Jo Hart

Exploring universal themes of identity, dreams and family, REBELS ON POINTE is the first-ever documentary film celebrating the world famous Les Ballets Trockadero de Monte Carlo. The notorious all-male, drag ballet company was founded over 40 years ago in New York City on the heels of the Stonewall riots, and has a passionate cult following around the world. The film juxtaposes intimate behind-the-scenes access, rich archives and history, engaging character driven stories, and dance performances shot in North America, Europe and Japan. Rebels on Pointe is a creative blend of gender-bending artistic expression, diversity, passion and purpose. A story which ultimately proves that a ballerina is not only a woman dancing—but an act of revolution in a tutu.

## RIGHT THE FIRST TIME

Right the First Time is a program that focuses on ethics and ethical behavior. This program is about doing the right thing—all the time, every time—even when no one is watching. The program illustrates scenarios where doing the right thing is challenged, but then we see the how the ethical decision is the correct decision—and what may happen if that decision isn't made.

At the end of this program, participants will be able to:

- Recognize when true ethical behavior is exhibited.
- State what we are to do if we see unethical behavior happening.
- Recall reason why some people choose to act unethically.
- In given scenarios, identify ethical and unethical behaviors.

Scenario 1: Stop Light Challenge

Scenario 2: Performer/Verifier

Scenario 3: Batch record review

Scenario 4: Adverse Event reporting

Scenario 5: SOP Update

**Price** : USD 595.00

## ROBOTS & ROBOTICS - AN INTRODUCTION TO ROBOTIC TECHNOLOGY

People have a lot of different ideas about what the future will be like. Will there be flying cars? Will people live on the Moon? One thing that most people agree on is that robots will probably be very important. So let's have a look at robots - how they work, how they're made and how they're going to change the world. Robot technology is already changing our world.

This program provides an easy-to-understand introduction to the history and applications of robots, along with the basic principles of robot Control Theory and engineering. Robots are some of the most complicated machines to have ever been made, but the basic principles of how they work can be quite easy to understand. Robot designs can be broken down into two different general types: Open Loop and Closed Loop. Open-loop robots repeat the same sequence of pre-programmed actions, no matter what. This type is commonly used by industrial robots, or other robots that only do one job in a very structured environment. They can be very easy to make, since they only do one thing. Closed-loop systems are much more complicated. Instead of just going through a list of pre-programmed actions, the robot looks at the world around it and changes its behavior depending on what it sees. Subjects covered include: A brief history of Robots, how Robots work, types of Robots, the Future of Robots.

## SEARCH FOR GENERAL TSO, THE

Directed by Ian Cheney

A quest to understand the origins of this ubiquitous, spicy red chicken dish and to explore the history of Chinese-American food.

This mouthwateringly entertaining film travels the globe to unravel a captivating

culinary mystery. General Tso's Chicken is a staple of Chinese-American cooking, and a ubiquitous presence on restaurant menus across the country. But just who was General Tso? And how did his chicken become emblematic of an entire national cuisine?

Director Ian Cheney journeys from Shanghai to New York to the American Midwest and beyond to uncover the origins of this iconic dish, turning up surprising revelations and a host of humorous characters along the way. Told with the verve of a good detective story, THE SEARCH FOR GENERAL TSO is as much about food as it is a tale of the American immigrant experience.

## SILICONE PROSTHETIC CREATION & SPECIAL MAKE-UP FX FOR FILM & TELEVISION - OLD AGE MAKEUP TECHNIQUES

Learn the prosthetic design, sculpting, molding, foaming, coloring & application techniques. Even in this digital age, one cinematic art that requires the hand-on skills of the artist at all phases of the process is the creation of old-age makeup. While various stages for film and video can be achieved non-prosthetically, the process requires specific detail in the creation and application of facial and bodily prosthetics. This instructional program teaches the step-by-step process to create professional old-age makeup. From life-casting of the actor's face, sculpting the full makeup in clay, to creating individual prosthetic appliances, the complete pre-production preparatory stage of the makeup application is explored. Featuring Rob Burman, Hollywood make-up effects artist & 30 year prosthetic veteran. Burman's work includes legendary films The Thing, Ghostbusters, The Fly, Super Mario Bros & Mighty Morphin' Power Rangers. Teaches How To: Create a life-like silicone prosthetic and to apply it to your model, Create a naturalistic and believable character prosthetic, Work with polyurethanes to make "state of the art" molds, Air Brushing vinyl to encapsulate, Tints and washes color techniques.

**Price** : USD 229.00

## SURPRISE! REGULATORY

## INSPECTION TODAY!

Surprise! Regulatory Inspection Today! is a program that illustrates the importance of always being ready for a regulatory agency audit or inspection. The program features a zany, fast paced opening that shows how facility people may react when they are told that a regulatory inspector is on the premises. Then, five scenarios where personnel aren't following all of the GMP regulations are presented—and viewers are asked to identify these regulation lapses during the program presentation.

At the end of this program, participants will be able to:

- List three key areas of GMP compliance.
- Describe why it's important to remain in full compliance with GMPs.
- Identify GMP violations in workplace situations.

Includes:

- Personal Hygiene
- Weighing or Pharmacy
- Manufacturing Operations
- Laboratory Operation
- Records and Reports

**Item no.** : WC06340116  
**Format** : DVD  
**Duration** : 15 minutes  
**Price** : USD 595.00

## SURVIVING A REGULATORY INTERVIEW: IN THE FACILITY

This program illustrates the correct ways to answer questions asked by a regulatory auditor while an employee is working in a pharmaceutical manufacturing facility. Specifically, the program will show employees the incorrect and correct ways to handle themselves when answering different types of questions--in an actual manufacturing facility.

Employees sometimes wonder about how to respond to questions in a regulatory interview--particularly when they're doing their job. They think that talking to an inspector is like being interrogated or put on the spot--or that they'll make a mistake.

In this program, common interview scenarios are presented along with the do's and don'ts of how to respond to questions.

- Respond when you don't know or are unsure of the answer to a question.
- Respond when there's a lull or a gap in the conversation.
- Respond completely but concisely.
- Respond to questions about SOPs.
- Respond when you've made a mistake.

**Format** : DVD  
**Duration** : 15 minutes  
**Price** : USD 595.00

## TA'ANG

By Wang Bing

Director Wang Bing brings his careful eye to the mountainous border-region of northeastern Myanmar in Ta'ang, a powerful and revealing observational documentary that follows members of the Ta'ang minority as they flee to China to escape an ongoing and escalating civil war. In a pair of refugee camps, those displaced by the war attempt to create reasonably safe living conditions, while others go deeper into China where they may find work in sugarcane fields or try their luck in urban areas. Meanwhile, those still in Myanmar must journey across the mountains, belongings and livestock in tow, as the sounds of gunfire and artillery echo around them.

Ta'ang captures the constant insecurity, instability and disorientation that come with life as a refugee, the complexities of the choices the Ta'ang face, and the emotional toll they take.

## TEACH US ALL

By Sonia Lowman

Sixty years after the Little Rock Nine faced mobs of racially charged hatred and became cornerstones of the Civil Rights movement, Teach Us All examines how the present day United States education system fails to live up to that promise of desegregation as it slides back into a re-segregation of its modern schools.

Due to storied histories of discriminatory housing practices which enforced segregation, case studies of the public schools in Little Rock, New York City, and Los Angeles present microcosms of the inequities and challenges manifesting in classrooms across America. Educator turnover rates become such that some schools just have to depend on warm bodies. Applying to a high school in a better neighborhood becomes more competitive than applying for an Ivy League university. The labyrinthine admissions process leaves working-class and minority parents out in the cold, and students believe their high schools are just pipelines into the prison system.

The film weaves together interviews from two Little Rock Nine members, archival images, and news footage to ask: How far have we really come in 60 years and where do we go from here?

**FEATURED IN THE FILM**  
Elizabeth Eckford, Little Rock Nine  
Terrence Roberts, Little Rock Nine  
Sylvia Mendez, Civil Rights Activist

**Item no.** : ZC01920283

**Format** : DVD (Region 1, Closed Captioned)  
**Duration** : 80 minutes

**Price** : USD 350.00

## THANK YOU FOR THE RAIN

By Julia Dahr and Kisilu Musya

Five years ago Kisilu, a Kenyan farmer, started to use his camera to capture the life of his family, his village and the damages of climate change. When a violent storm throws him and a Norwegian filmmaker together we see him transform from a father, to community leader to an activist on the global stage.

THANK YOU FOR THE RAIN is a feature documentary by Julia Dahr and Kisilu Musya. It addresses a range of issues linked to climate change, including climate justice, urbanization, gender equality, education, access to water, climate refugees, and adaptation.

## UNDERCOVER TEAMS: RE-STORYING THE BULLY RELATIONSHIP

With Mike Williams

Traditional responses to bullying and harassment in schools usually focus on either punishment or exclusion of the person or persons who are bullying or by attempts to change the behavior of the victim. This sends the message that bullying is not so much wrong as it is reserved for those in positions of authority.

Undercover teams by contrast, use a relationally transformative and deeply respectful approach based on the principles of narrative mediation. Those responsible for the bullying are recruited into a select team who make it their mission to interrupt bullying behaviors.

This workshop uses real-life stories at one New Zealand secondary school to describe how the undercover team approach is used in a strategic way to disrupt a story of bullying relations and rewrite an alternative story of support for the victim. It describes the creation of the team, its progress, and a new story of peaceful relations in the classroom.

## VISUAL COMMUNICATION: APPLIED MEDIA AESTHETICS WITH HERB ZETTL

One of the more recent aspects of mass communication is a focus on visual communication. Using interviews with four of the foundational scholars, this series offers those who study and teach visual communication, a more humanized, personalized approach to understanding theorists and their work. Each program features one-on-one interviews with founding scholars in the visual communication field focusing on their background (how they got into the field), their contribution, their critics and their future work. Each scholar addresses visual communication from a different perspective.

Features a one-on-one interview with Herb Zettl, a founding scholar in the visual communication field focusing on his background (how he got into the field), his contribution, his critics and his future work. Zettl addresses and provides insight into visual communication from his own perspective.

## VISUAL COMMUNICATION: VISUAL ANALYSIS OF PRESIDENTIAL DEBATES WITH ROBERT TIEMENS

One of the more recent aspects of mass communication is a focus on visual communication. Using interviews with four of the foundational scholars, this series offers those who study and teach visual communication, a more humanized, personalized approach to understanding theorists and their work. Each program features one-on-one interviews with founding scholars in the visual communication field focusing on their background (how they got into the field), their contribution, their critics and their future work. Each scholar addresses visual communication from a different perspective.

Features a one-on-one interview with Robert Tiemens, a founding scholar in the visual communication field focusing on his background (how he got into the field), his contribution, his critics and his future work.

Tiemens addresses and provides insight into visual communication from his own perspective.

## WHY ARE CGMPs SO IMPORTANT?

Why Are cGMPs So Important? is a program that explains some of the key events leading up to the development of the GMPs and then goes on to explain what the cGMPs are and why they are so important.

At the end of this program, participants will be able to:

- Recognize and recall three major tragedies that resulted in the establishment of GMP regulations.
- Describe what is meant by cGMP.
- List the controls cGMPs regulate.
- Explain why following cGMPs are so important.
- List the ways in which the FDA determines if a company is following cGMPs.
- Describe how the FDA protects the public when there are cGMP violations.

### Topics

- Introduction
- What are GMPs?
- What do cGMPs regulate?
- What happens if a manufacturer is not following cGMPs, are drug products safe for use?
- What can FDA do to protect the public when there are cGMP violations?

## WOMEN'S MARCH: A DOCUMENTARY FILM ABOUT DEMOCRACY AND HUMAN RIGHTS

By Mischa Hedges, Iliani Matisse, and Michelle Olivera

Shot on location in five U.S. cities, Women's March is a story about democracy, human rights, and what it means to stand up for your values in today's America. On January 21, 2017, hundreds of thousands of women marched on Washington, D.C. That same day, hundreds of sister marches took place nationally and globally to become the largest one-day protest in American history.

Filmed on location in Boston, San Francisco, Oakland, Santa Rosa, and Washington, D.C., the film explores several women's motivations to march.

For some, it was their first time. For others, it was a continuation of a decades-long fight for human rights, dignity, and justice. For all, it was an opportunity to make their voices heard to express to the incoming administration that women's rights are human rights.

#### FEATURED IN THE FILM

Senator Elizabeth Warren  
Senator Kamala Harris  
Gloria Steinem, Writer/Lecturer/Political Activist  
Malkia Cyril, Executive Director of the Center for Media Justice

## WOUND, THE

Directed by John Trengove

Brimming with sex and violence, The Wound is an exploration of tradition and sexuality set amid South Africa's Xhosa culture. Every year, the tribe's young men are brought to the mountains of the Eastern Cape to participate in an ancient coming-of-age ritual. Xolani, a quiet and sensitive factory worker (played by openly gay musician Nakhane Toure), is assigned to guide Kwanda, a city boy from Johannesburg sent by his father to be toughened up, through this rite of passage into manhood. As Kwanda defiantly negotiates his queer identity within this masculine environment, he quickly recognizes the nature of Xolani's relationship with fellow guide Vija. The three men commence a dangerous dance with each other and their own desires and, soon, the threat of exposure elevates the tension to breaking point.

## ARCHITECTURE

### ART HOUSE

Director: Don Freeman

In this documentary, photographer Don Freeman explores the homes designed and lived in by notable American artists, revealing the inventiveness derived from the dialogue between each artist's practice and the construction of their handmade homes. Ranging from the romantic (Hudson River School painter Frederic Church's Olana, framing views of the Catskills to echo his paintings), to the futuristic (Paolo Soleri's silt-casted structure Cosanti growing out of his bell-making experiments in the Arizona desert), to the sublime (George Nakashima's mid-century modern ode to the beauty and versatility of wood), what they all have in common is a fierce spirit of individual expression that deserves deeper examination in this age of architectural standardization.

### CHATEAU MARGAUX, FRANCE

Norman Foster is one of the world's pre-eminent architects. With his practice Foster + Partners, Lord Foster has designed every possible building type and worked in every corner of the globe, picking up numerous awards and accolades along the way.

For his recently completed winery for Chateau Margaux, Lord Foster drew on the local vernacular to create a different addition to the famous estate. In this talk he discusses why he became so personally involved with the project, about combining recycled materials with cutting edge technology, and his client's delight at the new building's understated boldness.

### FEDERAL ENVIRONMENT AGENCY, THE: AIMING HIGH WITH SUSTAINABLE DESIGN (MATTHIAS SAUERBRUCH & LOUISA HUTTON)

Matthias Sauerbruch and Louisa Hutton set up Sauerbruch Hutton in 1989, now based in Berlin. Their best known buildings include the GSW Headquarters in Berlin, for which they were nominated for the Stirling Prize in 2000.

In this talk they focus on the Federal Environment Agency in Dessau, completed in 2005. With its mix of low-tech materials and high-tech production processes, the building was designed to showcase the best in sustainable architecture.

Hutton and Sauerbruch describe the development of the building's curvilinear plan along the route of an old railway line, and their use of colour, a constant in their work; how any sustainable building is only as efficient as the people who inhabit it; and how a concern for environmental efficiency has been a running thread through their work, from their Photonics Centre Berlin in 1998, through Museum Brandhorst, 2008, Munich Re, 2014, and the soon to be completed M9 Museum in Venice-Metre.

## LEADENHALL BUILDING, THE: THE SERVANT & THE SERVED

Graham Stirk is a senior partner at Rogers Stirk Harbour + Partners, having first joined the practice in 1983 when it was titled the Richard Rogers Partnership. As principal architect on buildings that include the office scheme 88 Wood Street, the luxury residential building One Hyde Park, two airports and a winery, he helps steer the design direction of the practice.

Here Stirk discusses The Leadenhall Building - a speculative office tower in London's financial district. The tower is inclined along the south side to avoid blocking a key view of St Paul's Cathedral, with core services housed in a vertical "cassette" on the north side. The concept of distinct served and servant spaces, borrowed from Louis Kahn, recurs throughout the work of the practice. Stirk also explores the challenges of building across the street from the Lloyd's Register of Shipping - the first building he worked on after graduation and, in contrast to Leadenhall, one of the most bespoke office buildings on the planet - and explains the 11 year lag between commission and completion.

## NO DISCIPLINE (RON ARAD)

Israeli-born Ron Arad is a prolific designer whose output spans buildings, furniture and sculpture. Perhaps his best known work, the Design Museum in Holon, Israel, has become a symbol for the city. His recent projects include a cancer treatment centre, an upside down tower and the interior makeover of the famous Watergate Hotel in Washington, DC.

In this talk, Ron Arad discusses training at the Architectural Association during the 1970s, his first success with the iconic 1981 Rover Chair, current architecture and

design projects, and the freedom that comes from embracing many disciplines.

## REINVENTING THE STADIUM: FROM SYDNEY TO LONDON & BEYOND

Australian-born Rod Sheard is senior principal of leading sports architects Populous. Following early experiments with stadium design at the John Smith's Stadium in Huddersfield, Sheard's firm went on to win the competition for Sydney's 2000 Olympic ANZ Stadium. Since then, the firm has built a portfolio of international sports buildings including London's Wembley Stadium, the Yankees ballpark in New York, Nationals Park in Washington DC, Ascot Racecourse in Berkshire, England, the London 2012 Olympic Stadium and the forthcoming Qatar World Cup Stadium. In this talk, Sheard compares the experience of designing the Sydney and London Olympic Stadiums and explores how his firm has led the way in the evolution of sports venues into the complex, quality buildings they are today.

## ARTS

### ARTIST 'S STUDIO (1855) BY GUSTAVE COURBET, THE

Paris shone brightly in the second half of the 19th century, with its fashionable restaurants, and its cabarets and theatres, which provided the spectacle of a carefree society. The industrial revolution produced wealth, and fortunes were amassed and

lost.

Gustave Courbet's work is politically involved and provocative. It reveals his support for revolutionary movements, and condemns Napoleon III's authoritarian regime. In addition to its critical dimension, the canvas has an air of mystery, and depicts contradictions.

## BATHERS AT ASNIERES (1884) BY GEORGES SEURAT

At the end of the 19th century, Asnières resembled a seaside resort. The cheering crowd that came to attend the regattas animated the banks of the Seine, and the rowing club was always full.

When he painted his canvass, Georges Seurat understood that his current era was totally turned towards a fascinating and ruthless religion: progress. Determined that art should not remain left out of these drastic changes underway, he invented pointillism.

## BERNARD BUFFET, THE GREAT AGITATOR

As famous in his time as Picasso, the painter Bernard Buffet experienced glory but it was followed by a fall from grace.

Today, he has finally achieved recognition. Despite his inimitable style, he was marginalised for half a century on account of his popular success, his millionaire's lifestyle and his contempt for the art world. A look back over the life of a controversial

artist, today considered a precursor of Pop Art.

## BLACK IS THE COLOR

Faced with racist caricatures, African-American painters decided to present a different image of their community than the one imposed by the degrading stereotypes of a brutally racist society.

Ignored and marginalised, they had to wait a century before they finally won recognition. This film tells the story of how African-American artists took back their image, from the abolition of slavery to the present day.

## CHET ZAR: I LIKE TO PAINT MONSTERS

Director: Mike Correll

Enter the dark and foreboding world of Chet Zar, where apocalyptic industrial landscapes are inhabited by disturbing yet beautiful monstrosities. Sometimes gruesome, periodically funny, but always thought-provoking, Zar's art is as enigmatic as it is frightening. But who is Chet Zar, and why does he like to paint monsters? These are the questions at the heart of Chet Zar: I Like to Paint Monsters.

Zar is an influential figure in the Dark Art Movement, and, given his chosen moniker "Painter of Dark," this is no surprise. Born in 1967 in San Pedro, California, Zar was

well known as the family prankster. With a passion for horror films, an innate urge to create bizarre artwork, and a superhuman work ethic, Zar seemed to be made for the special effects industry. During his time with the film industry, he designed and created creatures and make-up effects for such films as Darkman, The Ring, Hellboy I & II, and Planet of the Apes. Even more well-known is his work with the band Tool, contributing to both their music videos and their on-stage theatrical animations.

Despite his success in the film industry, Zar became disenchanted by the many artistic compromises required of him. With the support of his family and horror author Clive Barker, Zar decided in early 2000 to pursue his passion for monsters by painting them. In this new arena, he has flourished and found the much-needed freedom to explore his internal world and all of the oddities created by his brush strokes.

Chet Zar: I Like to Paint Monsters is your opportunity to take a journey into the mind and life of Zar. Become acquainted with his thoughts, motivations, and reflections of the past as well as his projections of the future. Delve into his experiences in the film industry, his transition from early special effects into the world of computer animation, and, ultimately, his evolution into the distinctive artist he is today.

This unique opportunity will allow you unprecedented access into the Dark Art movement, including the studios where it is being forged and the galleries where this cataclysmic work is being shown. Take part in this dynamic endeavor to explore the life and work of Chet Zar, "Painter of Dark"!

## CHINA, ONE MILLION ARTISTS

Since 2012, China has been the world number one in art sales. Who are these artists? What drives them and how do they combat censorship?

Contemporary Chinese art was finally able to take off after Mao's death. Artists have revisited Western art and some have hijacked Communist propaganda, adding to it a criticism of the Western consumerism that is sweeping the country. Art is well placed to observe the excesses of Chinese society, and has become the

flag bearer for aspirations to freedom. These contemporary works symbolise people's wounds and hardships, and State violence.

Although two artists - Basquiat and Koons - constitute 50% of the American market, China has 47 artists in the top 100, and nearly half them are newcomers.

Through personal encounters with the most original and avant-garde artists, in their workshops or during performances, this film sets out to understand their work and what motivates them, as well as looking at how they fight censorship.

## HENRI ROUSSEAU OR THE BURGEONING OF MODERN ART

This documentary film explores the secret inspiration and the little known influences of a painter whose canvasses are much less naive than they appear to be.

Henri Rousseau started to paint in Paris around 1880, at the age of 40. This self-taught artist was friendly with the poet Apollinaire, Robert Delaunay and Pablo Picasso, who recognized his genius, and yet his work was to remain underrated during his lifetime. However, with its dislocated compositions and profoundly dreamlike subject matter, it was to have a decisive influence on modern art, from surrealism to abstract art.

**Item no.** : LL29830083

## LADY AND THE UNICORN, CIRCA 1500 ANONYMOUS

The Lady and the Unicorn (circa 1500) an anonymous work, is a mysterious and enchanting series of six tapestries, considered to be a masterpiece of Western art.

This metaphor for desire is a celebration of the five human senses and of a sixth, spiritual and humanist sense. The fantasy of the magical unicorn heralds the end of the French Middle Ages.

## LAS MENINAS (1665) BY DIEGO VELAZQUEZ

In the mid-17th century, Madrid experienced its Golden Age. The Royal Alcazar of Madrid, a legacy of the Muslim sovereignty that had dominated the region for a long time, became the residence of the royal family and the centre of the Spanish court.

Diego Velázquez' canvas plunges us into the practices and traditions of the Hapsburgs of Spain. But more importantly, the work is a recursive reflection of reality: between model, viewer and artist, we no longer know who is looking at who.

## MINIMALISM - A DOCUMENTARY ABOUT THE IMPORTANT THINGS

By Matt D'Avella

Can true happiness and success be measured by material possessions? What is the personal and global impact of our consumer culture? Is there an alternative?

Minimalism: A Documentary About the Important Things examines the many aspects of the growing "minimalist" movement that is challenging compulsory consumerism and seeking a different path.

The authors of two best-selling books on minimalism, Joshua Fields Millburn and Ryan Nicodemus, take viewers on a road trip across America that reveals the core ideas behind minimalism and meets people who share their transformational

stories.

Millburn and Nicodemus are friends from college who lived the corporate rat race only to find that it never really brought them happiness. Though their paychecks grew, the void in their lives remained the same. Each had their own personal breaking point that moved them away from the consumer lifestyle.

From architects, designers, and musicians, to businessmen, authors, and families, the film explores the ways that many different types of people are attempting to live simpler, more meaningful lives, and their varied motivations for doing so.

Among the leading voices in the minimalist movement the film visits with are: sociologist/author Juliet Schor, Zen Habit's Leo Babauta, Becoming Minimalist's Joshua Becker, neuroscientist/author Sam Harris, and Colin Beavan, aka "No Impact Man". Each lends their experience living a minimalist life and delves into the environmental, social and psychological wake that is the result of compulsive consumerism.

## MONEYLENDER AND HIS WIFE (1514) BY QUENTIN MASSYS, THE

16th century Antwerp was rather like 1950s New York. What was once a city of craftsmen and fishermen at the entrance to the North Sea became a leading finance hub.

This work by Quentin Massys is a subtle criticism of that world and its era. The artist is warning about the flow of money when it is detached from all form of religious and moral considerations.

## SERGEI SHCHUKIN, TALE OF AN ART COLLECTOR

The story of an incredible collection of modern art, amassed in the early 20th

century, in Moscow, by a textiles trader.

Featuring 37 works by Matisse and 49 by Picasso, the Shchukin collection was later to be dispersed, and Shchukin's name erased from history.

After a century of oblivion, the documentary recounts the story of the collector's life and, for the first time, reveals the tragic destiny of his collection and its rediscovery.

## TALENT HAS HUNGER

Director: Josh Aronson

Talent Has Hunger is an inspiring film about the power of music to consume, enhance, and propel lives. Filmed over 7 years, the film is a window into the mysterious world of the artist, the passion that can grip and sustain a young player from childhood through the last days of life and the years of sacrifice and dedication a budding artist needs to fulfill one's talent. The film focuses on the challenges of guiding gifted young people through the struggles of mastering the cello. Through the words and actions of master cello teacher, Paul Katz, it's clear that this deep study of music not only prepares wonderful musicians, but builds self-esteem and a cultural and aesthetic character that will be profoundly important throughout his students' lives.

## VALUE-CENTERED SELLING

With Victor Antonio

How to Focus on What Buyers Really Want

A shift in B2B selling has happened! Prospects are less inclined to "spend the time" listening to your pitch. Potential clients have shifted from wanting information to wanting to complete a transaction on their terms. Given this power shift in selling, how can you influence informed B2B buyers? How can you add real value to the sales discussion and not sound like a walking brochure? Value-Centered Selling focuses on helping you locate where your product or service can add value to the client's business model. Furthermore, it teaches you how to quantify your value so that the prospect is able to justify buying from you.

## DESIGN

### DESIGN X RAY SEASON 2 - ADVERTISING DESIGNERS

From an idea to the first design of a new product, designers have their own ways of creating the art using a drawing board or a computer screen. Design X-Ray features the most important figures in the design industry. But what makes the most attractive product out of tons of good products? Now, designers have to use not only their creativity but also their thinking and problem solving skills to make business decisions.

Then, how do they come up with extraordinary solutions to ordinary problems? What are the rules of creating food packaging? How does the brand development work in the digital world? What are the roles of great designers? Find out what these distinguished designers have done and how they see the world in Design X-Ray!

Drew Hodges (Founder of Spotco), Joshua Davis (Artist in New Media), and George Lois (Legendary Creative) use their own ways to create advertisements with various ideas and tools. Find out how they efficiently combine their talents into the design.

## ENVIRONMENT

## GLOBAL FOOTPRINTS ON THE ENVIRONMENT: ECOLOGICAL INTELLIGENCE - HOW TO BE A RESPONSIBLE SHOPPER IN A WORLD OF OVERCONSUMPTION

Learn how to be a responsible shopper. Did someone say green retail therapy? Go shopping for ecological intelligence and discover what it means to be a responsible shopper in a world of over consumption. Reducing your footprint begins with your shoes. Energy saving products are the mainstream as consumers become more concerned with their health, air quality, water quality and available resources. So its time to say no to plastics! Going back to glass bottles, organic cotton diapers and buying clothes made from recycled fabrics are big changes we can make as we become more aware of the products we are eating, wearing and sleeping on.

## GLOBAL FOOTPRINTS ON THE ENVIRONMENT: NATURAL PLAYGROUNDS & URBAN WILDERNESS - PLAY, LEARN & CONNECT WITH NATURE

Discover a few of our favorite green thing's from eco hangers and natural playgrounds to Segways and a tour of an urban wilderness, this program is an ecological tour like no other. Natural playgrounds are designed by incorporating nature, music and art to stimulate children in a natural holistic way to play. These playgrounds are essential for all cities and give a community a unique way to engage in nature and as a place for social, creative and theatrical play. Smart hangers! Learn why its so important to stop using wire hangers and to create smart hangers by using recycled paper. Find out what has two wheels, runs on electricity and is lots of fun while having a small carbon footprint with zero emissions! The Segway is

environmentally friendly while transporting us in a very healthy ecofriendly way! Natural swimming pools are a new environmental approach designed without chlorine, filtered by plants and bacteria without toxic chemicals. These types of pools can cost much less than a tradition concrete pool. Discover why wetlands are so important to the ecosystem? They are a critical part of our natural environment, absorb pollutants, improve water quality and provide habitat for many animals and plants.

**Item no.** : MK06111449

## GLOBAL FOOTPRINTS ON THE ENVIRONMENT: ORGANIC FARMERS & THE ECOLOGICAL FARMING MOVEMENT

Do you know where your food comes from? Head behind the scenes with organic farmers and the urban farming organization, Not Far From the Tree to find out where your food comes from. Urban people take a field trip and go country to better understand the origins of their food. Find out what community share agriculture is and discover a garden of hope which teaches city dwellers the importance of good food. The food we choose impacts the environment in many ways. The food production industry has undertaken radical changes in recent years. Everything from what we grow, to how we grow it, to biological engineering has forever altered the food production business. Learn about soil management, how to run an organic operation, where our food comes from and just how simple healthy eating can be.

## GLOBAL FOOTPRINTS ON THE ENVIRONMENT: RAINFORESTS & DEFORESTATION, PALM

## OIL & SAVING THE ORANGUTAN

This program explores the earth's forests, from the effects of deforestation and palm oil production, to forestry gardening and sustainable business practices. Trees are the lungs of our planet but we keep cutting them down? Find out the effects of deforestation. Did you know that a chocolate bar is responsible for the near extinction of the Orangutan? Find out why. We will also teach you how to garden the forest, introduce you to cosmetic company who are washing their hands of palm oil and an urban tree salvage company that saves trees. 50 years ago about 15% of the planets land surface was covered by a rain forest. Today, more than half of that has gone up in smoke. 12-15 million hectares of forest are lost every year. That is the equivalent of 36 football fields per minute. If that trend continues the Amazon will be gone in 50 years. So what is deforestation and why should we care?

**Item no.** : HH06041451

## GLOBAL FOOTPRINTS ON THE ENVIRONMENT: RECYCLE YOUR TRASH

It is time to recycle your thinking & change your habits. Did you ever wonder where your old tires, cars and computers end up? Go behind the scenes at a local recycling facility to find out. Why has our planet become a garbage dump? Learn how our garbage is extracted, produced, distributed, consumed and disposed of. There are lots of different kinds of recycling. When recycling is done well it is an essential part of the solution, when done poorly it is an obstacle and part of

the problem. The most important component to reducing our waste is to recycle and changing our habits is key.

**Item no.** : PD06111452

**Copyright** : 2017  
**Price** : USD 74.95

## GLOBAL FOOTPRINTS ON THE ENVIRONMENT: SMALLER, GREENER, MORE FLEXIBLE HOMES & WATER CONSERVATION

Smaller, greener & more flexible homes are popping up everywhere. Find out what the mini home is. We'll make you sea sick with shipping containers, get a tour of the Now House Project, a War time home that is now a mean, green, energy producing machine. When it comes to building our homes bigger is no longer better. New homes after doubling in size in the 1960s are shrinking. Smaller, greener, more flexible homes are the new norm. After transport and agriculture, housing is the most resource intensive industry in the Western World. A smaller home leaves a smaller footprint on the Earth in every measureable way. Fewer trees cut down, less earth bulldozed, less petroleum burned, less steel mined and less use of every natural resource. As sustainability becomes more prevalent in our society, so too are eco-friendly living and working spaces. This program explores the rise of smaller, more flexible and most importantly greener homes and shows you how to get the most out of your household water by reusing it.

**Copyright** : 2017  
**Price** : USD 74.95

## GLOBAL FOOTPRINTS ON THE ENVIRONMENT: TRANSPORTATION, GREENER CARS, BIODIESEL & DESIGNING CITIES LESS DEPENDENT ON FOSSIL FUELS

This program explores the automotive industry's move towards greener cars and the need for cities to balance cycling, public transport and cars within their overall infrastructure. So lets take a look at the transportation industry. Find out how to build a city around public transportation and the importance of the bicycle. Is there such a thing as a Green car? Have you heard cars can run on veggie oil, we'll show you how and take a look at biodiesel fuel. Increased levels of Carbon Dioxide are being expelled into the air from our tail pipes. Designing more sustainable transportation systems and being more

thoughtful of how we design our cities is key by integrating walkability, bikeability and public transit. Building a city based on reduced carbon dependency by finding ways of redesigning or retro fitting neighborhoods and designing cities less dependent on fossil fuels is the way of the future.

## GLOBAL FOOTPRINTS ON THE ENVIRONMENT: URBANIZATION & THE NATURAL WORLD

For the first time in history, more than half the population lives in cities. Because of urbanization every year we destroy untold amounts of plants and fertile soil. With this in mind, how can we make cities more sustainable? This program takes a special look at green roof gardening, the expansion of solar panels and thinking inside the box with food container gardening. Big cities leave big trouble for the natural world. The good news is we have the ability to change. There are currently innovative technologies in place that will help combat climate change in big cities.

## GLOBAL SCIENTIFIC & ENVIRONMENTAL ISSUES: SAVING THE MUSTANG - NORTH AMERICAS HORSE ON THE BRINK OF EXTINCTION

Wild mustangs have long been an icon of native peoples and early settlers of North America. Yet their fate today is uncertain. Saving The Mustang explores the state of wild horses today through the efforts of three individuals. Canadian horseman Randy Bird who adopted eight mustangs from a crowded facility in Wyoming. Endurance rider and song-writer Jean Albert Renaud and Roger William, past chief of the First Nation Xeni Gwetin, who created a 200,000 hectare wild horse preserve in the pristine and rugged wilderness of the Nemiah Valley in British Columbia. All three stories interweave a compelling tale of perseverance and determination, one that offers hope for these amazing animals.

**Price** : USD 74.95

## GLOBAL SCIENTIFIC & ENVIRONMENTAL ISSUES: WHAT IS KILLING LAKE - WINNIPEG & HOW TO SAVE IT

A fascinating documentary that shines a light on global scientific and environmental issues. Can we save one of the worlds largest freshwater lakes? This program reveals how a perfect storm of agriculture, hydro practices, sewage run-off, flooding and marsh destruction have devastated Lake Winnipeg, Manitoba, Canada, the 10th largest lake in the world. Lake Winnipeg is a 25,000 square km inland sea. It is bigger than Lake Ontario and about the same size as Lake Erie and it is in deep trouble. This once pristine lake has the worst blue-green algae problem of any major lake on the planet. In a distorted cycle that is a direct result of human activity, an excess of chemical nutrients in the lake has caused massive algae blooms. The green sludge washing up on the lakes shores threatens not only the lakes beauty, but also the natural ecosystems underlying it. If we dont intervene to restore the natural nutrient balance, one of Canadas largest lakes could choke from the bottom up. This film examines why the lakes ecology has changed so dramatically in just three decades and what needs to be done to restore the natural nutrient balance of one of Canadas largest lakes.

## MACHINES

Directed by Rahul Jain

Marrying stunning visuals with social advocacy, Rahul Jain's debut documentary - takes audiences into the labyrinthine passages of an enormous textile factory in Gujarat, India. Jain's camera wanders freely between pulsating machines and bubbling vats of dye to create a moving portrait of the human laborers who toil away there for 12 hours a day to eke out a meager living for their families back home. Interviews with these workers and the factory owners who employ them reveal the stark inequality and dangerous working conditions brought about by unregulated industrialization in the region. This political message is

delivered amidst the unsettling beauty of the factory's mechanical underworld and the colorful, billowing fabrics it produces.

## FASHION

### BALMAIN STYLE, THE

An air of mystery reigned at the end of the Balmain fashion show on September 28, 2011: nobody knew who was about to take a bow. No one in the room knew the new house designer. His name is Olivier Rousteing.

Ever since Yves Saint Laurent's mythical rise to the top of the Dior house at the age of 21, the world of fashion has delighted in young prodigies whose fine instincts and outstanding personalities promise to change the course of things. Olivier Rousteing belongs to this line of descent.

Paris has a new hero. But it's not an easy legacy to bear, especially in the mythical French house created in 1945 by Pierre Balmain. Is Olivier Rousteing disconnected from reality? How does he manage the stress before a fashion show? How does he build team spirit? How does he dream up and subsequently perfect his talents as a tailor?

## BRITISH STYLE

What is the British style? London has always been a hotbed of new trends, and is by far the most stylish European capital. It's no accident that punk, which prompted the biggest stylistic rebellion of the last century, began life in the city.

This documentary will be a lively, entertaining and colorful exploration of Britain's wardrobe and British style. Using some revealing archives that span contemporary modes back to the 1950s, the fashion specialist Loïc Prigent uses his sharp eye and shrewd analysis to decode the changes in British dress codes, from uniforms, the aristocracy, lad culture, eccentrics, Anglicism, the British fashion industry, and the ultimate Englishwoman.

**Item no.** : TR29830072

**Price** : USD 1100.00

## FASHION IN THE 1990'S

Loïc Prigent returns to an exciting, fascinating, crazy and transformative decade that threw everything into question with its fashions that were alternately poverty-inspired, sensational, intellectual and pared-down, before making a victorious and sexy comeback!

This documentary combines spot-on analysis with socio-cultural dissection and a fun trip down memory lane. The inspirational fashions of the 1990s are currently being recuperated, revisited, revamped and revered by catwalk collections in Paris, Milan and New York. The film's 6 major themes - grunge, bad taste, bling, streetwear, sex and minimalism are made up of lively images blending archive footage and present-day interviews.

**Item no.** : TY29830073  
**Format** : DVD  
**Duration** : 52 minutes

**Price** : USD 1100.00

## FASHION SCANDALS

Fashion loves a scandal. In fact, it only progresses thanks to scandals - from the juicy to the thorny, to the spicy to the laughable.

There are various types of scandal in fashion, and this series endeavours to examine all of them, in a humorous light, seeking the fly in the ointment, the revealing or raunchy anecdote. Lo?c Prigent wants to reveal fashion's state of mind, and one of its principles: how to get ahead if you don't respect a thing. Fashion thinks outside the box - and therefore frequently clashes, often for better, sometimes for worse - and sometimes for the grotesque.

## MADE IN ITALY

1951-2015: 6 Revolutionary Decades in Italy and Fashion. From the dolce vita of the 1950s, to the hedonism of the 1970s, the prolific 1980s, and the globalization of the 2000s, this is a history of Italy told through fashion and its big-name fashion houses.

The made in Italy label has always been synonymous with elegance, quality fabrics and tailoring. It jetted Italian fashion into pop culture and revolutionized fashion worldwide, inventing along its way bling-bling, supermodels, red carpets, and luxury as an inspired global art de vivre. Chockfull of archive footage and exclusive interviews, Made in Italy is a moving, serious evocation of pop over the past six decades. During this time, Italian fashion, like Italy itself, has constantly been reinventing itself.

## PARIS COUTURE

Shortly after the Second World War, Parisian haute couture experienced an extraordinary revival epitomised by Dior's New Look, Givenchy's elegance, Chanel's

style and Balenciaga's sophistication. It was a golden age, but it was also a swan song - the last blaze of glory of a world that had become an anachronism.

Through the intertwined careers of the great couturiers of the period and their eccentric, immensely rich customers, Paris Couture conjures up a world that has vanished forever - the world of the great couture houses, with its fancy dress balls and salons.

During those 25 years, the couturiers were able to give their imaginations a free rein, indulging in every possible extravagance, but the democratization of fashion, the advent of the leisure society and increasingly affordable air travel were to hasten the decline of haute couture.

## TREASURE OF YVES SAINT LAURENT, THE

The Pierre Berge-Yves Saint Laurent Foundation is a treasure trove of iconic haute couture creations, and also includes thousands of extraordinary sketches. Instantaneous testimony of both the history of fashion and the career of an outstanding creator, these drawings are the little-known legacy of Yves Saint Laurent and form the raw material of this film, along with contributions from Pierre Bergé and others the designer used to work with.

Yves Saint Laurent's job was to draw. It was his passion. He was never happier then when he was drawing. His sketches make up such a vast body of work it has not yet been fully catalogued. There are perhaps as many as 200,000 of these gems, moments in time, each with its own story. Brought out of the archives, these drawings come to life.

## GERONTOLOGY

### "BOB, I'M REALLY BUSY": THE IMPACT OF

## IMPERSONAL CARE ON THE WELL-BEING OF PERSONS LIVING WITH DEMENTIA

Through five short trigger scenarios involving assistance for a person living with dementia, this DVD presents care situations that will open up discussion on how best to provide resident-specific support and assistance. Each brief scenario is designed to demonstrate the impact of a caregiver's tone, actions, and level of sensitivity to the resident's needs. This up-close-and-personal look at caregiving will give caregivers a chance to dissect and analyze how they provide care, and foster a deeper understanding of how to interact positively with persons living with dementia.

## "I'LL BE THERE FOR YOU" - PROVIDING PERSON-CENTERED DEMENTIA CARE

By Jett Jousma

Learn how person-centered care can positively impact each day for persons with dementia...

This DVD shows how to make a hands-on shift to person-centered dementia care that engages the whole person and creates a support system based on each resident's needs and preferences.

From natural wake-ups to music therapy, the DVD looks at the benefits of involving residents in their care as much as possible, finding ways to help them to "continue" living life the way they prefer, and engaging them in personalized activities that boost self-esteem and interaction. It also empowers nursing assistants to act upon (and communicate to other team members) their first-hand knowledge of

each resident to ensure a better understanding of their care needs.

**Item no.** : BB01370360

## FEED HER WHILE SHE WALKS

When a resident won't sit long enough to eat, or insists on leaving, or wanders into potentially unsafe areas - what do you do?

This 20-minute DVD will help. Using real people and real situations, it offers thought-provoking insights into wandering behavior, and shows effective examples of providing person-centered care to residents who wander or insist on leaving. It also shows how an interdisciplinary approach to understanding and adjusting care to each resident's specific needs can promote independence and safety, and identifies environmental cues that can help deter wandering into unsafe or private areas (such as, another resident's room).

Includes strategies for:

- Working with residents who wander at night
- Working with residents who keep leaving the building
- Working with residents who move items or get into things

Caregivers will be inspired to find creative, flexible ways to redirect and engage persons who wander or want to leave.

## HE WOULDN'T TURN ME LOOSE: THE SEXUAL ASSAULT CASE OF 96-YEAR-OLD MISS MARY

This DVD presents the real-life case of 96-year-old Miss Mary, who was financially exploited and later, sexually assaulted by her grandson. Miss Mary had been living with her grandson and his wife for five years during which financial abuse took place. Then, one evening, when his wife was out, the grandson sexually abused Miss Mary for several hours, leaving her bruised from head to toe.

After the attack and hospitalization, Miss Mary was placed in a nursing home under the name "Jane Doe" for safety reasons. Miss Mary's family refused to believe her and refused to support her; her primary social interactions were with staff and residents of the nursing home, and the advocates she met after the assault. However, Miss Mary retained her strength of character, and fully participated in the subsequent trial and prosecution of her grandson.

Through interviews with Miss Mary, various professionals involved in investigating and trying the case, and with victim advocates who helped Miss Mary, the DVD reveals some of the dynamics involved in this case, and how it was successfully brought to trial and prosecution.

## INTO THE OTHER LANE: DRIVING AND DEMENTIA

This two-part DVD presents a compassionate, yet realistic portrait of the many issues faced by persons with dementia, (and their caregivers) when a decision has to be made about giving up driving.

### Part One

Stories shows the real stories of five persons with dementia, and the impact that no longer being safe to drive makes on the autonomy and self-esteem of the person with dementia, as well as, the effects on family relationships and life styles. The stories are four to eleven minutes long, and put a human face on how it feels to be told that you can no longer drive, and how it feels to be a caregiver in this emotionally-charged process.

### Part Two

Related Issues includes helpful insights from healthcare and driving safety professionals on how Alzheimer's affects

driving ability, how to initiate the conversation about driving cessation, transportation options, and what healthcare specialists can do to help facilitate the situation for both the person with dementia and the caregiver.

## IS IT THE RIGHT TIME? THE NURSING HOME DECISION

This follow-up DVD to More Than a Thousand Tomorrows (the story of Betty and Everett Jordan's struggle with Alzheimer's Disease) deals with the tough decision of nursing home placement, and how the Jordan family struggled with that decision.

In this DVD, Is it the Right Time? The Nursing Home Decision, several of Everett and Betty's children participate in a social worker-facilitated discussion of how that decision was made and how the communication regarding the decision might have been better handled. Their frank and honest questions and answers shed light on the importance of keeping open the lines of family communication around the timing of this very emotional and difficult decision.

**Item no.** : SH01370202

## MORE THAN WORDS: A NEW CULTURE OF CARE AND COMMUNICATION WITH PERSONS WHO HAVE DEMENTIA

This culture-changing DVD demonstrates (through real interactions) how person-centered care and knowledge of

the resident can reduce dementia-related episodes, such as, sundowning and aggressive-protective reactions when bathing, and wanting to leave.

As it pinpoints the crucial role of the CAN as caregiver and friend, it also shows the importance of communicating directly, and creating a true "relationship" with persons with dementia. Caregivers will learn valuable tips to redirect and lessen anxieties for persons with dementia while preserving their personal autonomy and dignity.

The DVD covers:

- Building and maintaining a relationship
- Dealing with difficult situations
- Communicating to show respect
- Accepting their reality
- Respecting the person's preferences
- Encouraging use of remaining abilities

**Item no.** : ND01370271

## PERSON-CENTERED DEMENTIA CARE: STORIES AND EXAMPLES

"Who is this person - without dementia? If we can tap into who this person is, we can help their adjustment, and the process that they go through." - from the DVD

Through hands-on stories and examples, this chaptered DVD shows the positive impact of person-centered care. When caregivers meet persons with dementia "where they are" and find creative and engaging ways to connect with each individual, based on their needs and preferences, life is better for both residents and staff.

The DVD includes the case study of Elaine, a resident who, for extended periods of time, attempts to leave the facility and go home. By pinpointing the importance of knowing the resident, it shows how her "exit-seeking" behavior is addressed and managed in the context of who she is and what she needs at that particular time.

The DVD also shows how to make life richer for the residents who have dementia by

- personalizing their dining experience
- encouraging use of remaining abilities
- engaging them in creative activities

**Item no.** : RK01370367  
**Format** : DVD

## SEXUALITY, INTIMACY, AND DEMENTIA IN RESIDENTIAL CARE SETTINGS

This 5-chaptered DVD brings forth a thoughtful, much needed exploration of sexuality, intimacy, and dementia, and the complex issues that impact residents, family members, and care staff. Through five 15- to 20-minute videos, the DVD looks at the relevant concerns of intimacy and sexuality on quality of life, freedom to express sexuality, capacity to consent, resident protections, and potential legal ramifications. It also touches on the needs of LGBT residents, how to address resident-to-resident and resident-to-visitor encounters, and how to find workable solutions with the support of family members.

The 5-DVD Chapters cover:

- Part 1: The Effects of Dementia on Intimacy and Sexuality
- Part 2: Responding to Sexual Expressions
- Part 3: Consensual Intimacy and Sexuality
- Part 4: Spousal and Family Responses
- Part 5: Non-consensual Intimacy and Sexuality

This DVD poses many relevant questions, and is designed to equip care staff with a well-rounded understanding of the sensitive issues concerning intimacy, sexuality, and the rights of persons with dementia, as well as, how to respond to expressions of sexuality in a manner that promotes both resident dignity and safety.

## MEDICINE AND HEALTH

### ALZHEIMER'S DISEASE: A CURRENT PERSPECTIVE ON THE RESEARCH AND TREATMENT - PART 1: EPIDEMIOLOGY &

### PATHOPHYSIOLOGY, PATHOGENESIS, DIAGNOSIS & EVALUATION

Discusses the epidemiology, pathophysiology and pathogenesis of Alzheimer's disease. Reviews the current recommended criteria for diagnosis and provides an overview of suggested neuroimaging diagnostic techniques. Reviews the most recent treatment options and management planning, including psychosocial intervention. Reviews current research and clinical trials investigating treatment, genetic influences, origins and mechanisms of the disease.

**Item no.** : HR01240220  
**Format** : DVD  
**Duration** : 44 minutes  
**Copyright** : 2017  
**Price** : USD 329.00

### ALZHEIMER'S DISEASE: A CURRENT PERSPECTIVE ON THE RESEARCH AND TREATMENT - PART 2: TREATMENT OPTIONS & MANAGEMENT PLANNING, CURRENT DIRECTIONS IN ALZHEIMER'S RESEARCH

Discusses the epidemiology, pathophysiology and pathogenesis of Alzheimer's disease. Reviews the current recommended criteria for diagnosis and provides an overview of suggested neuroimaging diagnostic techniques. Reviews the most recent treatment options and management planning, including psychosocial intervention. Reviews current research and clinical trials investigating treatment, genetic influences, origins and mechanisms of the disease.

## CONCUSSION AND TRAUMATIC BRAIN INJURY: CURRENT ADVANCES IN TREATMENT AND RESEARCH

Discusses the recognition of the effects of concussion and traumatic brain injury in both modern and historical contexts. Looks at current statistics of brain injury in sports and recreational activities. Provides an overview of symptoms and pathophysiology of concussion and traumatic brain injury, as well as discussion on diagnosis, treatment and prognosis for recovery.

Reviews chronic traumatic encephalopathy (CTE). Reviews current research into concussion, including the use of anti-inflammatory drugs for the treatment of concussion and measurement of predictive visual tracking as a screening technique to identify mild traumatic brain injury.

**Item no.** : TG01240222

## INTRODUCTION TO THE SLEEP LABORATORY, AN

By Dr. Jeffrey Nelson

This program is designed for patients that are experiencing sleep apnea and other sleep disorders. This 20-minute program provides an introduction to what the patient can expect in dealing with a sleep specialist and sleep laboratory. It explains how important a sleep study can be in diagnosing and treating a variety of

ailments that result from sleep disorders. This program is excellent for physicians to use with their patients. It also is a valuable addition to college and university libraries. Of course, nursing schools and other professional schools will be able to use this outstanding program in their neurology and sleep disorder courses.

**Item no.** : MV01240215  
**Format** : DVD  
**Duration** : 20 minutes  
**Price** : USD 119.00

## MACULAR DEGENERATION - A RESEARCH UPDATE

Presents an overview of the pathogenesis of macular degeneration, its epidemiology and the various genetic factors involved. Discusses both neovascular and non-neovascular forms, along with non-age related macular degeneration (Best disease) and the currently recognized risk factors involved. Provides an overview of the most recent diagnostic procedures. Discusses current treatment options and the most recent studies involving immune system and neuroprotective strategies, surgical options, and stem cell transplants.

## MAGNETIC RESONANCE IMAGING

This program includes a brief history of the development of nuclear magnetic resonance and a Technical Aspects segment with an explanation of the interaction between magnetic fields and radiofrequency waves which produce MR images.

The Operations segment looks at pre-MRI procedure screening and a current overview of protocol considerations as well as the positioning of various RF coils.

Finally, in the Interpretation segment of the program we discuss the actual imaging sequences and provide general explanations of intensity for each sequence.

## WHAT EVERY PHYSICIAN WANTS THEIR PATIENTS TO KNOW: DIABETIC NEUROPATHY

Diabetes is growing at an alarming rate. This video provides the latest strategies for diagnosing and treating various types of nerve pain originating from diabetes. Dr. Jeffrey Nelson addresses the serious issues related to diabetic neuropathy, including discussions of the use of proper foot care, anti-seizure medications and antidepressants to manage the disease.

**Item no.** : TA01240216  
**Format** : DVD  
**Duration** : 11 minutes  
**Price** : USD 120.00

## WHAT EVERY PHYSICIAN WANTS THEIR PATIENTS TO KNOW: FIBROMYALGIA

Fibromyalgia is a wide spread pain condition that affects approximately 5% of the population. In this video Dr. Nelson provides an introduction to fibromyalgia as well as a full discussion of the challenges involved in managing and creating treatment strategies using both pharmacological and non-pharmacological approaches.

Aerobic exercise, physical therapy, acupuncture, hypnosis and cognitive therapy techniques are discussed as effective tools in managing the disease.

**Item no.** : NA01240160  
**Format** : DVD  
**Duration** : 11 minutes  
**Price** : USD 89.00

## WHAT EVERY PHYSICIAN WANTS THEIR PATIENTS TO KNOW: INSOMNIA

Dr. Nelson is the director of a regional sleep center and cares for patients suffering from various sleep disorders every day. In this video sleep quality guidelines are discussed, as well as the various pharmacological strategies for the management of insomnia. Behavior modification is a key component of the treatment in most cases, and he explains the need for this as well as various methods the patient can use in order to ease the modification process. Insomnia is a frustrating condition for both patients and doctors, but can be successfully managed in most cases.

**Item no.** : FU01240190  
**Format** : DVD  
**Duration** : 10 minutes  
**Price** : USD 89.00

## WHAT EVERY PHYSICIAN WANTS THEIR PATIENTS TO KNOW: MIGRAINE

Presented by Dr. Jeffery Nelson

Designed for physicians to provide their patients with a solid introduction to migraine headaches, this excellent program covers the differences between sinus headaches, tension headaches and migraine. It also explores the causes of migraines; their auras, triggers and potential treatment regimens including abortive strategies and preventive treatments.

**Item no.** : YN01240192  
**Format** : DVD  
**Duration** : 15 minutes  
**Price** : USD 89.00

## WHAT EVERY PHYSICIAN WANTS THEIR PATIENTS TO KNOW: NARCOTIC MEDICATIONS

The objective of this video is to educate patients regarding their diagnosis and proper treatment when narcotic prescription medications are involved. Physicians often have minimal time and resources to do this properly face-to-face: we envision this video being used in the treatment room or a separate 'education' room after a traditional office visit.

This program is designed to be informative and to help the physician guide the patient away from mal-adaptive behavior. It is brief, easily understandable, and retains the patient's attention through the use of quality content and graphical displays.

**Item no.** : JF01240201  
**Format** : DVD  
**Duration** : 8 minutes  
**Price** : USD 89.00

## WHAT EVERY PHYSICIAN WANTS THEIR PATIENTS TO KNOW: SLEEP STUDIES

This video is designed for patients that are experiencing sleep apnea and other sleep disorders. Dr. Nelson provides an introduction to what the patient can expect in dealing with a sleep specialist and sleep laboratory, and explains the importance of a sleep study in diagnosing and treating a variety of ailments that result from sleep disorders. The video is an excellent tool for physicians to use in patient education, and is also a valuable addition to college and university libraries. Of course, nursing schools and other professional schools will be able to use this outstanding video in their neurology and sleep disorder courses.

**Item no.** : HL01240217  
**Format** : DVD  
**Duration** : 8 minutes  
**Price** : USD 120.00

## SCIENCE AND TECHNOLOGY

### BRAINS IN DANGER

For the past 20 years, the world has seen an alarming decrease in IQ and a rise of autism and behavioral disorders. This international scientific investigation reveals how chemicals in objects surrounding us affect our brain, and

especially those of fetuses.

In California, autism cases have increased by 600%. 44% of European children have an iodine deficiency - an element essential to brain development.

Today we are subjected to chemical elements harmful to the brain daily; those "endocrine disruptors" are present in lots of home and beauty products as well as food.

The estimated cost of those obstacles to brain development rises to EUR159 billion per year in Europe.

**Item no.** : FC29830093

**Copyright** : 2017  
**Price** : USD 1100.00

## VHS REVOLUTION

In the 80s, the VHS stirred up the winds of freedom from the United States to the USSR. Discover the amazing and crazy story of the little black box's rise to cult status.

The last VCR manufacturer stopped producing them in 2016. But VHS lives on.

An entire generation grew up with video cassettes. The current revival is also due to them revolutionizing our lives. Being able to record shows liberated people from TV programs' tyranny; that provoked studios and TV channels' ire as their cinema and ad revenue diminished.

The second revolution sparked by VHS, camcorders and video rental shops was cheap movie production, which allowed for the creation of small budget movies that anybody could watch at home. Pornography thus enabled a massive video market growth, which in turn made gore more popular. For better or worse, VHS pushed the boundaries of decency and shaped droves of teenagers' imagination through its horror and kitsch movies.

Using testimonies by pioneers and witnesses of the times, delve into the feverish visual culture the media generated - with far-fetched examples of canine television games, seduction manuals, aerobics class while holding a baby, among others.

## CRACKING CANCER

Directed by Judith Pyke

A clinical research trial at the Personalized OncoGenomics Program is changing the way scientists think about the future of cancer care.

Six years ago Zuri Scrivens, the mother of a toddler, was very ill with incurable breast cancer that had spread to her liver and lymph nodes. Today Zuri has no signs of cancer, not because of a miraculous new cancer drug, but thanks to a diabetes medication.

CRACKING CANCER follows a group of patients with incurable cancer on a trailblazing journey through a highly experimental clinical trial at the BC Cancer Agency in Vancouver called POG -- Personalized OncoGenomics.

The trial compares patients' normal DNA -- each cell's complete set of instructions -- with that of their tumors, to find the genetic mutations causing their cancer. Zuri's cancer driver was a mutation that caused a very high growth factor. The team plowed through decades of data to isolate which drug in all of medicine, not just cancer, might block that growth factor. They zeroed in on a diabetes medication.

Zuri received the drug and standard hormone treatment. Within 5 months, her cancer became undetectable.

POG offers a radical new way of treating cancer, not according to where it originates in the body, but rather as a disease of genetic mutations. Thousands more will join the trial, all hoping for their own salvation, all helping science to crack the cancer code.

## ROBOTS & ROBOTICS - AN INTRODUCTION TO ROBOTIC TECHNOLOGY

People have a lot of different ideas about what the future will be like. Will there be flying cars? Will people live on the Moon? One thing that most people agree on is that robots will probably be very important. So let's have a look at robots - how they work, how they're made and how they're going to change the world. Robot technology is already changing our world.

This program provides an easy-to-understand introduction to the history and applications of robots, along with the basic principles of robot Control Theory and engineering. Robots are some of the most complicated machines to have ever been made, but the basic principles of how they work can be quite easy to understand. Robot designs can be broken down into two different general types: Open Loop and Closed Loop. Open-loop robots repeat the same sequence of pre-programmed actions, no matter what. This type is commonly used by industrial robots, or other robots that only do one job in a very structured environment. They can be very easy to make, since they only do one thing. Closed-loop systems are much more complicated. Instead of just going through a list of pre-programmed actions, the robot looks at the world around it and changes its behavior depending on what it sees. Subjects covered include: A brief history of Robots, how Robots work, types of Robots, the Future of Robots.

## SOCIAL SCIENCES

### ACTIVISTS, THE: WAR, PEACE, AND POLITICS IN THE STREETS

Directed by Melody Shemtov

The story of activists who opposed the wars in Iraq and Afghanistan, including their lives, the tactics they used, and the historical context.

Activists and activism have long been a part of the struggle for peace and justice in American politics and society. Activists have fought battles for civil rights, voter enfranchisement, collective bargaining, and an end to wars. While these struggles have sometimes yielded significant victories, and at other times resulted in disappointing defeats, activism has always been driven by ordinary people who give freely of their time and resources to try to bring about their visions for a new world. However, activists -- as well as how they fit into the political process -- are often overlooked or misunderstood by their fellow citizens.

The Activists: War, Peace, and Politics in the Streets brings to life the stories of ordinary people who tried to stop and end the U.S. wars in Iraq and Afghanistan. At best, activists had limited influence over the conduct of military policy after 9/11. Yet, their experiences in the antiwar movement helped them to learn about speaking out in the face of injustice. They inspired others to do the same during the Arab Spring and Occupy Wall Street movements. Indeed, democracy requires more than just one vote every four years. It requires continued pressure by citizens on their government. This is what democracy looks like!

Featuring leading activists and scholars including Tom Hayden, Leslie Cagan, Medea Benjamin, and Michael Heaney.

### AWAKE, A DREAM FROM STANDING ROCK

Directed by Josh Fox, James Spione, Myron Dewey

Record of the massive peaceful resistance led by the Standing Rock Sioux Tribe to the Dakota Access Pipeline through their land and underneath the Missouri River.

The Dakota Access Pipeline is a controversial project that brings fracked crude oil from the Bakken Shale in North Dakota through South Dakota, Iowa and eventually to Illinois. The Standing Rock Tribe and people all over the world oppose the project because the pipeline runs under the Missouri river, a source of drinking water for over 18 million people, and pipeline leaks are commonplace. Since 2010 over 3,300 oil spills and leaks have been reported.

Moving from summer 2016, when demonstrations over the Dakota Access Pipeline's demolishing of sacred Native burial grounds began, to the current and disheartening pipeline status, AWAKE, A Dream from Standing Rock is a powerful visual poem in three parts that uncovers complex hidden truths with simplicity. The film is a collaboration between indigenous filmmakers: Director Myron Dewey and Executive Producer Doug Good Feather; and environmental Oscar-nominated filmmakers Josh Fox and James Spione.

The Water Protectors at Standing Rock captured world attention through their peaceful resistance. The film documents the story of Native-led defiance that has forever changed the fight for clean water, our environment and the future of our planet. It asks: "Are you ready to join the fight?"

### BOLD PEACE, A

Directed by Matthew Eddy, Michael Dreiling

Almost 70 years ago Costa Rica abolished its army and committed itself to fostering a peaceful society. It has been reaping the benefits ever since.

In his famous "Cross of Iron" speech in 1953, President Eisenhower critiqued the military-industrial complex while asking, "Is there no other way the world may live?" In Costa Rica today, we glimpse another way to live.

In 1948, Costa Rica dismantled their military establishment and intentionally cultivated security relationships with other nations through treaties, international laws, and international organizations. Free of the burden of military spending, they used the financial savings to invest in their people, creating strong public institutions including public higher education and universal health care. In short, Costa Ricans created a society committed to peace, solidarity, and international law. They have survived with safety and relative prosperity for nearly 70 years without a standing army.

A BOLD PEACE details the events which shook the country to its foundations, culminating in the 1948 civil war and the decision to abolish the military. Over the decades, the Costa Rican model has survived several serious crises, but the current threats may be the most formidable of all.

### CELLING YOUR SOUL

Directed by Joni Siani

An examination of our love/hate relationships with our digital devices from the first digitally socialized generation, and what we can do about it.

In one short decade, we have totally changed the way we interact with one another. The millennial generation, the first to be socialized in a digital world, is now feeling the unintended consequences.

CELLING YOUR SOUL is a powerful and informative examination of how our young people actually feel about connecting in the digital world and their love/hate relationship with technology. It provides empowering strategies for more fulfilling, balanced, and authentic human interaction within the digital landscape.

The film reveals the effects of "digital socialization" by taking viewers on a personal journey with a group of high school and college students who through a digital cleanse discover the power of authentic human connectivity, and that there is "No App" or piece of technology that can ever replace the benefits of human connection.

## CHESHIRE, OHIO: AN AMERICAN COAL STORY IN 3 ACTS

Directed by Eve Morgenstern

Follows a community devastated by coal, starting with American Electric Power's buyout and bulldozing of this Ohio River town, after exposing them to years of harmful emissions.

A gun toting 83-year old woman refuses to sell her house to the power plant next door but the plant has moved ahead with their 20 million dollar deal to buy out most of Cheshire and bulldoze all the homes. What happened in this Ohio River town overrun by one of the largest coal-fired power plants in the world? A story of money, power and the increasingly difficult choices we face surrounding coal and the environment, CHESHIRE, OHIO makes us think twice about home.

Filmed over a decade, CHESHIRE, OHIO follows a community devastated by coal, starting with American Electric Power's buyout and bulldozing of this Ohio River community after exposing them to harmful emissions, and then returning several years later to the now almost emptied town as we follow the case of 77 plaintiffs who have filed a lawsuit against American Electric Power for cancer and other

diseases they developed from working unprotected at the plant's coal ash landfill site.

As the cycle of pollution from coal continues, we see how one quintessential American town suffers from our reliance on carbon energy.

## COMPANY TOWN

Directed by Deborah Kaufman, Alan Snitow

A grassroots movement challenges Citizens United, corporate power, and moguls of the "sharing economy" to stop gentrification and wrest back control of San Francisco's future.

The once free-spirited city of San Francisco is now a "Company Town," a playground for tech moguls of the "sharing economy." Airbnb is the biggest hotel, Uber privatizes transit. And now these companies want political power as well.

Meanwhile, middle class and ethnic communities are driven out by gentrification, skyrocketing rents and evictions, sparking a grassroots backlash. Can an insurgent electoral campaign overcome corporate power and billionaires' megabucks to change a city's course?

COMPANY TOWN shows how a grassroots coalition of unions, tenants, neighborhoods of color, activists and artists can come together to win.

## CULTIVATING KIDS

Directed by Melissa Young, Mark Dworkin

On South Whidbey Island, WA, a school farm shows that a garden can be a valuable addition to the curriculum while encouraging a healthy diet.

On South Whidbey Island in the state of Washington, a school farm involves children from kindergarten through high school in every phase of raising organic vegetables as part of their school experience. Supported by local non-profits, community volunteers, and the school district, it shows that a garden can be a valuable addition to a school curriculum, while encouraging children to eat healthy food. The school farm sells local, organic produce to the school cafeterias and also supplies the local food bank and community nutrition programs with fresh organic produce throughout the growing season.

## DEATH BY DESIGN

Directed by Sue Williams

Debunks the notion that electronics is a 'clean' industry by revealing the human and environmental cost of electronic gadgets that are designed to die.

Consumers love - and live on - their smartphones, tablets and laptops. A cascade of new devices pours endlessly into the market, promising even better communication, non-stop entertainment and instant information. The numbers are staggering. By 2020, four billion people will have a personal computer. Five billion will own a mobile phone.

But this revolution has a dark side that the electronics industry doesn't want you to see.

In an investigation that spans the globe, award-winning filmmaker Sue Williams

investigates the underbelly of the international electronics industry and reveals how even the tiniest devices have deadly environmental and health costs.

DEATH BY DESIGN tells the stories of young Chinese workers laboring in unsafe conditions, American families living with the tragic consequences of the industry's toxic practices, activists leading the charge to hold brands accountable, and passionate entrepreneurs who are developing more sustainable products and practices to safeguard our planet and our future.

From the intensely secretive electronics factories in China, to the high tech innovation labs of Silicon Valley, DEATH BY DESIGN tells a story of environmental degradation, of health tragedies, and the fast-approaching tipping point between consumerism and sustainability.

## DENIAL

Directed by Derek Hallquist

A unique film about the filmmaker's father, a utility executive and smart grid pioneer in a nation in denial about climate change, who battles his own denial about his true identity.

Every day our changing climate pushes us closer to an environmental catastrophe, but for most the problem is easy to ignore. As people we often find it difficult to face change. We'd rather be in denial.

David Hallquist, CEO of a Vermont utility, has made it his mission to take on one of the US's largest contributors to this global crisis, our outdated and vulnerable electric grid. Under David's leadership his utility was one of the first to implement a smart grid. In order to make the widespread use of renewable energy sources practical, David argues, we first have to build a smart grid which uses digital communications technology to detect and react to local changes in usage, thereby decreasing outages and increasing efficiency.

But when his filmmaker son, Derek, tries to tell his father's story, the film is soon derailed by a staggering family secret, one that forces Derek and David to turn their attention toward a much more personal

struggle, one that can no longer be denied. With stunning access to intimate family moments and behind-the-scenes energy deals, and with unique humor in the face of overwhelming events, DENIAL manages to present insights into two important topics - one global and one personal - through a funny, informational, and enormously compelling personal narrative, and at the same time to throw light on the messy business of change.

## DISTURBING THE PEACE

Directed by Stephen Apkon, Andrew Young

A film about people born into conflict, sworn to be enemies, Palestinians and Israelis, who challenged their fate and joined together to say "enough."

In a world torn by conflict--in a place where the idea of peace has been abandoned--an energy of determined optimism emerges. When someone is willing to disturb the status quo and stand for the dream of a free and secure world, who will stand with them?

DISTURBING THE PEACE is a story of the human potential unleashed when we stop participating in a story that no longer serves us and, with the power of our convictions, take action to create new possibilities. DISTURBING THE PEACE follows former enemy combatants--Israeli soldiers from elite units and Palestinian fighters, many of whom served years in prison--who have joined together to challenge the status quo and say "enough."

The film reveals their transformational journeys from soldiers committed to armed battle to nonviolent peace activists, leading to the creation of Combatants for Peace. While based in the Middle East, DISTURBING THE PEACE evokes universal themes relevant to us all and inspires us to become active participants in the creation of our world.

## FOOD FOR CHANGE: THE STORY OF COOPERATION IN AMERICA

Directed by Steve Alves

The deep history of cooperatives in America -- the country's longest-surviving alternative economic system.

FOOD FOR CHANGE looks at the current resurgence of food cooperatives in America and their unique historic place in the economic and political landscape. Born in the heartland, cooperatives are seen as the middle path between Wall Street and Socialism.

The film profiles several food co-ops that have revived neighborhoods and communities - right in the shadows of corporate agribusinesses and supermarket chains. It's an inspiring example of community-centered economies thriving in an age of globalization.

## FROM THIS DAY FORWARD

Directed by Sharon Shattuck

Tells the story of a love, and family, that survived the most intimate of transformations.

With her own wedding just around the corner, filmmaker Sharon Shattuck returns home to examine the mystery at the heart of her upbringing: How her transgender father Trisha and her straight-identified mother Marcia stayed together against all odds. From This Day Forward is a moving portrayal of an American family coping with the most intimate of transformations.

As the film evolves into a conversation about love and acceptance in a modern American family, it raises questions relevant to all of us. As individuals how do we adapt to sustain long-term love and relationships? Where do sexuality and gender intersect? And how do families stay together, when external forces are pulling them apart?

## HOT TYPE: 150 YEARS OF THE NATION

Director: Barbara Kopple

Hot Type: 150 Years of The Nation is a vivid, inside look at America's oldest continuously published weekly magazine. Shot over three years in intimate, cinema verite style, the film captures the day-to-day pressures and challenges of publishing the progressive magazine as it follows reporters out into the field, the editors who shape their work, and the editor-in chief who tries to keep all of the plates spinning.

Writers are the heart and soul of the magazine, and the film follows them extensively. Sasha Abramsky travels to West Texas to report on the years-long drought that has gripped the region and the devastating economic impact on farmers and residents. John Nichols unpacks what's going on behind the effort to recall Wisconsin governor Scott Walker. Amy Wilentz visits the "temporary" tent camps of Haiti, three years after the earthquake, to shed light on the dire conditions and lackluster international response. And Dani McClain reports on the Moral Monday movement in North Carolina, and its dynamic leader Rev. William Barber, as they push back against an extreme right-wing takeover of the state legislature.

In all of the current-day reported stories, The Nation's incredible trove of archival articles - and roster of writers - acts as an historical touchstone and illuminates how the past continuously ripples through and shapes current events.

At a fascinating moment in American history - politically, socially and culturally - the media landscape is changing at breathtaking speed. The film charts the journey of The Nation - and the nation - evolving into the future, as it is guided by its remarkable past.

## HOW TO LET GO OF THE WORLD AND LOVE ALL THE THINGS CLIMATE CAN'T CHANGE

Directed by Josh Fox

Oscar-nominated director Josh Fox contemplates our climate-change future by exploring the human qualities that global warming can't destroy.

In his new film, Oscar-nominated director Josh Fox (GASLAND) continues in his deeply personal style, investigating climate change - the greatest threat our world has ever known. Traveling to 12 countries on 6 continents, the film acknowledges that it may be too late to stop some of the worst consequences and asks, what is it that climate change can't destroy? What is so deep within us that no calamity can take it away?

Featuring, among others, Lester Brown, Elle Chou, Van Jones, Elizabeth Kolbert, Michael Mann, Bill McKibben, Tim DeChristopher, Petra Tschakert.

## LAST MOVE, THE

Michael Thomasson spent a lifetime

amassing the world's largest video game collection. Now, with his mother sick and facing an enormous mortgage, Michael must put his collection up for sale.

Michael Thomasson has devoted his life to video games. It's been his passion and his obsession for more than three decades. He owns over 11,000 unique game titles for more than 100 different systems.

Why?

"Because there's something wrong in the back of my head," he says.

His collection is so large, in fact, it's currently recognized by the Guinness Book of World Records.

But there's one thing Michael loves more than his games: his family. The Last Move chronicles Michael's attempts to help his mother at an enormous personal cost to himself.

## LIFE AFTER WATER

California's Central Valley produces more than half of America's produce. But the summer of 2015 marked the fourth year of what has become a monumental drought. Small family farmers like Jesus Ramos are in trouble. And when the farmers are in trouble, the country is in trouble.

"No one is going to want to spend \$5 on an orange," Jesus' daughter says. Faced with stifling water restrictions, caused in part by environmental concerns over sea life, farmers like Jesus have few options.

Compounding the problem is the reality that without water, their trees will destroy the soil. So farmers uproot their trees and wait. But re-growing citrus trees takes years. Or they can gamble, hoping that this season will be the last one without water.

California's Central Valley is in crisis and if it doesn't rain soon the rest of the country will be soon feeling the effects, too.

## MY LOVE AFFAIR WITH THE

## BRAIN: THE LIFE & SCIENCE OF DR. MARIAN DIAMOND

Directed by Catherine Ryan, Gary Weimberg

Looks at the life and work of Dr. Marian Diamond, one of the founders of modern neuroscience, and an inspirational teacher to thousands at UC Berkeley and to millions on YouTube.

Meet Dr. Marian Diamond as she pulls a human brain out of a hatbox and lovingly enumerates its astonishing qualities. MY LOVE AFFAIR WITH THE BRAIN follows this remarkable woman over a 5-year period and introduces the viewer to both her many scientific accomplishments and the warm, funny, and thoroughly charming woman herself, who describes her 60-year career researching the human brain as "pure joy."

As one of the founders of modern neuroscience, Dr. Diamond challenged orthodoxy and changed our understanding of the brain--its plasticity, its response to enrichment and to experiences that shape both development and aging. Her groundbreaking work is all the more remarkable because it began during an era when so few women entered science at all. Shouted at from the back of the conference hall by noteworthy male academics as she presented her research, and disparaged in the scientific journals, Dr. Diamond simply did the work and followed where her curiosity led her, bringing about a paradigm shift in the process. As she points out, in order to get to the answers that matter, you have to start by asking the right questions.

## OKINAWA: THE AFTERBURN

Director: John Junkerman

Okinawa: The Afterburn is the first documentary to provide a comprehensive look at the battle and the ensuing 70-year occupation of Okinawa by the United States military.

On April 1, 1945, American troops landed on Okinawa, beginning a battle that lasted 12 weeks and claimed the lives of some 240,000 people. The film depicts the Battle through the eyes of Japanese and American soldiers who fought each other on the same battlefields, along with Okinawa civilians who were swept up in the fighting, with carefully selected footage from the U.S. National Archives.

The film also conveys the complex postwar fate of Okinawa, an island that has had to live side-by-side with an extensive array of US bases, and the related crimes, accidents, and pollution they have caused, while coexisting, on a personal level, with the occupying soldiers.

In Okinawa, the legacy of the war translates into a deeply rooted aversion to military force. This has been expressed in recent years by the island-wide rejection of the plan to build a new US base at Henoko, a source of controversy to this day. Okinawa: The Afterburn explores the roots of this resistance and Okinawa's vision for the future.

THE FILM IS DIVIDED INTO FOUR PARTS:

PART 1: The Battle of Okinawa depicts the ferocious battle through the testimony of Japanese and American soldiers who faced off in the conflict.

PART 2: Occupation reveals how military occupation policies were implemented.

PART 3: The Afterburn confronts the history of sexual violence that has accompanied the American military presence on Okinawa.

PART 4: To the Future explores the Japanese government's decision to build a new base in Henoko.

## ONE BIG HOME

Directed by Thomas Bena

Trophy homes threaten Martha's Vineyard. When he feels he is complicit in wrecking the place he calls home, one carpenter takes off his tool belt and picks up a camera.

Gentrification comes in many forms. On the tiny island of Martha's Vineyard, where presidents and celebrities vacation, trophy homes threaten to destroy the island's unique character.

Twelve years in the making, ONE BIG HOME follows one carpenter's journey to understand the trend toward giant houses. When he feels complicit in wrecking the place he calls home, Thomas Bena takes off his tool belt and picks up a camera. Bumping up against angry homeowners and builders who look the other way, he works with his community and attempts to pass a new bylaw to limit house size.

## PROFESSOR, THE: TAI CHI'S JOURNEY WEST

Director: Barry Strugatz

The Professor: Tai Chi's Journey West is a feature documentary about Tai Chi and one of its greatest masters, Cheng Man-Ching, a man who brought Tai Chi and Chinese culture to the West during the swinging, turbulent 60's. Though Cheng is an important transformational figure, his teachings have been overlooked. This documentary film tells the story of his remarkable life and features Tai Chi as a martial art and a spiritual practice.

## RULE OF LAW

Directed by Dan Iacovella

RULE OF LAW shares the story of a newly-disabled outlaw in rural Tennessee whose local court case on minor traffic violations evolves into a landmark class action lawsuit before the U.S. Supreme Court where the rights of 55 million people and the Americans with Disabilities Act itself are at stake. A lawyer from one of the smallest counties in the country represents the outlaw and takes it to the highest court in the land to debate issues of sovereign immunity and due process.

It reveals how questions of civil rights affecting a broad spectrum of people can arise out of the most unlikely sources, how a good lawyer should never ignore any client and should look for constitutional issues in whatever thorny problems his/her clients have, how slow the legal system is, how unresponsive government lawyers can sometimes be and how anyone, no matter what their history, along with a single small-town lawyer can work together to help millions of people.

## SACRED COD

Directed by Steve Liss, Andy Laub, David Abel

Captures the collapse of the historic cod population in New England, delving into the effects of overfishing, climate change and government policies on fishermen and

the fish.

For centuries, cod was like gold, driving men to extremes. Cod were so abundant in the waters off New England that fishermen used to say they could walk across the Atlantic on the backs of them, and generations of men from places like Gloucester and Cape Cod spent their entire lives chasing the coveted fish.

In recent decades, something began to change in the Gulf of Maine. As the region's cod catch plummeted, government surveys of the iconic species reported increasingly dire results. Scientists and environmental activists raised alarms about overfishing and the warming ocean. They urged officials to act.

On Nov. 10, 2014, after years of ignoring warnings, NOAA officials banned virtually all cod fishing throughout the region. Fishermen were infuriated. They challenged the findings and accused the government of trying to destroy their livelihood. Environmental activists feared the government's action had come too late to save the cod.

In 2016, officials estimated there were fewer than 200 cod fishermen left in the fleet, and they're now in the fight of their lives, struggling to hold fast to a tradition that has endured for centuries in New England.

SACRED COD gives us an up close look at the challenges many will have to face in the age of climate change.

## SEARCH FOR GENERAL TSO, THE

Directed by Ian Cheney

A quest to understand the origins of this ubiquitous, spicy red chicken dish and to explore the history of Chinese-American food.

This mouthwateringly entertaining film travels the globe to unravel a captivating culinary mystery. General Tso's Chicken is a staple of Chinese-American cooking, and a ubiquitous presence on restaurant menus across the country. But just who was General Tso? And how did his chicken become emblematic of an entire

national cuisine?

Director Ian Cheney journeys from Shanghai to New York to the American Midwest and beyond to uncover the origins of this iconic dish, turning up surprising revelations and a host of humorous characters along the way. Told with the verve of a good detective story, THE SEARCH FOR GENERAL TSO is as much about food as it is a tale of the American immigrant experience.

## TRIBAL JUSTICE

Directed by Anne Makepeace

Documents an effective criminal justice reform movement in America: the efforts of tribal courts to return to traditional, community-healing concepts of justice.

TRIBAL JUSTICE is a feature documentary about a little known, underreported but effective criminal justice reform movement in America today: the efforts of tribal courts to create alternative justice systems based on their traditions. In California, the state with the largest number of Indian people and tribes, two formidable Native American women are among those leading the way. Abby Abinanti, Chief Judge of the Yurok Tribe on the northwest coast, and Claudette White, Chief Judge of the Quechan Tribe in the southeastern desert, are creating innovative systems that focus on restoring rather than punishing offenders in order to keep tribal members out of prison, prevent children from being taken from their communities, and stop the school-to-prison pipeline that plagues their young people.

Abby Abinanti is a fierce, lean, elder. Claudette White is younger, and her courtroom style is more conventional in form; but like Abby, her goal is to provide culturally relevant justice to the people who come before her. Observational footage of these judges' lives and work provides the backbone of the documentary, while the heart of the film follows offenders as their stories unfold over time, in and out of court. These other stories unfold over time, engaging viewers with the dedication of the judges, the humanity of the people who come before them, and a vision of justice that can actually work.

Through the film, audiences will gain a new understanding of tribal courts and their role in the survival of Indian people. The film will also inspire those working in the mainstream legal field to consider new ways of implementing problem-solving and restorative justice, lowering our staggering incarceration rates and enabling offenders to make reparations and rebuild their lives.

## WHEN JUSTICE ISN'T JUST

Director: David Massey

Directed by Oscar-nominated and NAACP Image Award winner David Massey, this dynamic documentary features legal experts, local activists, and law enforcement officers delving into ongoing charges of inequality, unfair practices, and politicized manipulations of America's judicial system. Additionally, the Black Lives Matter movement and citizens nationwide question the staggering number of police shootings of unarmed Black men and women.

## UNWTO E-LIBRARY

The UNWTO Elibrary is an online service from World Tourism Organization with a

comprehensive coverage of tourism and related subject areas.

The Elibrary is a comprehensive information source offering an unparalleled coverage of research and information in the area of tourism. The subject areas reflect all important themes moving the tourism sector and include, among other, ecotourism, sustainable development, finance and investment, risk and crisis management, market search, tourism statistical and poverty alleviation. Altogether, the Elibrary contain already more than 1,100 books, working documents and the statistical reports from the Tourism Factbook.

The Elibrary is, as the leading resource of tourism information, especially interesting for government organizations, companies, consultancies and academic institutions dealing with tourism, business, political science, public administration, environmental studies and cultural geography.

### E-books

The Elibrary includes all the UMWTO publications since 1970 in electronic format. All e-books can be viewed online with PDF Viewer or can be downloaded.

### Easy Access

The Elibrary is always available and has a platform available in five languages: English, Spanish, French, Russian and Arabic. It's the easiest way to obtain new and old publications released by UNWTO.

**Format** : Online Database

## WORLD TOURISM FACTBOOK

The online version of the World Tourism Factbook is a source that officers access to the most up-to-date statistics on inbound and outbound tourism for more than 213 countries and territories. This resource is not only useful for libraries with a special focus on the field of tourism but also for many academic and public libraries.

### Statistical Data

The UMWTO statistical data is available in the Tourism Factbook, a fully comprehensive database for complete access to the latest figures.

### Tables

The statistical data aver available in spreadsheets and/or pdf files that include figures for last five years. The user can view directly the years included in the

tables and the year and month of the latest update.

#### Updated Information

The Toursim Factbook is updated up to three times per year or when new and important data is available.

## BRITISH PHARMACOPOEIA

The two pharmacopoeias that have legal status within the UK are the British Pharmacopoeia (BP), including the BP (Veterinary), and the European Pharmacopoeia (Ph. Eur.). The BP provides the only comprehensive collection of authoritative official standards for UK pharmaceutical substances and medicinal products and:

- is published every year in August
- becomes effective on 1 January of the following year
- incorporates all the monographs and texts of the Ph. Eur.

The BP is a vital reference tool for all individuals and organisations involved in pharmaceutical:

- research
- development
- manufacture
- quality control and analysis

The BP includes:

- general notices (providing general information applicable to all texts)
- general monographs (apply to all dosage forms)
- specific monographs providing mandatory standards for:
  1. active pharmaceutical ingredients
  2. excipients
  3. formulated preparations (licensed and unlicensed products)
  4. herbal drugs, herbal drug products and herbal medicinal products
  5. materials for use in the manufacture of homeopathic preparations
  6. blood-related products
  7. immunological products
  8. radiopharmaceutical preparations
- infrared reference spectra
- appendices
- supplementary chapters (providing additional guidance)
- comprehensive index

### British Pharmacopoeia (Veterinary)

The BP (Veterinary) is published as a companion volume to the British Pharmacopoeia. It contains standards for substances and products used solely in the practice of veterinary medicine in the UK.

The BP (Vet) also incorporates monographs and texts of the European Pharmacopoeia.

### European Pharmacopoeia

The Ph. Eur. Is published by the European Directorate for the Quality of Medicines & HealthCare.

The European Pharmacopoeia Commission is responsible for the publication of the Ph. Eur. The UK is a member of the EP Commission and is involved at all stages of Ph. Eur. Monograph development.
