## JUST THE FACTS: APPOMATTOX COURTHOUSE

APPOMATTOX - WITH MALICE TOWARD NONE

FEATURING gripping large scale re-enactments, dynamic educational 3D tactical map animations, beautiful motion graphics, and meticulous historical research " Appomattox: With Malice Towards None provides an unforgettable experience that will transport you back to one of the most pivotal moments in American history.

AT ONE O'CLOCK on April 9, 1865, General Robert E. Lee rode into the small town of Appomattox Court House, dismounted, and entered the McLean House. General Grant, surrounded by generals and staff officers, soon followed. The two supreme leaders of the epic Civil War were about to bring four years of bloody fighting to an end. Dozens of officers, horses, and onlookers waited outside " the mood was somber and filled with anticipation. After 90 minutes, Lee and Grant emerged. To the silent salutes of Union officers, Lee rode back through the village " to his defeated army.

The home that hosted the meeting became a sensation after the surrender. It also became a potent symbol " for it was at this iconic location that Lee and Grant set the stage for a process of peace and reunion " so that the healing could begin " and that first step was taken here, at Appomattox.

## JUST THE FACTS: BLUE RIDGE

THE BLUE RIDGE PARKWAY " AMERICA'S FAVORITE JOURNEY

FILMED in stunning high-definition, The Blue Ridge Parkway " America's Favorite Journey is the theatrical visitor's center documentary produced for the National Park Service.

WINDING through majestic mountains, idyllic farmlands, and distinct communities of the Southern Appalachians, the Blue Ridge Parkway stretches for almost 500 miles through Virginia and North Carolina.

THROUGH the use of breathtaking aerial photography, remarkable storytelling, and authentic regional music, The Blue Ridge Parkway " America's Favorite Journey

captures the distinct history, exceptional beauty, and unique culture of the Blue Ridge.

THE Parkway itself is filled with age and wisdom, thriving with legends, songs, stories and commerce. Famous for its cultural heritage and natural diversity, The Blue Ridge Parkway is aptly named "America's Favorite Journey."

## JUST THE FACTS: FORT MCHENRY

FEATURING striking visuals, cutting-edge computer animation, and "feature quality" historic reenactments, the film places viewers in the center of the dramatic conflict that inspired the national anthem of the United States, "The Star-Spangled Banner."

FROM the fierce battle, where American soldiers fought with valor to protect their homes and families, to the dire moments when Francis Scott Key famously looked through his spyglass straining to find the American flag flying over the fort " The Battle of Fort McHenry chronicles this defining moment in American history and will inspire generations to come.

## JUST THE FACTS: LINCOLN

Abraham Lincoln worked his way up from humble beginnings to become the 16th President of the United States. He served in the White House in the midst of a national crisis. Though ill prepared for the trauma of a civil war, he adapted himself to the circumstances to become an extraordinary leader. A flexible man of thought and a master of words, he is best known for signing the Emancipation Proclamation and writing the Gettysburg Address. For all his deeds and efforts in freeing the slaves and preserving the Union, Abraham Lincoln became the heroic martyr of the Civil War.

ABRAHAM LINCOLN came of age while living and working as a private citizen in Springfield, Illinois. It was here that he chose to settle down, build a life for himself and his family, and work hard to achieve success. Lincoln was a man who experienced the same hopes, dreams, and challenges of life still experienced by people today.

Through the use of remarkable storytelling

and top-tier historical recreations, A Journey to Greatness brings history to life and captures the portrait of a humble man who was destined for greatness.

Join Lincoln on his dramatic journey and learn about his formative years in Springfield, Illinois. Lincoln arrived in Springfield alone, with no money, not even a place to stay - but when he left Springfield twenty-four years later, he was headed for the White House, and the pages of history.

## JUST THE FACTS: TRAIL OF TEARS

THIS emotional documentary dramatically re-tells the story of the Trail of Tears, the brutal relocation of Native Americans from their homelands to Indian Territory in present day Oklahoma. Men, women, and children were forced to march over one thousand grueling miles to territories west of the Mississippi. Native Americans suffered from exposure, disease, and starvation on the march, and many died, including 4,000 of the 15,000 relocated Cherokee.

WITH the help of language and cultural experts, this film brings history to life by capturing scenes with a Native American cast and access to top-tier costumes and sets, all while shooting at actual locations along the Trail of Tears. The end result is a powerful documentary experience that transports audiences to this dark moment in American history and humanizes Native Americans in a manner rarely captured in a motion picture.

The documentary tells the story from the Native American perspective and includes detailed reenactment scenes that unfold in the Cherokee dialect to create total authenticity. Filmed in stunning high-definition and utilizing feature quality historical reenactments, this theatrical documentary captures the devastating hardship, suffering, and ultimately, the triumph of Native Americans driven from their homelands.

# ANTHROPOLOGY

## CARIBBEAN: A WORLD OF RICH VARIETY EPISODE 1

With Simon Reeve

Intrepid journalist Simon Reeve is off on a whole new adventure, embarking on a journey around the Caribbean Sea, home to some of the most exotic and enticing locations on Earth.

Simon begins his journey on the island of Hispaniola, then explores both the light and dark sides of the Dominican Republic. He joins the Police Anti-Narcotics Division in the war against international drug cartels in Santo Domingo then crosses the border to Haiti and visits the notorious tented camps of Cite de Soleil. He also discovers a vibrant, colourful and thriving side to life in Haiti borne out of the country's unique history.

## CARIBBEAN: A WORLD OF RICH VARIETY EPISODE 2

With Simon Reeve

Intrepid journalist Simon Reeve is off on a whole new adventure, embarking on a journey around the Caribbean Sea, home to some of the most exotic and enticing locations on Earth.

Episode 2 sees him in Barbados, playground for the rich and famous and one of the wealthiest islands in the Caribbean. But what effect does this dependence on high-end tourism have on the locals?

In Venezuela - a poor nation, despite having some of the largest gas and oil reserves in the world - Simon looks at the mismanagement of natural resources and meets the inventive people running businesses from a 'shanti town in the sky', an abandoned skyscraper that is home to more than 3,000 people. Moving on to Colombia, he meets the banana farmers still living with the scars of decades of civil conflict but finds a country well on the road to recovery.

## CARIBBEAN: A WORLD OF

## RICH VARIETY EPISODE 3

With Simon Reeve

Intrepid journalist Simon Reeve is off on a whole new adventure, embarking on a journey around the Caribbean Sea, home to some of the most exotic and enticing locations on Earth.

The final episode starts on the remote Caribbean coast of Nicaragua, a country facing monumental change with the construction of a new transoceanic waterway set to rival the Panama Canal. Simon then travels to the beautiful Honduran island of Roatán, a haven for marine life and tourists - as well as for people fleeing unimaginable violence on mainland Honduras. He ends his Caribbean journey on the iconic island of Jamaica, discovering a country confronting its violent reputation head-on as its police force cracks down on corruption. He spends time with young people who have rejected gang life and who offer a model of hope for future generations, making the island safer and more prosperous than it has ever been.

## HUNTERS OF THE SOUTH SEAS: THE BAJAU

A voyage of discovery

One area on our planet, above all others, demonstrates man's extraordinary amphibious abilities: the Coral Triangle in the southwestern Pacific. Set apart from the modern world, it is the last place on Earth where people who have lived their lives entirely at sea can still be found.

Each isolated community has adapted different but equally ingeniously to the challenges of their surroundings. They are famed for the unique skills that have enabled them to survive and thrive in and on the ocean. From the whale hunters of Lamalera who catch huge prey using just hand-thrown harpoons to the free-diving Bajau spear-fishermen of Sulawesi who stalk the seabed on just a lungful of air - these are the last true people of the sea. Delving deep into this vast seascape, explorer Will Millard travels to meet, live and learn from the last true people of the sea - at a time when great changes are arriving on their shores.

Full of wonder and adventure, this series is a personal and intimate exploration of one of the world's last remaining wild places and the people who call it home.

**StdBkNo** : 9781885477361  
**Price** : USD 79.95

## BULLYING

### ANTI BULLYING - HOW TO STAMP OUT BULLYING AT SCHOOL & IN THE CLASSROOM

Offering insight into different facets of bullying at school, the Anti Bullying Kit goes beyond the bystander, the bully or the victim, to get to the underlying causes of bullying in the classroom. Host Keith Deltano uses comedy to show students why they do what they do, how to change their behavior as well as the tools and resources to ignite powerful dialogue and prevent bullying in the classroom.

How to Bully Proof your Classroom: Strategies for Teachers - An ideal tool to empower teachers, this workshop gives teachers, administrators and district supervisors, simple strategies they can use to reduce bullying in their schools. Educators will learn how to break down social hierarchies and cliques, how to help excluded students become included and how to deal with online bullying. Administrators and teachers will learn a simple system and how to empower other parents and students to live a bully free life. (74 min).

How to Bully Proof your Teen: Strategies for Parents - This program empowers and educates parents to help build resilient teens and how to handle bullying situations. They will learn how to teach a non-emotional response when dealing with a classroom bully as well as strong character building skills to (bully proof) their teen. It shows parents how to deal with classroom drama, texting and social media sites such as facebook and instagram. Parents discover how to monitor and control the use of social media in their home, how to use technology to monitor and limit the amount of time teens spend on social media sites. (47 min).

Play-by-Play Anti-Bullying Scenarios - With a comic glimpse into homes and classrooms this program uses comedy clips to address bullying in a way that captivates students and shows them how they can change their behavior. It defines the four forms of bullying - physical, verbal, exclusion and online and encourages bystanders to be upstanders and challenges students to take a stand against hate, racism and intolerance. Students will learn how much damage they can do to others and themselves through the misuse of social media. They will discover that much of what they put online is permanent and that cyber bullying is a prosecutable offense. It takes a look at the different roles of the victim, bully and bystander, along with actual ways the bystander can intervene and how the victim can stop being a victim. Deltano challenges the youth and adults in the audience to contemplate how they view each another. The scene "Labels Lie" is about acceptance. It shows students how to make new friends by reaching out and encourages students to stop judging each another by appearance, speech, or economic status. It talks about trash throwing and trash catching, haters and hate catching, bullies and bystanders and takes the unusual approach of addressing the mindset of the bully as well as those being bullied. (54 min).

## BUSINESS STRATEGY

### ROOKIE SMARTS: RECLAIM YOUR COMPETITIVE EDGE

With Liz Wiseman

- When experience is a liability
- What allows rookies (at times) to outperform veterans

Data shows that inexperienced people approach work much differently than veterans and as a result may outperform their experienced counterparts. Is there more power in not knowing? Is it possible that people may do their very best work when they are not highly qualified or skilled? Based on two years of research, Liz Wiseman offers keen insights into how thinking like a rookie can reinvigorate your competitive edge in the workplace. She shares the four key traits of successful rookies and what they do to retain their ✨ rookie smarts.§

Topics include:

- Motivation
- Challenges and Risks
- Strengths, Skills, and Training
- Time Management
- Communication and Teamwork
- Support Systems
- Rewards
- Advice for Others

**Item no.** : WB01070386

**Format** : DVD (Closed Captioned)  
**Duration** : 20 minutes  
**Audience** : Grade 6 - Adult  
**Copyright** : 2015  
**Price** : USD 79.95

## CHINA

### WEB JUNKIE

Director: Hilla Medalia, Shosh Shlam

Internet addiction is now a global issue, and China is the first country to classify it as a clinical disorder.

Web Junkie (directed by Hilla Medalia and Shosh Shlam) takes audiences inside a Beijing treatment center and explores the cases of three teenagers who suffer from this 21-century disorder. The program admits children between the ages of 13 and 18, and forces them to undergo military-inspired physical training and comply with monitored sleep and food standards. Despite such conditions, parents voluntarily send their children to the treatment center and relinquish personal involvement.

But as these young teens struggle with online withdrawal and a controversial treatment, questions about the nature of addiction, emotional attachments and cure come to the fore. Ultimately, Web Junkie provides a microcosm of modern Chinese life and takes a hard look at one of the symptoms of the so-called Internet age.

But as these young teens struggle with online withdrawal and a controversial treatment, questions about the nature of addiction, emotional attachments and cure come to the fore. Ultimately, Web Junkie provides a microcosm of modern Chinese life and takes a hard look at one of the symptoms of the so-called Internet age.

#### Review

- "Web Junkie is the special documentary that manages to be entertaining and informative, as well as emotionally involving without ever pandering or underestimating the audience's intelligence. It appeals to the intellect to get across complex ideas and concepts, and the heart to tell deeply felt, human stories, causing the questions it raises to linger in the mind long after it's finished." - Sean Egan, The Villager

**Item no.** : LG11990303  
**Format** : DVD (Color)  
**Duration** : 74 minutes

**Price** : USD 419.00

## CLEANROOMS

### CONTAMINATION CONTROL IN PRACTICE

Contamination control practices are crucial to the safety and reliability of many products. Working with products sensitive to micro-contamination under clean conditions is a very responsible task. Everybody involved needs to control contaminants that they cannot see and that makes understanding them absolutely essential.

This program is an introduction to the subject illustrating the reasons for, and the controls related to, super-clean production environments.

The subject chapter headings are:

- Introduction
- Contaminants
- Clean air, cleanrooms & associated controlled environments
- People in cleanrooms
- Precision cleaning & disinfecting
- Review

**Item no.** : ZC06340111  
**Format** : DVD-ROM

## CURRENT AFFAIRS & POLITICS

### 24 HOUR PARCEL PEOPLE

A race where every second counts

Our shopping habits are changing fast. We're turning away from traditional shops and buying via our computers and mobile devices - but how much do we really know about how our new digital marketplace works?

This observational documentary film lifts the lid on the staggering logistical feats, cavernous warehouses and armies of industrious workers behind the scenes of this virtual realm. Meet the multitude of couriers, engineers, drivers, sorters, loaders and managers frantically working to get our clothes, food, books, DVDs and even lifesaving drugs to our homes each day.

These are the unsung heroes of the shopping phenomenon of our time. Packed with striking facts and engaging stories, 24 Hour Parcel People is a captivating film that follows online deliveries from a click on a screen to a knock at the door.

## CHINA ON FOUR WHEELS

### EPISODE 1

Driving onwards

Intrepid journalists Justin Rowlett and Anita Rani take to the road through China, taking two very different routes that highlight the complex nature of this fascinating country.

Anita travels through the rich industrialised cities of eastern China, the land of self-made billionaires with fleets of super cars; of booming manufacturing plants and luxury holiday destinations. Justin's route takes him inland to a more rural China, where several million people still live in caves and donkeys are the most common means of transport.

As they navigate their way through congested cities and winding mountain roads, Justin and Anita explore whether the country's economic growth - typified by its massive car industry - can be sustained. What impact will that have on the day-to-day lives of the Chinese people and on the rest of the world?

**Note: This BBC title not available in Hong Kong, Macau, Taiwan, Mainland China, Japan, USA, Canada.**

## JIHADI BRIDES

Why are young women giving up the security of British citizenship, the love and support of their families and the comforts of Western living to become part of the Islamic State, the self-styled 'caliphate' fighting its way through Syria and Iraq?

This World explores the stories of five separate disappearances - from 21-year-old Aqsa Mahmood, a student from Glasgow, to the Halane twins from Manchester who were just 17 when they left for Syria. Friends and family offer an insight into the minds of these women at the time of their disappearance, while footage and the testimony of those with first hand experience of the Jihadist group explain what the women's new lives are likely to be like.

## MUSLIM BEAUTY PAGEANT AND ME

Behind the scenes at World Muslimah

Miss World is a competition known for glamorous girls and bikini modelling. But today there is an alternative version aimed at finding positive role models for women in the Muslim world - World Muslimah.

This global pageant aims to promote modesty and Islamic values and attracts competitors from Iran, USA, Afghanistan, Bangladesh, Indonesia, Malaysia, Brunei and Nigeria. Britain's first entrant, Dina Tokio, is a 25 year old fashion blogger and stylist from Cardiff with thousands of followers on her YouTube channel.

This film follows her journey as she aspires to make it through from her online audition to the selection stages, and into the final in Jakarta in November 2014. With unique backstage access to the competition and the finalists from all over the world, Dina gets to the heart of what being young, Muslim and female means in Britain and the rest of the world.

## POWER AND THE WORLD'S WOMEN

The challenge of changing lives

Twenty years ago, while still First Lady, Hillary Clinton made a groundbreaking speech in Beijing, setting down a challenge to world leaders: to treat women's rights as human rights. She highlighted abuses including young girls sold into slavery; women raped as a tool of war; lack of education for girls.

Since then, three women - Madeleine Albright, Condoleezza Rice and of course Clinton herself - have done one of the world's most powerful jobs, as US Secretary of State. In candid interviews, these three former Secretaries of State talk about what it's like being a woman at the centre of power, how they personally tried to change things and about the political challenges of improving the lives of women across the world.

The film reveals the shocking extent of abuses in some developing countries and conflict zones and asks what Western politicians should - and should not - do to promote women's rights and equality. And as the US waits to hear if Hillary Clinton will make a second attempt at the US presidency, the film asks if America is ready to break the biggest glass ceiling of all - and what a woman President of the USA could do for the world's women?

## DOCUMENTARY

### NERVE CENTER: UNDERCOVER ACCESS

INDYCAR CHAMPIONSHIP  
150,000 people from all over North America will descend upon the iconic Las Vegas Motor Speedway this October to watch one of the most thrilling car races of the year the IndyCar World Championships. While most people know the Indy as a fast and furious ride what they don't get to see is the amazing technology, coordination and talent that work tirelessly behind the scenes to pull off this multi-million dollar event.

CIRQUE DU SOLEIL'S "KA"  
One of the most technically astounding live shows in the world, Cirque du Soleil's "KA" opened in 2005 at the MGM Grand Hotel in Las Vegas. The main stage is the star acrobat of the show it can raise 70 feet, tilt from horizontal to vertical and spin a full 360-degrees thanks to its muscle -

an 80-foot gantry crane. All of the performers' movements are choreographed to be perfectly in-sync with the movement of the stage.

#### UPS WORLDPORT

Best known for its trademark brown trucks, vans, and scooters, UPS delivers almost sixteen million packages in 220 countries around the globe every day. The company also boasts one of the world's largest plane fleets 223 aircraft. Worldport, UPS' main airhub, is home base for that fleet - almost half of all UPS's air deliveries fly through here. Upon arrival, parcels are unloaded, scanned, sorted by size and location and then flown out of the facility all within the hour.

#### CHANNEL TUNNEL

Over a century in the making, the Chunnel is the longest undersea rail tunnel in the world. After eight years of leading edge construction, the Eurotunnel project rang in at a cost \$21 billion dollars. Considered one of the Seven Wonders of the Modern World, the Chunnel is a marvel of modern engineering and one of the most important rail systems in the world. Every hour multiple trains travel through the Chunnel's 50-kilometer expanse; crossing the English Channel in just 33 minutes. With a departure once every ten minutes, any system breakdown could severely disrupt cross-channel traffic, affecting up to a hundred thousand people and costing Eurotunnel millions.

#### AALSMEER FLOWER AUCTION

Equivalent in size to the kingdom of Monaco, nearly half of the blooms that make up the 40 billion dollar a year flower industry will be bought and sold at the Aalsmeer Flower Auction. Located southwest of Amsterdam, every day highly perishable imports arrive from around the globe, only to be shipped out less than 24 hours later. In the lead up to Valentine's Day, this logistics hub will be stretched to its very limit as thousands of people work tirelessly to receive, care for and distribute almost 50% more flora than usual (including more than 100 million roses!)

#### WHISTLER BLACKCOMB

Boasting the biggest vertical drop in North America and with over 32 square kilometers (8000 acres) of mountainous terrain, Whistler Blackcomb is one of the best places in the world to ski and snowboard. The numbers speak for themselves: over 200 trails, 5 parks, 1 super pipe, 1 snow cross track, 37 lifts that can move 69,680 skiers per hour, 17 mountain restaurants and a ski season that stretches from November to late May/early June. With an average of 1092 cm of snowfall a season, the fresh powder is what joy riders are after, but this much snow can also be deadly. A team of 5000 work 24/7 to keep them safe.

## **EVIDENCE-BASED TEACHING CPD**

### **PUPIL PREMIUM: SECRETS TO SUCCESS**

This film and training resource is designed to help schools get the most out of the Pupil Premium funding and enable leaders to provide hard evidence of the impact that funding has had on standards.

This resource looks at the evidence for what works, what three Pupil Premium award winning schools did, and gives practical advice to schools on how to achieve the best results using their pupil premium.

This film and training materials help schools to decide on how to best use the funding. The information is based on the latest research and looks at a variety of credible sources including those recommended by the Department for Education. Interviews with the headteachers of three Pupil Premium Award winning primary schools gives unprecedented insight into how schools make the most of the Pupil Premium.

Pt1: The Evidence  
Pt 2: What the award winners did  
Pt3: Choosing effective methods

**Item no.** : KC30690048  
**Format** : DVD (With CD-ROM)  
**Price** : GBP 199.00

## **EXECUTIVE LEADERSHIP**

## **HOW TO THINK LIKE A START-UP LEADER**

With Steve Blank

- Why companies need different policies and procedures designed for innovation
- How to implement Customer Development and other lean practices

Companies looking to be innovative face a conundrum: policies and procedures designed to make them efficient oftentimes stifle innovation. Unlike start-ups which are innovative by design, most organizations believe innovation can only happen by exception or heroic efforts. So how can a large company learn to think like a start-up? Steve Blank explains why the innovation process is so difficult in larger organizations and shares tools and processes that successful start-ups use to drive innovation.

**Item no.** : WG02460387  
**Format** : DVD  
**Duration** : 66 minutes  
**Price** : USD 95.00

## **FAMILY & RELATIONSHIPS**

### **BUILDING STRONG FAMILIES**

Encourage and engage parents and children to create lasting bonds to build stronger families. Join parenting experts Michelle and David Neujahr and their grown children as they share their tools and ideas for helping to build steadfast family ties that last a lifetime. The Neujahrs share their experiences and explain that taking time to think about who you are as a family, what you believe, and what's most important will help your family grow and stay strong for the long haul. Short video segments include:

- Vision (10:31)
- Define Your Family (7:00)
- Be Positive (8:32)
- Establish Rules (8:35)
- Spend Time Together (9:18)
- Support One Another (8:22)

## FURTHER EDUCATION OBSERVATION

### BTEC PERFORMING ARTS: DRAMA IMPROVISATION

In this unit of the Performing Arts Diploma, year one learners look at the use of improvisation in drama. A central theme is the impact that emotion has on a character.

Using a range of group and pair work activities, the session develops actor training skills that will apply in a range of different contexts.

**Item no.** : MD30690034  
**Format** : DVD (With CD-ROM)  
**Price** : GBP 89.00

### CS31 COURSE: TREE FELLING

In this lesson learners process and fell small trees in preparation for assessment at the end of this five day short course.

During the process of felling, learners have to learn new skills such as winching hung up trees. Successful candidates will gain a certificate of competence in small fell.

**Item no.** : FF30690039  
**Format** : DVD (With CD-ROM)  
**Price** : GBP 89.00

### LEVEL 1 CATERING: COOKING METHODS - STEAMING

In this lesson learners prepare a traditional steamed pudding with custard.

This group all have additional needs such as ADHD, Aspergers, Dyspraxia, and Dyslexia. A range of learning methods are introduced, recipes are read out, practical demonstrations are given, and the internet and PowerPoint are used for reference.

**Item no.** : RB30690040  
**Format** : DVD (With CD-ROM)  
**Price** : GBP 89.00

### LEVEL 2 ARBORICULTURE: TREE ACCESS AND RESCUE

In this lesson learners practise their tree climbing and aerial rescue skills. This will lead to an in-course assessment and

certificate of competence. Some will simulate an accident where they get stuck in the canopy of the tree. As a result of this, their colleagues will perform an aerial rescue. Meanwhile, on the ground, learners practise throwing ropes into the trees and tying knots.

**Item no.** : RU30690041  
**Format** : DVD (With CD-ROM)  
**Price** : GBP 89.00

### LEVEL 3 ANIMAL BIOLOGY: HORSE LEG DISSECTION

In this session learners dissect the lower leg of a horse.

Working in small groups, the aim is to safely dissect the limb, and identify select structures.

At the end of the lesson, learning is reviewed through a question and answer session.

Students learn to integrate functional language phrases of agreement and opinion into discussion.

The lesson sets the students' expectation of the level one exam.

**Item no.** : TU30690042  
**Format** : DVD (With CD-ROM)  
**Price** : GBP 89.00

### LEVEL 3 ANIMAL MANAGEMENT: DOG TRAINING

In this lesson learners are shown how to train dogs using clicker training techniques.

The focus is on teaching dogs new tricks and basic obedience behaviors.

The teacher explains and demonstrates a technique, which is copied and practiced by the pupils.

The learners work in pairs, giving opportunities for self and peer assessment.

**Item no.** : PV30690043  
**Format** : DVD (With CD-ROM)  
**Price** : GBP 89.00

### LEVEL 3 ART AND DESIGN: LIFE DRAWING

In this lesson learners look at the development of drawing skills and the use of drawing as an exploratory tool.

They review and discuss each other's homework assignment, a collage based on artist Euan Uglow's work using a limited palette.

Learners are made aware of the importance of being able to work from

observation and expressing creative ideas.

**Item no.** : BN30690044  
**Format** : DVD (With CD-ROM)  
**Price** : GBP 89.00

### LEVEL 3 EXTENDED DIPLOMA IN HEALTH & SOCIAL CARE: PSYCHODYNAMIC APPROACH

In this lesson year 2 learners apply some of the psychological theories covered in the previous academic year to see how individuals develop personality and language.

Specific behaviours are studied, in this case the focus is on aggression and addiction. Finally learners consider and discuss treatments.

**Item no.** : NU30690045  
**Format** : DVD (With CD-ROM)  
**Price** : GBP 89.00

### LEVEL 3 HORSE MANAGEMENT: EXCRETORY SYSTEMS

In this lesson, level 3 learners look at the excretory system using kinesthetic learning styles.

The aim is to improve their note making and academic skills. Later in the course learners will do more dissection work to contextualise their anatomy and physiology study.

**Item no.** : HT30690046  
**Format** : DVD (With CD-ROM)  
**Price** : GBP 89.00

### LEVEL 3 SPORT: PERFORMANCE AND EXCELLENCE - SPORTS INJURIES

In this lesson learners look at some common sporting injuries, in particular the ankle inversion injury.

In groups, they research specific factors of sport injuries, then create role play scenarios where they treat the 'patient'. This leads to peer teaching opportunities, which reinforces the learning.

## GUIDANCE

### CHILDREN AND DIVORCE:

## **VOLUME 1, THE EXPERIENCE AND FEELINGS**

The Experience and Feelings, chapters include What Divorce Means to Me, How I Heard, My Biggest Worry, Things That Help, and If I Had a Magic Wand.

Children teach others about divorce by sharing their personal experiences. They describe what divorce means to them, how it has changed their lives, what has helped, what they love most about their families, and much more. Viewers will be left with a sense of hope and an understanding that they are not alone in experiencing divorce.

**Item no.** : HB00021369  
**Format** : DVD  
**Duration** : 17 minutes  
**Audience** : Grades K-8  
**Copyright** : 2015  
**StdBkNo** : 9781618674944  
**Price** : USD 109.95

## **CHILDREN AND DIVORCE: VOLUME 2, THE TRANSITION**

The Transition, chapters include What Has Changed Since the Divorce, My Parents' Relationship Now, Caught in the Middle, and Back and Forth.

Children teach others about divorce by sharing their personal experiences. They describe what divorce means to them, how it has changed their lives, what has helped, what they love most about their families, and much more. Viewers will be left with a sense of hope and an understanding that they are not alone in experiencing divorce.

**Item no.** : HT02191370

**Price** : USD 109.95

## HISTORY

### HIROSHIMA - THE REAL HISTORY

The day that changed the world forever

The nuclear bomb dropped on Hiroshima heralded the dawn of a new era. Its detonation not only killed over 100,000 people but also signified both the final chapter of World War Two and the beginning of the nuclear age. Armed conflict, international politics and the security of all mankind would never be the same again.

Through a detailed retelling of the events before, during and after the dropping of the bomb, this film unravels the compelling story of one of the 20th century's defining moments and reveals the far-reaching consequences of the explosion, both in Hiroshima itself and for the world at large. From the rooms of the world's most powerful leaders, both Allied and Japanese, to inside the planes sent on the fateful mission to the devastated streets of Hiroshima in the hours after the attack, it explores the crucial moments, the key locations, and the pivotal players.

### MAGNA CARTA

With David Starkey

Cry freedom?

Invoked against the excesses of royal power in 1215, Magna Carta is perhaps the most famous constitutional document in history. Though very much a product of its time, it has inspired many others, including the American Declaration of Independence and the UN's Universal Declaration of Human Rights.

David Starkey explores its deployment, its contribution to making everyone - even the monarch - subject to the rule of law, and how this quintessentially English document migrated to the North American colonies and eventually became the foundation of the US constitution.

Magna Carta has become a universal symbol of individual freedom against the tyranny of the state, but with ever-tightening government control on our lives, is it time to resurrect it?

### NAPOLEON EPISODE 1

The true story

From lowly Corsican Army officer to First Consul of France, this edition charts the rise of Napoleon to leader of the French nation in the late 1790s. It tells of Napoleon's military triumphs in Italy, Egypt and on the streets of Paris, his marriage to Josephine Beauharnais and leadership of the military coup that swept him into power. It shares in his ambition as an army officer, his highly progressive modernisation of the country during the early years of his dictatorship but also his acute sensitivity, a personality trait that in later years would prove to be an Achilles heel to his power.

### NAPOLEON EPISODE 2

The true story

In 1805, when Napoleon was crowned King of Italy, he was at the height of his power - the previous year, he had been crowned Emperor of the French. This edition charts the transformation of a political leader of the French to Emperor and global statesman, from a son of the French Revolution to husband of the

daughter of the Holy Roman Emperor, the most powerful, conservative, monarchist nation on earth. It features the Battle of Austerlitz, one of the greatest military encounters of the nineteenth century and the rise of a Napoleonic Empire - at its peak numbering over 40 million people.

**Copyright** : 2015  
**Price** : GBP 195.00

### NAPOLEON EPISODE 3

The true story

In 1815, Napoleon was taken to the remote island of St Helena in the Atlantic Ocean, a prisoner of the British. It had taken just a year for the monarchies of Europe, the anti-Napoleonic powers of the world, to destroy him. This final edition charts the fall of Napoleon, a key defining moment in global history. He trusted the Tsar of Russia - but the Tsar reneged on their deal. He sought revenge by invading Russia in 1812 - but the campaign was a disaster. He sought to defend France against her enemies - but made some grave, and ultimately suicidal military misjudgements.

### ROME'S INVISIBLE CITY

Enter an incredible world #

With exclusive access deep beneath Rome's streets and stunning new visualisation techniques, classicist Dr Michael Scott leads a team of experts to reveal the full story of the ancient world's most awe-inspiring city and the extraordinary people who created and lived in it. Rome's spectacular skyline is as breathtaking today as when it was built. But that iconic city-scape is only half the story.

There is another Rome that few people have ever seen. From huge underground quarries, subterranean aqueducts, vast water cisterns to ornate temple and tombs and the elaborate lifts, trap doors and mechanics beneath the Coliseum, this film reveals for the first time the buried story of the ingenious Romans and how they planned, created and lived in their captivating city more than two millennia ago.

## **SAINTS AND SINNERS - A MILLENNIUM OF MONASTERIES - EPISODE 1**

The heart and soul of a nation

Today, monasteries are refuges from the frantic pace of modern life; tranquil retreats insulated from the endless flow of events, debate and hubbub that dictate life outside their walls. But, it wasn't always like this.

For 1,000 years monasteries were at the very heart of public life in the British Isles. Immersive, fascinating and told with wit and warmth, join Dr. Janina Ramirez as she brings the past to life and relates how the monasteries forged a sense of national identity, helped shape the world around them and created a dazzling millennium of art.

Each episode covers a distinct phase in the story of the monasteries - from their roots in radical evangelism, to their transformation into a vehicle of, and eventual rival to, state power, and the tumultuous days of their dissolution and destruction.

## **TOUCHED BY AUSCHWITZ - EPISODE 1**

What happened to the survivors after the war

The extraordinary story of six Auschwitz survivors - telling of their survival in the years after they left the camp, and travelling right up to the present day. Producer and director Laurence Rees has travelled extensively in order to film six survivors of Auschwitz, along with their friends and families. Together these sequences, filmed in Jerusalem and Chicago, London and Bavaria, Krakow and Tel Aviv, build into a compelling portrait of the problems, challenges and triumphs that six different individuals have

experienced since the war as a result of their time in Auschwitz.

These interviews attempt to answer one of the most profound questions of the Holocaust - what is the human legacy of the crime? This is unique television. No one who watches it, and hears this testimony, will ever look at the world in quite the same way again.

## **WHO KILLED THE PRINCES IN THE TOWER?**

The truth about Richard III and one of the most infamous episodes in English history

In 1483, the twelve-year-old King Edward V and his younger brother were put into the Tower of London by their uncle, Richard. Weeks later, Richard pronounced himself King. The boys were never seen again.

For more than 500 years it has been assumed that Richard killed his nephews

in a craven attempt at glory. But, some say, Richard was no child-killing monster. Rather, he was the finest King England ever had. Others say nobody killed the princes at all, and they lived anonymously into old age far away from the cut-throat world of the English court.

This film explores what might have happened, interrogating all the possible culprits, and capturing the debates that rage as fiercely as ever. Fresh and incisive, this film combines compelling personal arguments with the latest evidence to present a coherent and contemporary perspective on an enduring mystery.

## NATURAL WORLD

### ANIMALS AND LOVE - EPISODE 1

Natural romantics

Do penguins fall in love? How do capuchin monkeys flirt? Do hyenas get first date jitters? Presenter Liz Bonnin reveals the surprising similarities between the ways humans and animals pursue a mate and having found 'the one' how they go about maintaining a relationship.

Discover how flamingos spruce themselves up to attract a mate, meet the alligators who woo the girl of their dreams with song and dance, and the bonobos who believe making each other laugh is one of the secrets of a successful relationship.

Featuring interviews with top animal behaviourists, *Animals in Love* reveals the surprising science behind some of these unexpected similarities, offering a wholly fresh look at animal relationships.

### ATTENBOROUGH'S NATURAL CURIOSITIES 3: CURIOUS CURES

Human are not alone in using medicines against injuries and infection. Some animals protect themselves with natural remedies in the most extraordinary ways.

Hippos produce a blood-red "sweat" that acts as a sunblock and helps fight infections, while capuchin monkeys rub themselves with insect-repellent leaves to protect themselves from insect bites.

**Note: This BBC title not available in Hong Kong, Macau, Taiwan, Mainland China, Japan, USA, Canada.**

**Duration** : 30 minutes  
**Copyright** : 2015  
**Price** : GBP 195.00

### ATTENBOROUGH'S NATURAL CURIOSITIES 3: CURIOUS MINDS

Orangutans are clever tool users but strangely such skills remained undiscovered for centuries. They were considered as just clever mimics until discovery in remote Sumatran swamps revealed their true potential.

Crows are clever birds that can solve problems and they too make surprisingly sophisticated tools. How have the curious minds of these two animals helped them become so inventive?

**Note: This BBC title not available in Hong Kong, Macau, Taiwan, Mainland China, Japan, USA, Canada.**

**Price** : GBP 195.00

### ATTENBOROUGH'S NATURAL CURIOSITIES 3: EXPANDABLE BODIES

The bodies of some animals stretch and shrink in extraordinary ways. The anaconda can swallow prey twice its own body size and then go for over a year without eating.

The camel's curious hump can almost double in weight giving it the energy to travel huge distances across deserts. What is the secret behind such expandable bodies?

**Note: This BBC title not available in Hong Kong, Macau, Taiwan, Mainland China, Japan, USA, Canada.**

### ATTENBOROUGH'S NATURAL CURIOSITIES 3: IMPOSSIBLE FEATS

It is said that fleas can jump the equivalent to us leaping over St. Paul's Cathedral and it is famously quoted that cheetahs can run at speeds of 70 miles per hour. But are these claims really true?

The discovery of the world most elastic natural protein in insects and the development of a hi-tech tracking collar have help reveal the true facts. So can these creatures really achieve what should be physically impossible?

**Note: This BBC title not available in Hong Kong, Macau, Taiwan, Mainland**

### **SUPER CUTE ANIMALS**

The science of adorable animals

Whether it's how they look or the way they behave, the world is full of super cute animals. This heartwarming programme reveals the science that explains why they look so endearing.

Find out why the charming snoring sound a hummingbird makes when it sleeps is so important to its survival. Sea otters might look like big bundles of fluff, but find out why they're really so furry. The penguin's waddle looks very funny, but the programme reveals the reasons for this comic walk.

Featuring locations from around the world, contributions from scientists, user-generated content and Natural History Unit archive, this fascinating programme reveals the science behind that 'aah' moment.

**Note: This BBC title not available in Hong Kong, Macau, Taiwan, Mainland China, Japan, USA, Canada.**

**Price** : GBP 195.00

### **WILD ALASKA: SPRING**

The last frontier

Part of the most modern nation on Earth, Alaska is a unique wilderness marked by extremes. Shaped by ice-sheets and glaciers, dotted with huge rivers and lakes, its northerly position, up on the Arctic Circle, means winters can be bitterly cold, while in summer, the size and shape of the land brings heat waves.

This series explores spring, summer and winter in this extreme wilderness and discovers the unique species that have learnt to thrive in these harsh conditions. Stories include a mother sea otter trying to get her vulnerable baby through the early, chilly days of spring, grizzly bears rushing to feed in the short summer and finding ingenious ways to fatten up, and young polar bears taking tentative steps on 'bouncy ice' as the freeze begins and puts them back in their element.

The series also visits the small human communities that are dotted through the land and discovers how they interact with their unusual environment.

As spring lights up the land, Alaska faces the greatest transformation on Earth. Temperatures soar - water, light and warmth return. Alaska's transition to spring may look magical, but for those animals emerging from a winter's sleep, it is a time of intense competition.

**Note: This BBC title not available in Hong Kong, Macau, Taiwan, Mainland China, Japan, USA, Canada.**

### **WILD ALASKA: SUMMER**

The last frontier

Part of the most modern nation on Earth, Alaska is a unique wilderness marked by extremes. Shaped by ice-sheets and glaciers, dotted with huge rivers and lakes, its northerly position, up on the Arctic Circle, means winters can be bitterly cold, while in summer, the size and shape of the land brings heat waves.

This series explores spring, summer and winter in this extreme wilderness and discovers the unique species that have learnt to thrive in these harsh conditions. Stories include a mother sea otter trying to get her vulnerable baby through the early, chilly days of spring, grizzly bears rushing to feed in the short summer and finding ingenious ways to fatten up, and young polar bears taking tentative steps on 'bouncy ice' as the freeze begins and puts them back in their element.

The series also visits the small human communities that are dotted through the land and discovers how they interact with their unusual environment.

The few short weeks of an Alaskan summer must sustain the abundant wildlife for the whole year. It is a time of madness,

but it's not all easy living and while there are riches, there is so little time to master the art of survival.

The last frontier

Part of the most modern nation on Earth, Alaska is a unique wilderness marked by extremes. Shaped by ice-sheets and glaciers, dotted with huge rivers and lakes, its northerly position, up on the Arctic Circle, means winters can be bitterly cold, while in summer, the size and shape of the land brings heat waves.

This series explores spring, summer and winter in this extreme wilderness and discovers the unique species that have learnt to thrive in these harsh conditions. Stories include a mother sea otter trying to get her vulnerable baby through the early, chilly days of spring, grizzly bears rushing to feed in the short summer and finding ingenious ways to fatten up, and young polar bears taking tentative steps on 'bouncy ice' as the freeze begins and puts them back in their element.

The series also visits the small human communities that are dotted through the land and discovers how they interact with their unusual environment.

The vast mountains, the surrounding oceans and the northerly latitude combine to deliver one of the most extreme winters on the planet. Preparation is everything as winter tightens its grip: how do you cope when the land freezes, storms rage and, finally, endless darkness descends?

**Note: This BBC title not available in Hong Kong, Macau, Taiwan, Mainland China, Japan, USA, Canada.**

**Item no.** : RM29730775  
**Format** : DVD  
**Duration** : 50 minutes  
**Copyright** : 2015  
**Price** : GBP 195.00

## **POST COMPULSORY OBSERVATION**

### **A2 COMMUNICATION AND CULTURE: APPLYING MARXIST THEORY TO A CULTURAL TEXT**

In this lesson learners apply the Marxist

theory that they have been learning about over the previous week in preparation for the critical theory part of the exam.

The focus of this session is Madonna's Material Girl music video, and the aim is to apply critical theory to this case study. Once understood, students will move on to a music video of their own choosing.

**Item no.** : PN30690006  
**Format** : DVD (With CD-ROM)  
**Price** : GBP 89.00

## **AS PSYCHOLOGY: ATTACHMENT BEHAVIOURS**

Students are introduced to the strange situation experimental method and the attachment behaviours associated with it.

Students engage with the option of role play or commentary to explore and demonstrate their learning humorously, but without losing focus on the task. This practical approach encourages conversation about the various attachment behaviours.

**Item no.** : WU30690030  
**Format** : DVD (With CD-ROM)  
**Price** : GBP 89.00

## **PRIMARY OBSERVATION**

### **RECEPTION LITERACY: INSPIRED WRITING**

In this early years session the focus is to inspire children to write. Previously children had found clues in the playground including droppings, bones and footprints and had to decide what creature left them. The class agreed it must be a dinosaur, making this the topic of the lesson. A range of activities including messy play encourage the children, boys in particular, to extend vocabulary and have a go at writing.

**Item no.** : JC30690049  
**Format** : DVD (With CD-ROM)  
**Price** : GBP 89.00

### **RECEPTION MATHS - ADDITION**

This early years session children begin to look at addition. Previously children have been counting in twos, fives and tens.

The theme is 'Under the Sea' and children are shown the four different methods of adding groups together. Strategies of addition are introduced, followed by differentiated games.

Finally children explore the continuous provision in the classroom to reinforce their skills.

**Item no.** : RY30690050  
**Format** : DVD (With CD-ROM)  
**Price** : GBP 89.00

### **RECEPTION MATHS - COUNTING AND NUMBER BONDS**

This lesson is based on the topic 'Under the Sea' where children revisit all the skills that they have learnt so far in order to see where they are and what they will do next. This includes revisiting numbers, accurate counting, number bonds and problem solving.

A range of differentiated activities take place. The lower ability group play messy maths recognising, ordering and writing numbers. Middle ability pupils work together outside to problem solve and record answers. The higher ability group play the role of roving reporters, recording with marks.

**Item no.** : KG30690051  
**Format** : DVD (With CD-ROM)  
**Price** : GBP 89.00

### **RECEPTION SCIENCE - ALL ABOUT PEAS**

Children look at a selection of peas, whole, mushy, frozen etc, in order to describe the differences.

As they talk about eating preferences and the various properties of the peas, they are encouraged to use scientific vocabulary to describe them. This leads on to looking at how peas grow and the parts that make up a pea plant. Numeracy and phonics are introduced as the children count leaves and sound out the names of plant parts, such as shoot, root, stalk etc.

**Item no.** : MF30690052  
**Format** : DVD (With CD-ROM)  
**Price** : GBP 89.00

### **YEAR 1 NUMERACY: FRACTIONS OF SHAPE**

In this year 1 numeracy lesson the class look at fractions of shapes. The focus of this session is on halves and quarters and how to write these fractions. The lesson starts with a picnic where children share out food, then moves into the classroom to discuss what fractions look like. This is followed by a carousel of activities, including recording of fractions, role play and ICT activities to reinforce the learning.

**Item no.** : NR30690053  
**Format** : DVD (With CD-ROM)  
**Price** : GBP 89.00

### **YEAR 1 PHONICS: DIGRAPH EY**

In this lesson a new phase five sound is introduced - the E sound covering the letters EY which come at the end of a word. Children have previously looked at phase 3 sounds EA / EE and phase five E split paragraph. This session looks at alternative ways of using E sound in words. Activities give children of different abilities the opportunity to explore the sounds in a variety of ways, through outdoor games, messy play and recording and writing sounds.

**Item no.** : WR30690054  
**Format** : DVD (With CD-ROM)  
**Price** : GBP 89.00

### **YEAR 1 PHONICS: O SOUND**

This bottom ability SEN group look at the "o" sound for the first time in class. A range of activities keep all children engaged and active. A variety of strategies are used including peer and self-assessment and talk partners. The objective of the session is that they are able to recognise and blend word with the "o" sound in them.

**Item no.** : YE30690055  
**Format** : DVD (With CD-ROM)  
**Price** : GBP 89.00

### **YEAR 1 SCIENCE: MATERIALS**

This lesson's focus is on sorting and describing the features/characteristics of materials. Children use their senses to see what materials look and feel like in order to find out more about them and convey this knowledge.

**Item no.** : ND30690056  
**Format** : DVD (With CD-ROM)  
**Price** : GBP 89.00

### **YEAR 2 LITERACY: REPORTED SPEECH**

The children are familiar with speech punctuation, and in this session focus on using reported speech.

During the lesson a 'live' pirate enters the classroom, stealing a variety of items, including the teacher's I-Pad. This is the stimulus for the lesson, where children interview each other and fill out a police incident form using reported speech.

**Item no.** : MS30690058  
**Format** : DVD (With CD-ROM)  
**Price** : GBP 89.00

### **YEAR 2 READING: USING EXPRESSION**

This is one of year 2 children's daily reading sessions. The focus of this session is using expression and the class

is split up into 5 groups. The teacher and assistants work with 3 groups in activities such as guided reading and response, whilst the remaining children read and write independently.

**Item no.** : RJ30690059  
**Format** : DVD (With CD-ROM)  
**Price** : GBP 89.00

### YEAR 3 SCIENCE: FORCES

This is a small group activity with a specialist teacher within the school's practice in a dedicated science classroom. Lab 13 has been recognised by Ofsted as an example of good practice in science teaching.

This lesson was prompted by assessed misconceptions in the class relating to the topic of forces. The pupils decide to focus on how different objects move through water. The labs practical, hands-on ethos encourages the children to explore the question and discover answers for themselves.

This session will allow the group to feed back to their peers.

**Item no.** : DM30690060  
**Format** : DVD (With CD-ROM)  
**Price** : GBP 89.00

### YEAR 3 TOPIC: THE ROMANS - GLADIATORS

This cross-curricular topic lesson looks at Roman Gladiators. Previously children had done some work in guided reading and have an understanding of roman soldiers.

Now they learn more about gladiators lives and consider what would make the perfect gladiator. Finally they start work on a gladiator fact file of their own.

**Item no.** : TS30690061  
**Format** : DVD (With CD-ROM)  
**Price** : GBP 89.00

### YEAR 4 LITERACY: DRAGONS - WRITING A SETTING DESCRIPTION

In this Year 4 Literacy lesson the topic is dragons and the class are looking at stories about imagined worlds. In the lead up to this session, children have done several drama-based activities, such as a dragon hunt and investigating habitats.

This lesson brings this all together and the objective is to write an imaginative setting description.

**Item no.** : TJ30690062  
**Format** : DVD (With CD-ROM)  
**Price** : GBP 89.00

### YEAR 4 PHILOSOPHY:

### WHAT DOES IT MEAN TO BE BEAUTIFUL?

In this Philosophy class children look at the definition of beauty and what it means to different people.

This encourages deeper thinking skills, such as critical thinking, reasoning and logic.

Children participate in lively group and whole class discussion to try to create a definition of beauty.

**Item no.** : FD30690063  
**Format** : DVD (With CD-ROM)  
**Price** : GBP 89.00

### YEAR 4 SCIENCE: FORCES - MAKING A PREDICTION

In this lesson the class explore materials and equipment needed in order to predict the effect of friction on a variety of objects and surfaces.

**Item no.** : RZ30690064  
**Format** : DVD (With CD-ROM)  
**Price** : GBP 89.00

### YEAR 4 SCIENCE: SOUND

The aim of this session is to establish what children already know about sound, what misconceptions they may have, and identify gaps in their knowledge. This allows teachers to effectively plan lessons around the topic.

**Item no.** : CA30690065  
**Format** : DVD (With CD-ROM)  
**Price** : GBP 89.00

### YEAR 5 LITERACY: WRITING A CONCLUSION

This top set literacy group's task is to write a conclusion to a text that they have been studying for 3 weeks.

A treasure chest containing artefacts is used to stimulate children's imagination and ideas. This outstanding lesson sees independent working by groups enabling adults to provide focused support and challenge to individual tables.

**Item no.** : BA30690066  
**Format** : DVD (With CD-ROM)  
**Price** : GBP 89.00

### YEAR 5 MATHS: NEGATIVE NUMBERS

This lesson's focus is on negative numbers and using them in context. This is a lower ability group made up of learners with special education needs (SEN) including autism and speech/language difficulties.

Previously the class have looked at positive and negative numbers on a

number line, and in this lesson they put this in the context of temperature.

**Item no.** : HL30690067  
**Format** : DVD (With CD-ROM)  
**Price** : GBP 89.00

### YEAR 6 LITERACY: WRITING LIMERICKS

The objective of the lesson is to write an effective limerick. The theme of the term is the Victorians.

Students develop their own success criteria by discussing the characteristics of limericks and looking at some of Edward Lear's work.

**Item no.** : TG30690068  
**Format** : DVD (With CD-ROM)  
**Price** : GBP 89.00

### YEAR 6 MATHS: PERCENTAGE

The topic of this year 6 set is solving percentage problems looking at increasing and decreasing figures.

In this fast-paced revision and consolidation pre-SATs lesson, pupils are constantly challenged. With just three weeks left until SATs, the class are aiming to plug gaps in their knowledge and identify areas of weakness.

**Item no.** : FY30690069  
**Format** : DVD (With CD-ROM)  
**Price** : GBP 89.00

### YEAR 6 MUSIC: AFRICAN MUSIC

The students look at different aspects of music they have studied over six weeks and bring everything they have learned together in a final musical performance. The class have been learning about African songs, singing in harmony, call and response, and playing instruments.

**Item no.** : PY30690070  
**Format** : DVD (With CD-ROM)  
**Price** : GBP 89.00

### YEAR 6 SCIENCE: MELTING - INTERPRETING RESULTS

Each of the year 6 children in this class have set up their own investigation into the melting of ice. This lesson focus is on interpreting results and discovering how these can be described clearly. This skill will be used when the students conduct their own practical experiments in future lessons. This is an exemplary lesson.

**Item no.** : ZS30690071  
**Format** : DVD (With CD-ROM)  
**Price** : GBP 89.00

Hong Kong, Macau, Taiwan, Mainland China, Japan, USA, Canada.

## YEAR 6 SCIENCE: PLANNING A FAIR TEST

This mixed ability group work in pairs and discuss ways to create a fair test and decide on what they wish to investigate.

They identify the factors that could effect their experiments using a template and a post-it note method in order to come up with clinical and scientific questions. Finally the class review what they have found and decide which experiment is the most interesting to investigate further.

**Item no.** : NG30690072  
**Format** : DVD (With CD-ROM)  
**Price** : GBP 89.00

## SCIENCE, MEDICINE & TECHNOLOGY

### AFTERSHOCK - THE HUNT FOR GRAVITATIONAL WAVES

The search for a theory of everything

In early 2014 scientists thought they had found evidence of gravitational waves from the Big Bang. These waves could help physicists on the search for a Theory of Everything - a grand explanation of all physics.

However, doubts set in almost immediately with rival groups reanalysing the data. Horizon embarks on a journey through this wild frontier of physics - a story of rejection, perseverance and professional courage where, for some, glory beckons while, for others, their life's work hangs in the balance.

### ANIMAL MUMMIES - EGYPT'S DARK SECRET

Sacred creatures

Modern advances in imaging technology are allowing Dr Lidija McKnight and her team to create accurate 3D images of ancient Egyptian animal mummies. The biggest survey of its kind, this study aims to discover the truth about the strange role animals played in ancient Egyptian beliefs. Horizon joins the team as the scanning begins.

### BRITAIN'S FAVOURITE FOODS - ARE THEY GOOD FOR YOU?

The truth about what's in our shopping trolleys

We like to think of ourselves as having a healthy diet, eating more fruit and knowing more about which foods are good or bad for us. But what's the truth - are we eating well or not? In this informative film, Professor Alice Roberts discovers the real story behind our modern-day eating habits.

From the teabags that contain hefty doses of potentially dangerous fluoride, to the much-maligned hard cheese that could actually help you lose weight, this timely documentary profiles the foods we love to eat most. What do our choices say about us? What goes into our food and how can we get the best out of it? And, most importantly, what's in your shopping trolley?

### CATCHING HISTORY'S CRIMINALS - THE FORENSICS STORY: A QUESTION OF IDENTITY

The secret history of catching criminals

Where there's a murder, there's a body, and it's often the most significant piece of evidence, preserving important clues. This episode features the first investigation in which DNA fingerprinting was used to convict a serial killer, unearths a historic case involving a college janitor turned detective, and explains how you go about putting a name to a body when it's been dissolved in acid.

**Note: This BBC title not available in Hong Kong, Macau, Taiwan, Mainland China, Japan, USA, Canada.**

### CATCHING HISTORY'S CRIMINALS - THE FORENSICS STORY: INSTRUMENTS OF MURDER

The secret history of catching criminals

Most murderers use a weapon. One of the top-priority tasks for detectives is to find that weapon. It can lead to the killer but it can also reveal so much more. Using cutting-edge forensic techniques, the murder weapon can now give us an insight into the mind of the killer. This episode examines the murder weapon that until 150 years ago left no trace, how 3D crime-scene modelling is revolutionising gun crime investigations, and why, until recently, much of what we knew about fire analysis and arson was wrong.

### CATCHING HISTORY'S CRIMINALS - THE FORENSICS STORY: TRACES OF GUILT

The secret history of catching criminals

Blood, hair, fibre - these tell-tale signs are often the key to catching the most careful of killers. This second programme looks at blood-spatter analysis and what it can reveal about the killer, the soil on a suspect's shoe that solved one of history's ugliest crimes, and the conviction of a killer based only on a small piece of cord and a single hair.

### CLIMATE CHANGE BY NUMBERS EPISODE 1

One planet, and the three numbers that could help us save it

Packed with fascinating facts, this is the astonishing story of the numbers that underpin everything we know about climate change. Earth's climate is changing - understanding how has become one of the biggest scientific projects ever undertaken. But the epic scale of this study has made it remote and

19

difficult to understand; we're overwhelmed by a blizzard of information and no-one knows which bits to believe.

This revelatory documentary looks at the incredible methods that allowed scientists to arrive at precise figures, and uses stories from around the world to present this previously obscure field in an accessible way. A timely take on an urgent issue, Climate Change by Numbers reveals why scientists are so certain they are right, where we have reached the limits of our knowledge, and what uncertainty really means.

**Note: This BBC title not available in Hong Kong, Macau, Taiwan, Mainland China, Japan, USA, Canada.**

## HORIZON GUIDE TO CLIMATE CHANGE

Predicting the unpredictable

Whatever your views, climate change is now a familiar part of everyday conversation. We all know what it is, even if we don't all agree on what we think about it. But 50 years ago, the science of

climate change was an academic backwater.

The journey from scientific obscurity to the full glare of publicity has been fascinating, full of strange twists, extreme natural disasters, ambitious theories and changing fashions. This Horizon Guide looks back through the programme archive to reveal how climate change emerged from the shadows, to take its place at the centre stage of global debate.

## INSIDE HARLEY STREET: MAKE ME BEAUTIFUL

What price health?

What happens when a patient becomes the customer and health is a consumer product, where money gives you access to the best available care? This fascinating and entertaining observational documentary series looks inside the hidden and privileged world of private medicine in Harley Street, the world famous and iconic British institution.

Home to the greatest concentration of medical expertise anywhere in the world, with doctors and clinicians representing every medical discipline, Harley Street is an exclusive and expensive one-stop shop for everything from cutting-edge cancer treatment to the booming business of cosmetic surgery. But while the wealthy form a significant part of its custom, Harley Street is also the place of last resort for desperate people.

Inside Harley Street tells the stories from both patients and clinicians' points of view as it offers unprecedented behind the scenes access to a rarefied and elite institution.

## IS BINGE DRINKING REALLY THAT BAD?

Can you enjoy a drink and stay healthy?

Is occasional binge drinking that much worse than drinking small amounts of alcohol each day? Considering it is a drug that has been enjoyed since the dawn of civilisation, the science around alcohol is surprisingly vague and conflicting. Doctors and genetically identical twins Chris and Xand van Tulleken investigate the latest science and put their own bodies to the test to see how alcohol really affects us. You'll never look at a night out, or your hangover, in the same way again #

## JOURNEY TO FIRE MOUNTAIN EPISODE 1

In the shadow of the volcano

On the island of Tanna, the team get perilously close to the bubbling lava at the heart of Yasur to retrieve lava bombs that contain vital data. En route to the volcano, they discover why Kapia pigs are so revered on the island, how a cyclone caused a three-kilometre-wide lake to disappear in just a couple of hours, and why the volcanic soil found here results in such lush vegetation.

## MYSTERY OF MURDER, THE: A HORIZON GUIDE

What drives people to kill?

What drives people to kill? Science has spent more than 50 years trying to get inside the mind of murderers to find in what ways they are different to the rest of us - and also the ways in which they are disturbingly similar.

Michael Mosley opens up the Horizon casebook to discover how scientists have used extraordinary techniques and experiments to see what goes on inside the brain of a murderer. He shows how they have created a surprisingly comprehensive picture of the different factors that can drive someone to kill. And he asks the ultimate question - will we one day be able to intervene to prevent someone becoming a killer?

## PERFECT DIET FOR YOU, THE? - EPISODE 1

Fighting fat with science

In a groundbreaking experiment, this series brings together the world's foremost experts in genetics, biochemistry, neuroscience, nutrition science and applied behavioural medicine to test the latest weight-loss theory.

Based on the latest scientific research, the central tenet of this theory suggests the key to sustained weight loss could be in knowing which physiological group, or 'diet tribe', you belong to. The only way to diet successfully is to understand your body's individual biology and bespoke needs.

The Perfect Diet For You? tests this theory on 75 people and follows the dieters through the ups and downs of their individual weight-loss programme. But will the experiment prove a success?

**Note: This BBC title not available in Hong Kong, Macau, Taiwan, Mainland China, Japan, USA, Canada.**

## PLANET OIL: CLIMATE WARS

No fuel, no future?

This is the rollercoaster story of global

energy security, and we are at its critical juncture. Around the world, oil and gas fields are either running dry or have become politically or environmentally toxic. For all the talk of renewables and nuclear, no one is in any doubt that the human race will continue to rely on fossil fuels for the foreseeable future. But how long can Earth's resources sustain life as we know it?

Travelling to many oil and gas producing territories around the world, Planet Oil traces how humans have developed fuels and how geology, technology, politics and commercial pressures have affected and driven the world's insatiable consumption. Timely and groundbreaking, it also asks what will be the cost of our continued addiction to these fuels, and can the human race ever end its dependence on oil?

**Note: This BBC title not available in Hong Kong, Macau, Taiwan, Mainland China, Japan, USA, Canada.**

## PLANT ODYSSEYS EPISODE 1

A story of flowers through time...

There are some 300,000 species of flowering plant on Earth. A small number have so captivated humans across the ages that they have become iconic, instantly recognisable as part of our everyday life. More than mere ornaments found in our gardens or home - behind their beautiful blooms lies an incredible evolutionary story.

This series explores the biological and botanical history of four iconic plants - including the rose, the tulip and the water lily. It traces each plant's epic journey across millennia, looking at how millions of years of evolution have created unique characteristics and how man has bent these traits to his will and the vagaries of fashion. But the surprises aren't purely biological. These plants have had an immeasurable impact on man.

Plant Odysseys also reveals not only how we have changed these plants but how they, in turn, have changed us.

## TRUTH ABOUT CALORIES, THE

Everything you thought you knew about calories is wrong

Calories are the language of many diets and healthy eating plans. But the numbers you see on the packets aren't what they seem. From the farm to the food factory, Dr Chris Van Tulleken goes in search of the truth about calories, challenging everything we thought we knew.

With the help of expert nutritionists and chefs, Chris discovers that you get more calories from a well-done steak than one that's cooked rare; finds out how adding double cream can actually cut the calories in your mashed potato; and learns the kitchen secrets that strip an astonishing 360 calories out of a meal without changing a single ingredient. Forget about all those over-hyped diets - The Truth about Calories reveals you don't need to eat less if you know how to eat smarter.

## TRUTH ABOUT FAT, THE

Scientists labelled fat the enemy. They were wrong.

Fat has a reputation as public health enemy number one. We've spent decades trying to eat less of it - yet today we're unhealthy than ever. This engaging film sees a group of health service workers undergo a series of eating trials - including a bold experiment to investigate the effects of giving up fat altogether. Monitoring the effects of their drastic diet, this documentary demonstrates how, for healthy people, low-fat diets are bad news.

Discover how a portion of steamed salmon has more fat than a pizza, learn how the fat from a greasy meal turns up in your blood within a matter of hours, and find out why fat may even help with weight loss. Stuffed full to bursting with more astonishing facts and surprising experiments, The Truth About Fat reveals how a little bit of what we like can be good for us.

## WONDERFUL WORLD OF BLOOD, THE

Bleeding-edge science

This fascinating film sees Michael Mosley put himself through some extreme challenges to discover how our blood protects us from infection, heals us when we're wounded, and powers our lives.

He undergoes experiments including entering a low-oxygen environment to supercharge his blood and boost his physical fitness; poisoning his blood with a vial of viper venom in order to see it clot; doing a state-of-the-art body scan to chart every artery and vein in his body; and going white-water rafting to discover how his blood's defences combat stress.

The programme explores the dark mythology around blood, and meets the scientists on the cusp of discovering whether there's any truth in the 'Dracula myth' - that young blood can reverse the ageing process. Packed with absorbing stories, this is a comprehensive take on a subject that's central to our survival.

## WORLD BENEATH YOUR FEET: BUILDING BRITAIN

The surface is only half the story

We live in a world of secrets that can only fully reveal itself if you look in a new way... from beneath. Offering a unique perspective, this eye-opening series explores the astonishing unseen wonders under our feet.

From the vast cavern that conceals a waterfall twice the height of Niagara Falls, to the pipeline network that keeps one of the world's busiest airports supplied with fuel, this fascinating programme plumbs the depths of some breathtaking underground spaces.

Using state-of-the-art graphics, The World Beneath Your Feet shows the incredible scale and detail of man-made structures and natural phenomena that would otherwise be hidden from view. This is the world as you've never seen it before - the subterranean kingdom that is so integral to the survival of life on the surface.

## SECONDARY OBSERVATION

### YEAR 10 MEDIA STUDIES: RESEARCHING TARGET AUDIENCE

This unit looks at the music industry, and learners are working towards either making a music magazine or video.

The aims of the lesson are for learners to identify who their target audience might be, and what kind of information they need to help them make their own product.

This involves researching audiences by looking at popular artists' websites.

Item no. : TY30690057  
Format : DVD (With CD-ROM)  
Price : GBP 89.00

### YEAR 9 ICT: CREATING A BUILDING IN GOOGLE SKETCHUP

In this lesson learners focus on Google Sketchup, software which allows the design and planning of buildings.

They start with a 2D model from which a 3D working model is created.

The objective is for each learner to create a building which will for part of the whole classe's Google town.

## **HAROLD SHIPMAN: CATCHING DR DEATH**

Britain's most notorious serial killer

Devoted husband. Trusted doctor. Respected member of the community. Serial killer. Harold Shipman was the mild-mannered physician who fooled a nation, secretly killing over 250 people over a 30-year period.

Featuring exclusive and intimate interviews with the only psychiatrist to ever assess him, his colleague from Pontefract Hospital where he began killing, and relatives of his victims, this series traces Shipman's story from his early childhood to the eventual unravelling of decades of deceit that led to his conviction.

Using dramatic reconstructions of his crimes, in particular the 12 people he murdered in the same tower block, Harold Shipman offers a fascinating but chilling insight into the mind, methods and motivation of a callous killer.

## **LOUIS THEROUX - BY REASON OF INSANITY PART 1**

A dangerous state of mind

How does society treat those who have committed crimes - at times horrifically violent - while in the grip of severe mental illness? Over the course of these two fascinating films, award-winning journalist Louis Theroux explores the nature of mental illness and spends time with some sufferers in the USA who have found themselves on the wrong side of the law.

Visiting Ohio's State Psychiatric Hospitals, he meets patients who have been found not guilty by reason of insanity and ordered by the courts to receive treatment in secure psychiatric facilities in the hope of their eventual reintegration back into society. He also meets patients with a diagnosis of 'personality disorder', such as anti-social, borderline and narcissistic, and attempts to understand where mental illness ends and the person begins.

**Note: This BBC title not available in Hong Kong, Macau, Taiwan, Mainland China, Japan, USA, Canada.**

## STRATEGY & CHANGE

### CAPABILITIES-DRIVEN STRATEGY

With Paul Leinwand

Most companies today face a fundamental problem: the disconnect between what they aspire to do and what they can actually accomplish. CEO\*s are worried about their differentiation in a world that is increasingly hard to compete in. But are they creating strategies without fully understanding what the organization is capable of delivering? Drawing on research, including in-depth case studies on companies such as Apple and IKEA, Paul Leinwand explains how companies can correct a flawed strategy and still create value in the market.

### JUST THE FACTS: ON GREAT WHITE WINGS (WRIGHT BROTHERS)

ON GREAT WHITE WINGS - THE WRIGHT BROTHERS  
Narrated By MARTIN SHEEN

SHOT in stunning High Definition and narrated by Martin Sheen, On Great White Wings tells the compelling story of the Wright Brothers. This award-winning documentary made film history by flying a replica 1905 Wright Flyer - the first time since the original model was flown by the Wright Brothers.

SHOT in the style of a feature film rather than a traditional documentary, audiences will be immersed in the dramatic and emotional story of the brothers' quest for flight. Combining historical re-enactments, live-action footage of Wright replica airplanes, and state-of-the-art digital effects - the documentary cinematically brings history to life and showcases how two brothers, working alone, transformed the twentieth century with the invention of the airplane. On Great White Wings will move, educate, and inspire audiences for years to come.
